the forced mating or genetic engineering of different breeds or inbreeding and popularized by social media and celebrities In Designer Dogs Madeline Bernstein one of the country s most respected animal welfare crusaders reveals the obsession with new types of dogs engineering puppies that keep getting smaller or sillier looking and the horrifying health consequences of this on those we claim as our best friends She also provides extraordinary revelations on how this has led to a world of disposable pets puppies and adult dogs abandoned when their medical expenses become too costly and added to the 6 5 million animals entering shelters each year or put on the street and informed insight into what s ahead made to order puppies hybrid animals shorter life spans for dogs and even the extinction of breeds like French bulldogs pit bulls King Charles spaniels mastiffs Skye terriers bloodhounds and more And Bernstein calls out those responsible for the savagery both domestic puppy mills and backyard breeders and also an international dog trafficking ring that she s been on the front line exposing Bernstein s game changing and unforgettable book is destined to cause outrage and save lives in the process
