Somebody Else's Century Patrick Smith, 2010-08-31 From one of our foremost experts on Asia and its history comes this brilliant dissection of the relationship between East and West In three succinct essays Patrick Smith investigates the East's endeavor to adopt Western technology and all that we consider modern He underscores a crucial distinction between modernization the simple emulation of the West and the true task of becoming modern He examines the strategies that three prominent cultures those of Japan China and India evolved as they encountered materialistic foreign cultures and imported ideas while defending their own traditions The result Smith explains has often been called doubling a division of the self wherein Asians are receptive to Western products and ideas but simultaneously reject these same imports to emphasize the validity of the unmodern

Employing an exceptional combination of reflection and reportage Smith also examines the often troubled relationship Asians have with history as a result of their encounters with the West Finally he considers Asia s twenty first century attempt to define itself without reference to the West for the first time in modern history The author foresees a new balance in the East West dialogue one in which the East transcends old ideals of nationhood another Western import Smith asserts that there are fundamental lessons in Asia s long struggle with the modern In the twenty first century the East will challenge the West just as the West once challenged the East This is a book of exceptional significance and extraordinary depth *Cider Planet* Claude Jolicoeur,2022-09-23 Winner of the Guild of Food Writers Award 2023 Drinks Category Longlisted for the Andr Simon Award for Drink Books for 2022 Jolicoeur has brought his sharp intellect and endless curiosity to a new project *Cider Planet* is well referenced and utterly fascinating CIDERCRAFT Magazine From internationally acclaimed author and fermented beverage expert Claude Jolicoeur comes a globe trotting full color cultural history and guide celebrating the methods terroir and traditions of world class cider In *Cider Planet* Claude Jolicoeur a longtime passionate cider maker and author of the international bestseller *New Cider Maker s Handbook* takes readers with him to the world s greatest cider regions providing an expertly guided tour laced with his deep understanding and appreciation for how this Prince of Beverages is made Inside *Cider Planet* you ll find Descriptions of global orchard practices Specific apple varieties used in different countries and regions Detailed histories of the world s oldest ciderlands Profiles of different cider styles and rituals Tips and tricks from some of the most knowledgeable cider producers Cider long perceived as a European country drink is now truly a worldwide culinary delight Jolicoeur talks about new and emergent regions that have contributed to this growing appreciation and how they are building upon the old traditions while creating their own new ones He explores for example the most revered areas for making perry a delightful but little known drink that like cider is starting to gain fans young and old And he even transports readers to Kazakhstan in central Asia famous as the birthplace of the domestic apple Real cider craft cider farm cider artisan cider Whatever you wish to call it at its best cider should be enjoyed like a fine wine with all of the sophistication but less of the pretentiousness Just as there are many volumes devoted to the great wine regions of the world we now need a cider appreciation manual to fully understand and delve into the rich culture of cider and perry *Cider Planet* is that book and Claude Jolicoeur is our experienced and enthusiastic guide For the traveler or foodie this book transports the reader around the world with wonderful stories and insight that will leave you thirsty for a fresh glass of fermented fruit

Victorian Nightshades Elizabeth A. Campbell,2025-03-27 A darkly alluring plant family and the arrival of modernity *Victorian Nightshades* tells the story of how one plant family notorious for centuries in England because of its frequently psychoactive and poisonous properties rose to social and economic prevalence during the nineteenth century Beginning with bittersweet and belladonna the Old World species associated with evil witchcraft and dangerous women in an era when traditional botanical beliefs not only assigned morality to plants but also gendered them Campbell then moves to the

ubiquitous potato and tobacco before concluding with four of the Solanaceae that achieved the widest national favor by the end of the century the ornamental petunia and the edible pepper eggplant and tomato The story of the nightshades exposes the conflicts between science and popular sentiment and between knowledge and received opinion that defined the nineteenth century Campbell compellingly details how advances in medical and botanical knowledge evolutionary theory and the vagaries of human desire transformed the Solanaceae from a plant family plagued by fear and hostility in the British imagination to one of cultural favor and celebration by the turn of the century encapsulating the Victorian era's course to modernity
