society Why are politicians using words like terror evil and fundamentalism and what effect is it having on public consciousness This book taps into the cultural psyche to explore the link between ideology and emotional and psychological manipulation It shows that the Bush administration has been hugely successful in controlling and developing a new political climate through the creation of an almost hypnotic mass consciousness From the sado masochist hysteria of Mel Gibson's *The Passion of the Christ* to the atrocities at Abu Ghraib prison and from the genocidal use of depleted uranium in Iraq to the apocalyptic language driving the Christian Right's assault on basic human rights Davis's findings take us to the heart of the ideological paralysis of the Left while offering an innovative approach to understanding contemporary history

The Theatre of the Dream Salomon

Resnik, 2005-11-08 The Theatre of the Dream is a profound study of our dream world and its place in everyday life The author grounds his ideas in Freud and psychoanalysis authors such as Klein Bion Rosenfeld and Matte Blanco but also draws on the approach to dream phenomena in the work of philosophers artists and poets He argues that dreams are indeed as the ancients held messages The dream is a theatrical re recreation of certain unconscious experiences which are both subjective and objective at the same time It expresses not only desire but a complex working over of a problematic situation that is not quite resolved In waking the dream is a new elaboration of everyday experience and one which creates the seeds of oracular awareness Resnik develops his thesis with ample and enlightening examples of dreams and their significance from his own patients The author's achievement is a new psychoanalytic reading of dreams one which does justice to Freud's momentous discovery but which broadens it and places it within the wider context of subsequent developments in psychoanalysis semiotics and social and cultural anthropology The book will be of great value to the professional psychotherapist or psychoanalyst as well as to students of literature the arts and linguistics and the wider public interested in the ongoing
