

# THE BIRTH OF FASCIST IDEOLOGY

ZEEV STERNHELL  
with Mario Sznajder  
and Maia Asheri

Translated by David Maisel

# The Birth Of Fascist Ideology

**Dave Renton**

## **The Birth Of Fascist Ideology:**

**The Birth of Fascist Ideology** Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell's controversial interpretations In Sternhell's view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity

**The Birth of Fascist Ideology** Zeev Sternhell, Mario Sznajder, Maia Asheri, 1994      **Fascism** Dave Renton, 1999-04-20 A critical assessment of the current liberal theories of fascism that have emerged since the 1980s and 1990s      [The Totalitarian Experiment in Twentieth Century Europe](#) David Roberts, 2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book's original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment      *Making the Fascist Self* Mabel Berezin, 2018-10-18 In her examination of the culture of Italian fascism Mabel Berezin focuses on how Mussolini's regime consciously constructed a nonliberal public sphere to support its political aims Fascism stresses form over content she believes and the regime tried to build its political support through the careful construction and manipulation of public spectacles or rituals such as parades commemoration ceremonies and holiday festivities The fascists believed they could rely on the motivating power of spectacle and experiential

symbols In contrast with the liberal democratic notion of separable public and private selves Italian fascism attempted to merge the public and private selves in political spectacles creating communities of feeling in public piazzas Such communities were only temporary Berezin explains and fascist identity was only formed to the extent that it could be articulated in a language of pre existing cultural identities In the Italian case those identities meant the popular culture of Roman Catholicism and the cult of motherhood Berezin hypothesizes that at particular historical moments certain social groups which perceive the division of public and private self as untenable on cultural grounds will gain political ascendance Her hypothesis opens a new perspective on how fascism works **Radical History Review: Volume 65** Rhr

Collective,1996-04-26 Radical History Review presents innovative scholarship and commentary that looks critically at the past and its history from a non sectarian left perspective Avant-Garde Fascism Mark Antliff,2007-09-03 An investigation of the central role that theories of the visual arts and creativity played in the development of fascism in France between 1909 and 1939 Historicism and Fascism in Modern Italy David D. Roberts,2007-10-27 During the early decades of the twentieth century Italy produced distinctive innovations in both the intellectual and political realms On the one hand Benedetto Croce 1866 1952 and Giovanni Gentile 1875 1944 spearheaded a radical rethinking of historicism and philosophical idealism that significantly reoriented Italian culture On the other hand the period witnessed the first rumblings of fascism Assuming opposite sides Gentile became the semi official philosopher of fascism while Croce argued for a renewed liberalism based on absolute historicism In Historicism and Fascism in Modern Italy David D Roberts uses the ideological conflict between Croce and Gentile as a basis for a wider discussion of the interplay between politics and ideas in Italy during the early twentieth century Roberts examines the connection between fascism and the modern Italian intellectual tradition arguing that the relationship not only deepens our understanding of fascism and liberalism but also illuminates ongoing dangers and possibilities in the wider Western world This set of twelve essays by one of the leading scholars in the field represents an authoritative view of the modern Italian intellectual tradition its relationship with fascism and its enduring implications for history politics and culture in Italy and beyond T. E. Hulme and the Ideological Politics of Early Modernism Henry Mead,2015-08-27 Drawing on a range of archival materials this book explores the writing career of the poet philosopher art critic and political commentator T E Hulme a key figure in British modernism T E Hulme and the Ideological Politics of Early Modernism reveals for the first time the full extent of Hulme s relationship with New Age a leading radical journal before the Great War focussing particularly on his exchange of ideas with its editor A R Orage Through a ground breaking account of Hulme s reading in continental literature and his combative exchanges amongst the bohemian networks of Edwardian London Mead shows how the strange death of Liberal England coincided with Hulme s emergence as what T S Eliot called the forerunner of the twentieth century mind Tracing his debts to French Symbolism evolutionary psychology Neo Royalism and philosophical pragmatism the book shows how Hulme combined anarchist and

conservative impulses in his journey towards a religious attitude The result is a nuanced account of Hulme's ideological politics complicating the received view of his work as proto fascist

**Capital, Race and Space, Volume I** Richard Saull, 2023-05-15 In this first volume of *Capital Race and Space* Richard Saull offers an international historical sociology of the European far right from its origins in the 1848 revolutions to fascism Providing a distinct and original explanation of the evolution and mutations of the far right Saull emphasizes its international causal dimensions through the prism of uneven and combined development Focusing on the twin political and economic transformations that dominated the second half of the nineteenth century the book discusses the connections between class race and geography in the evolution of far right movements and how the crises in the development of a liberal world order were central to the advance of the far right ultimately helping to produce fascism Volumes I and II of *Capital Race and Space* were shortlisted for the 2024 BISA IPEG book prize for best book published in the field of IPE in 2023 and subsequently recognised by the IPEG Book Prize Committee as Highly Commended The shortlisted books represent the very best of IPE scholarship cutting across disciplinary boundaries and addressing timely topics

Reassessing Political Ideologies Michael Freeden, 2004-08-02 This book is a high level examination of each of the major ideologies that have shaped political thinking action and conflict Each chapter provides a critical overview of the current state of the major ideologies and a retrospective assessment of the strengths weaknesses developments and transformations of these ideologies over the past century The volume poses a strong challenge to those who have loudly proclaimed the end of ideology by demonstrating that it is impossible to understand current political developments without an appreciation of their ideological context It features internationally respected contributors who are authorities in their fields and will be an invaluable resource for both students and specialists in areas including Politics and International Relations

**Fantasies of Salvation** Vladimir Tismaneanu, 2009-06-08 Eastern Europe has become an ideological battleground since the collapse of the Soviet Union with liberals and authoritarians struggling to seize the ground lost by Marxism In *Fantasies of Salvation* Vladimir Tismaneanu traces the intellectual history of this struggle and warns that authoritarian nationalists pose a serious threat to democratic forces A leading observer of the often baffling world of post Communist Europe Tismaneanu shows that extreme nationalistic and authoritarian thought has been influential in Eastern Europe for much of this century while liberalism has only shallow historical roots Despite democratic successes in places such as the Czech Republic and Poland he argues it would be a mistake for the West to assume that liberalism will always triumph He backs this argument by showing how nationalist intellectuals have encouraged ethnic hatred in such countries as Russia Romania and the former Yugoslavia by reviving patriotic myths of heroes scapegoats and historical injustices And he shows how enthusiastically these myths have been welcomed by people desperate for some form of salvation from political and economic uncertainty On a theoretical level Tismaneanu challenges the common ideas that the ideological struggle is between right and left or between nationalists and internationalists In a careful analysis of the conflict's ideological roots he

argues that it is more useful and historically accurate to view the struggle as between those who embrace the individualist traditions of the Enlightenment and those who reject them Tismaneanu himself has been active in the intellectual battles he describes particularly in his native Romania and makes insightful use of interviews with key members of the dissident movements of the 1970s and 1980s He offers original observations of countries from the Baltic to the Black Sea and expresses his ideas in a vivid and forceful style *Fantasies of Salvation* is an indispensable book for both academic and nonacademic readers who wish to understand the forces shaping one of the world's most important and unpredictable regions

**The Apprentice's Sorcerer** Ishay Landa, 2009-11-23 20th century European Fascism is conventionally described by both historians and political scientists as a fierce assault on liberal politics culture and economics Departing from such typical analysis this book highlights the long overlooked critical affinities between liberal tradition and fascism Far from being the antithesis of liberalism fascism both in its ideology and its practice was substantially if dialectically indebted to liberalism particularly to its economic variant Fascism ought to be seen centrally as an effort to unknot the long and tangled of the liberal order as it finally collided head on with mass democracy This brilliantly provocative thesis is sustained through innovative and incisive readings of seminal political thinkers from Locke and Burke to Proudhon Bagehot Sorel and Schmitt

**The Search for Modern Tragedy** Mary Ann Frese Witt, 2001 The attempt to apply an aesthetic or literary approach to fascism remains controversial In *The Search for Modern Tragedy* Mary Ann Frese Witt explores the work of a group of European writers and artists who came to fascism by way of aesthetics In Italy and France she maintains an ideological aesthetic of Mediterranean fascism developed to a large extent independently of German Nazism Witt's study of the relationship between fascism and modern tragedy encompasses theoretical writing on tragedy and tragedies by key authors including Luigi Pirandello Henry de Montherlant and Jean Anouilh She looks at these tragedies in the context of their reception under fascism in Italy and in Vichy France Fascism in the minds of many of its supporters was an aesthetic or spiritual movement although its aesthetic and political elements were often intertwined *The Search for Modern Tragedy* is not concerned primarily with drama written as a means of conveying fascist propaganda Rather Witt is concerned with the influence of aesthetic fascism on the theory and practice of modern tragedy

*Transnational Neofascism in France and Italy* Andrea Mammone, 2015-09-23 This book describes the establishment evolution and international links of the extreme right in one of the main Western European areas Andrea Mammone details the long journey in the development of right wing extremism in France and Italy emphasizing the transfer exchange and borrowing of ideals personnel and strategies and the similarities among neofascist movements activists and thinkers across national boundaries from 1945 to the present day including the Cold War years the election of the European Parliament in 1979 and the 2014 EU elections Mammone analyzes the adaptation of neofascism in society and politics the building of international associations and pan national networks and the right leaning responses to the defeat of fascism European integration decolonization the events of 1968 immigration and

the recent EU led austerity politics As a book implicitly on space borders and belonging it shows how some nationalisms may embody a transnational dimension and at times even pan European stances      *The Scientific Origins of National Socialism* Daniel Gasman,2017-07-12 Many studies of the origins of National Socialism claim that the völkisch and proto Nazi movement arose largely as a reaction to the materialistic ideas of nineteenth century science and especially to the naturalistic philosophy of Ernst Haeckel and the German Monist League Using hitherto unexplored material Daniel Gasman calls this generalization into question Arguing that the importance of science has been relatively neglected in accounts of the intellectual origins of Nazism he attempts to show that Haeckel s scientific Darwinism and his movement the German Monist League were proto Nazi in character Contrary to popular belief Haeckel s type of social Darwinism actually played a critical role in the formation of National Socialist ideology In his new introduction Gasman notes that recent research goes far to confirm Haeckel s role as an ideological progenitor of fascist ideology This is true not only for Germany but also for the birth of fascist thought in Italy and France In general Gasman claims the history of science plainly reveals how Haeckel s social Darwinism nourished the roots of fascism no less than avant garde modernism When *The Scientific Origins of National Socialism* initially appeared the Times Literary Supplement called it a very well argued thesis that is completely successful and leaves the reader to extract his own moral lessons Medical History in its review of *The Scientific Origins of National Socialism* said His book is essential for understanding modern Germany It has a general message derived from the events in Germany where scientific data were permitted to take on a mystical significance with ghastly consequences Bruce Chatwin in the New York Review of Books called the book brilliant Now available in paperback with a new introduction by the author this seminal work will be of interest to intellectual historians as well as th      *The Routledge Companion to Fascism and the Far Right* Peter Davies,Derek Lynch,2002 An engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world      **The Nationalist Dilemma** Marvin Suesse,2023-05-11 Nationalists think about the economy Marvin Suesse argues and this thinking matters once nationalists hold political power Many nationalists seek to limit global exchange but others prioritise economic development The potential conflict between these two goals shapes nationalist policy making Drawing on historical case studies from thirty countries from the American Revolution to the rise of China this book paints a broad panorama of economic nationalism over the past 250 years It explains why such thinking has become influential despite the internal contradictions and chequered record of many nationalist policy makers At the root of economic nationalism s appeal is its ability to capitalise upon economic inequality both domestic and international These inequalities are reinforced by political factors such as empire building ethnic conflicts and financial crises This has given rise to powerful nationalist movements that have decisively shaped the global exchange of goods people and capital      Phoenix A. James Gregor,2017-10-23 A great deal of effort has been expended by Anglo American scholars in an attempt to isolate past and contemporary fascisms neofascisms cryptofascisms and latent fascisms in the modern world A

James Gregor's *Phoenix Fascism in Our Time* is an insightful history of the intellectual rationale for Benito Mussolini's fascism offered by major Italian intellectuals. The book provides a list of recurrent features that helps to identify the generic phenomenon. This lucid account reviews seriously neglected aspects of intellectual history describing the socioeconomic and political conditions that precipitate and sustain fascism. Gregor shows that Italian fascism was supported by a responsible and credible rationale. His account of that rationale permits us to understand the appeal fascism as an ideal has exercised over elites and masses in the 20th century. Gregor offers a credible list of traits in showing how instances of fascism can be identified when they first appear. The last chapters of the work are devoted to a case study of the newly emergent post-Soviet Russian nationalism and its affinities with historic fascism. Gregor discusses the implications of the rise of generic fascism in the former Soviet Union and post-Maoist China. This timely volume offers an alternative to conventional interpretations of the major historical events of the 20th century. *Phoenix* is a must reading for scholars and policymakers dealing with European history between the two world wars and should be instructive for anyone interested in the fascist ideology in a new millennium.

**The Headless Republic** Jesse Goldhammer, 2005. In *The Headless Republic* Jesse Goldhammer explores how the French revolutionaries retrieved a set of ideas about founding violence from the classical Romans and early Christians and incorporated it into postrevolutionary debates that echoed into the twentieth century. By linking sacrifice as expressed in revolutionary practices to modern French theory, Goldhammer shows how ancient ideas of violent political renewal made their way into the contemporary age. Goldhammer elucidates the theoretical and practical significance of sacrificial violence during the Revolution and then turns his attention to postrevolutionary intellectuals whose work is inspired by the founding sacrifices of the French Republic. Showing how Georges Bataille, Joseph de Maistre, and Georges Sorel adapted concepts of sacrifice to their own particular political agendas, whether reactionary or revolutionary, Goldhammer challenges conventional readings of these three thinkers as bloodthirsty intellectuals. Instead, he argues, their work reveals the limits of violence as an agent of political change and attacks the forms of violence later adopted by fascist regimes. More broadly, Goldhammer makes the case for including ancient concepts of collective bloodshed in the modern lexicon of political violence.

Yeah, reviewing a books **The Birth Of Fascist Ideology** could ensue your close friends listings. This is just one of the solutions for you to be successful. As understood, talent does not recommend that you have fabulous points.

Comprehending as capably as pact even more than other will have the funds for each success. neighboring to, the publication as without difficulty as insight of this The Birth Of Fascist Ideology can be taken as with ease as picked to act.
