The Black Diaspora Edward L. Jones, 1989 **The Curse of Ham** Phyllis Wiggins, 2005-09 **The African-Americanization of the Black Diaspora in Globalization or the Contemporary Capitalist World-System** Paul C. Mocombe, Carol Tomlin, Christine Callender, 2016-11-16

This work sets forth the argument that in the age of neoliberal globalization black people around the world are ever so slowly becoming African Americanized. They are integrated and embourgeoised in the racial class dialectic of black America by the material and ideological influences of the Protestant ethic and the spirit of capitalism as promulgated throughout the diaspora by two social class language games of the black American community: the black underclass Hip Hop culture speaking for and representing black youth practical consciousness and black American charismatic liberal conservative bourgeois Protestant preachers like TD Jakes, Creflo Dollar etc speaking for and representing the black bourgeois educated professional and working classes. Although on the surface the practical consciousness and language of the two social class language games appear to diametrically oppose one another, the authors argue, given the two groups' material wealth within the Protestant ethic and the spirit of capitalism of corporate neoliberal America, they do not. Both groups have the same underlying practical consciousness: subjects/agents of the Protestant Ethic and the spirit of capitalism. The divergences where they exist are due to their interpellation, embourgeoisement and differentiation via different ideological apparatuses of the society: church and education for the latter, and prisons, the streets, and athletic and entertainment industries for the former. Contemporarily, in the age of globalization and neoliberalism, both groups have become the bearers of ideological and linguistic domination in black neoliberal America and are antagonistically converging the practical consciousness of the black or African diaspora towards their respective social class language games. We are suggesting that the socialization of other black people in the diaspora ought to be examined against and within the dialectical backdrop of this class power dynamic and the cultural and religious heritages of the black American people responsible for this phenomenon or process of convergence we are referring to as the African Americanization of the black diaspora.

Many playwrights, authors, poets, and historians have used images, metaphors, and references to and from Greek tragedy, myth, and epic to describe the African experience in the New World. The complex relationship between ancient Greek tragedy and modern African American theatre is primarily rooted in America, where the connection between ancient Greece and ancient Africa is explored and debated the most. The different ways in which Greek tragedy has been used by playwrights, directors, and others to represent and define African American history and identity are explored in this work. Two models are offered for an Afro-Greek connection: *Black Orpheus*, in which the Greek connection is metaphorical, expressing the African in terms of the European; and *Black Athena*, in which ancient Greek culture is reclaimed as part of an Afrocentric tradition. African American adaptations of Greek tragedy on the continuum of these two models are then discussed, and plays by Peter Sellars and Adrienne

Kennedy Lee Breuer Rita Dove Jim Magnuson Ernest Ferlita Steve Carter Silas Jones Rhodessa Jones and Derek Walcott are analyzed The concepts of colorblind and nontraditional casting and how such practices can shape the reception and meaning of Greek tragedy in modern American productions are also covered

The World Colonization Made Brandon Mills, 2020-10-23 According to accepted historical wisdom the goal of the African Colonization Society ACS founded in 1816 to return freed slaves to Africa was borne of desperation and illustrated just how intractable the problems of race and slavery had become in the nineteenth century United States But for Brandon Mills the ACS was part of a much wider pattern of national and international expansion Similar efforts on the part of the young nation to create in Thomas Jefferson s words an empire of liberty spanned Native removal the annexation of Texas and California filibustering campaigns in Latin America and American missionary efforts in Hawaii as well as the founding of Liberia in 1821 Mills contends that these diverse currents of U S expansionism were ideologically linked and together comprised a capacious colonization movement that both reflected and shaped a wide range of debates over race settlement citizenship and empire in the early republic The World Colonization Made chronicles the rise and fall of the colonization movement as a political force within the United States from its roots in the crises of the Revolutionary era to its peak with the creation of the ACS to its ultimate decline with emancipation and the Civil War The book interrogates broader issues of U S expansion including the progression of federal Indian policy the foundations and effects of the Monroe Doctrine and Manifest Destiny and the growth of U S commercial and military power throughout the Western hemisphere By contextualizing the colonization movement in this way Mills shows how it enabled Americans to envision a world of self governing republics that harmonized with racial politics at home
