The Black Gloves:

The Black Stars Dan Krokos, 2025-09-23 Mason Stark has a problem with minding his own business. This worked to his advantage when he helped bring peace between humans and the alien Tremist. He is now considered an intergalactic hero but that hasn't made school any easier. With his new reputation, any bully with something to prove wants to fight him. With the new peace treaty on shaky ground, Mason is called upon to infiltrate the Tremist school for soldiers. Mason is bound to find trouble, especially now that he has the power to channel electricity through his Tremist gloves. But when his new classmates begin to disappear under mysterious circumstances, trouble might find him first. The Tremist are working on a secret project, but what Mason discovers goes beyond that to an ancient powerful enemy. With that very enemy threatening to invade, Mason must call on his friends, both human and Tremist, to fight. They call him a hero, and now that's what he must be, even if it requires the ultimate sacrifice. In this stellar follow-up to *The Planet Thieves*, Dan Krokos imbues *The Black Stars* with all the tension and action that made his first middle grade novel such a gripping tale. Johnson, 2023-03-17 This ambitious transnational history considers Haitian women's political life during and after the United States occupation of Haiti, 1915-34. The two decades following the occupation were some of the most politically dynamic and promising times in Haiti's modern history, but the history of women's political organizing in this period has received scant attention. Tracing elite and middle class women's activism and intellectual practice from the countryside of Kenscoff, Haiti to Philadelphia, the Belgian Congo, and back to Port au Prince, this book tells the story of Haitian women's essential role as co-curators of modern Haitian citizenship. Set in a period when national belonging was articulated in philosophies of African authenticity, revolutionary nostalgia, and working class politics, Grace Sanders Johnson considers how an emerging educated and professional class of women, who understood themselves as descendants of the Haitian Revolution, established alternative claims to citizenship that included but were not limited to suffrage and radicalism. Sanders Johnson argues that these women's political practice incorporated strategic class performance, extravagant sartorial sensibilities, and an insistence on self-promotion and preservation that challenged the exceptional trope of the martyred male revolutionary hero. Bringing her subjects vividly to life, she reveals their politics of wayfaring, moving deliberately if sometimes ineffectively through the radical milieu of the twentieth century. **The Black Heavens** Brian R. Dirck, 2019-02-06 Winner Lincoln Group of New York Award of Achievement 2019. From multiple personal tragedies to the terrible carnage of the Civil War, death might be alongside emancipation of the slaves and restoration of the Union as one of the great central truths of Abraham Lincoln's life. Yet what little has been written specifically about Lincoln and death is insufficient, sentimentalized, or devoid of the rich historical literature about death and mourning during the nineteenth century. *The Black Heavens: Abraham Lincoln and Death* is the first in-depth account of how the sixteenth president responded to the riddles of mortality, undertook personal

mourning and coped with the extraordinary burden of sending hundreds of thousands of soldiers to be killed on battlefields. Going beyond the characterization of Lincoln as a melancholy tragic figure, Brian R. Dirck investigates Lincoln's frequent encounters with bereavement and sets his response to death and mourning within the social, cultural, and political context of his times. At a young age, Lincoln saw the grim reality of lives cut short when he lost his mother and sister. Later, he was deeply affected by the deaths of two of his sons: three-year-old Eddy in 1850 and eleven-year-old Willie in 1862, as well as the combat deaths of close friends early in the war. Despite his own losses, Lincoln learned how to approach death in an emotionally detached manner, a survival skill he needed to cope with the reality of his presidency. Dirck shows how Lincoln gradually turned to his particular understanding of God's will in his attempts to articulate the meaning of the atrocities of war to the American public, as showcased in his allusions to religious ideas in the Gettysburg Address and the Second Inaugural. Lincoln formed a unique approach to death, both intellectual and emotional, typical and yet atypical of his times. In showing how Lincoln understood and responded to death both privately and publicly, Dirck paints a compelling portrait of a commander in chief who buried two sons and gave the orders that sent an unprecedented number of Americans to their deaths.

The Black Express Bogdan Boyar, 2020-10-04 The woman in black, the funeral taxi, the ambulance without license plate, the knife stuck in the grave, the ghost train, the possessed photograph. These are just some of the childhood terrors of the Balkan kids that made them forget the real fears of the communist period. They are summoned with humour and suspense in this short story collection, which is a part of an anthology of stories designed to take the reader on a complete tour of the tunnel of fear through the Balkans.

Rikers Island Evan Baker, 2009-09-18 This book about Rikers Island uses the Art of War as a tool to understand how to overcome being imprisoned in the largest jail in the world. Rikers Island allows the reader to understand the individual incarcerated from a more human perspective. The book's intent is to create change through awareness of a human crisis that is understood in less than humane terms. The book identifies education as a tool for overcoming a huge prison and jail population that is 98 percent Black and Hispanic. Advocacy for the reinstitution of the college degree program is an underlying theme that develops as a solution to the Black Diaspora.
