Life Touched with Wonder, 2002 *In Touch with Nature: Tales and Sketches from the Life* Gordon Stables, 2019-12-20

Gordon Stables *In Touch with Nature* Tales and Sketches from the Life immerses the reader in a rich tapestry of natural exploration and personal reflection. Written in a vivid and accessible style, Stables intertwines narrative storytelling with detailed sketches that capture the essence of the natural world and its impact on the human spirit. Set against the backdrop of the late 19th century, a time when the Romantic movement was expanding the appreciation for nature, this work serves as both a homage to the beauty of the natural landscape and a contemplative examination of human existence within it. Gordon Stables, a Scottish physician and writer, drew on his extensive experiences in the outdoors and his deep affinity for nature to craft this collection. His medical background offered him unique insights into the interplay between human health and the natural environment, positioning him as a keen advocate for the exploration and preservation of nature. Stables' writings often reflect a deep-seated yearning for connection with the wild, likely influenced by the burgeoning conservation movements of his time. This book is an essential read for enthusiasts of nature writing, providing not only a series of engaging tales but also a profound philosophical meditation on humanity's relationship with the environment. Stables' rich prose and evocative sketches offer readers a way to reconnect with the natural world, making it a recommended addition to the collection of anyone who cherishes the beauty and significance of our surroundings.

The Mysteries of Life in Children's Literature Mitchell Kalpakgian, 2000

FAIRY TALES AND MYTHS have enriched childhood for centuries. In between "Once upon a time" and "happily ever after," we embark on adventures that seem an eternity away from our everyday lives. Yet nothing could be further from the truth. In *The Mysteries of Life in Children's Literature*, journey through a treasury of beloved fables and folk tales and discover the wisdom hiding within. In an age that rejects moral absolutes, children's literature restores the meaning of good and evil, beautiful and ugly, normal and abnormal, and helps us see the nature of our world more clearly than we ever have before.

Lorette Gay,2019-05-02 Olivia was a townswoman of Haiti whose life has been persecuted in all aspects She talked about how in her childhood she has become a friend of nature which has impacted her life and abetted her throughout the diversity of many encumbrances Through nature she has learned what life is about and nature has helped her overcome utmost the madness she has encountered along her pathway She believes that the cycle change in the nature is likened to the cycle

change in people's lives Abandoned by her father while she was only an embryo a father that had never come across her way isolated from her mother at the age of six she was left to be raised by her grandparents Her existence is marked by many junctures At an early age she already knew what sexual harassment is about She boarded many strangers' houses In her teenage years she traveled virtually the entire country from north south and central and has seen things that normal teens haven't seen and probably won't ever see in their existence In her thirties her husband left her in Haiti with two of her children after the chaotic presidential overthrow of 1986 Fearing retaliation by an uprising populace her husband was the first to emigrate in USA because as an act of reprisal toward anyone that had worked for the regime no matter what your job was thugs in the streets terrorized everyone you can be here today and dead tomorrow In 1987 after passing a long time into hell in a country still under revolution she and her children fled to New York Then ten months after she moved to Miami with her family where she made it home in the United States her adopted country In 1992 while her life started to recover her new home was hit by the most violent cyclone Hurricane Andrew which had destroyed everything she had amassed A few years later her husband left her again to go back to his native land to stay This is to ask if everyone that she loves will always find a way to pass as an absentee in her life Over the following years many chronic diseases have attacked her body and from there the fun started the fun game to stay alive No one would imagine of what she's going through She always looks happy but under the veil of her happiness was hiding all sort of life complications that you would never thought could happen to one person Her conviction is that she should not complain about herself In this world we're living in each of us carries secret onuses By experience she realized that people have a habit of comparing our burdens with the other people's It isn't a fair tactic to support a friend or a family member in despair by associating his or her problem with another Life is an impartial place for all of us Don't presume that some problems are less than others You exactly detain what you can bear oneself and what was predestined to fit only you
