**Your Evolving Soul** Byron Belitsos, 2017-05-25 Sparks of genuine revelation are contained in many religions and esoteric systems Your Evolving Soul declares that we've been graced with a new revelation for our time the little known Urantia Book which has quietly sold over one million copies in a dozen languages According to the author of this comparative analysis the disclosures about self soul and spirit in the Urantia Revelation stand alone in their coherence and richness of detail Your Evolving Soul is the first book to fully explain this advanced teaching for the ordinary reader offering clarity and inspiration for those on any path Belitsos compares the Urantia Book's futuristic teachings about the threefold design of the human self system to the models of selfhood proposed by many previous thinkers ranging from Plato and Saint Augustine to Carl Jung and Ken Wilber He provides essential context for this discussion by illuminating the relationship of the Urantia text to scientific psychology and to the world's religions with special emphasis on Christianity and Buddhism Your Evolving Soul also provides an introduction to the cosmology theology and philosophy of the Urantia teaching and reveals its many affinities with contemporary integral theory and modern theology Through his lucid interpretation of the Urantia Revelation the author offers a model of the human self and soul to be tested examined and compared not a finished truth to be accepted as doctrine Readers of this book will discover a plausible hypothesis of how our evolving soul becomes an immortal vehicle of our true identity They also learn how our soul making decisions can lead to the development of a creative loving unified and perfected personality now and into the afterlife

**UFO Religions** Christopher Partridge, 2012-11-12 The spectre of the UFO as popularized by shows such as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven's Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs

**Religions of the World J.** Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts Religions of the World Second Edition A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works Entries include profiles on religion in the world's smallest countries the Vatican and San Marino profiles on religion in recently established or disputed countries Kosovo and Nagorno Karabakh as well as profiles on religion in some of the world's most remote places

Antarctica and Easter Island Religions of the World is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations Unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions      **The Divine Origin** Pasquale De Marco,2025-05-03 Embark on an extraordinary journey into the realm of divine revelation with The Divine Origin This captivating book explores the genesis evolution and significance of The Urantia Papers a profound collection of writings that has captivated the minds and hearts of countless individuals worldwide The Divine Origin takes you behind the scenes of this extraordinary revelation providing a detailed account of the human agents involved their motivations and the challenges they faced Discover the formation of the Forum a group that played a pivotal role in the reception and dissemination of the revelation Delve into the evolution of The Urantia Papers from their initial transmission to their eventual publication Learn about the challenges encountered in compiling editing and translating this vast body of material as well as the efforts made to preserve its integrity and authenticity The Divine Origin explores the spiritual significance of The Urantia Papers examining their profound insights into the nature of God the purpose of humanity and the path to spiritual growth Discover teachings on love forgiveness and the importance of personal transformation In addition the book delves into the scientific philosophical and cultural implications of The Urantia Papers Explore their perspectives on the origin of the universe the nature of consciousness and the relationship between science and religion Examine the impact of the Papers on art literature education and social activism The Divine Origin is an indispensable resource for anyone seeking a deeper understanding of The Urantia Papers and their profound impact on our understanding of ourselves our world and our place in the cosmos If you like this book write a review on google books      **Mediality on Trial** Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium s power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a

medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other
