The Blinding Torch Modern British Fiction And The Discourse Of Civilization:

The Blinding Torch Brian W. Shaffer, 1993 From the end of the nineteenth century until World War II questions concerning the ideal nature and current state of civilization preoccupied the British public In a provocative work of both cultural and literary criticism Brian W Shaffer explores this debate showing how representative novels of five British modernists Joseph Conrad D H Lawrence James Joyce Virginia Woolf and Malcolm Lowry address the same issues that engaged such social theorists as Herbert Spencer Oswald Spengler Clive Bell and Sigmund Freud In examining the intersection of literary discourse and cultural rhetoric Shaffer draws on the interpretive strategies of Mikhail Bakhtin Terry Eagleton Clifford Geertz and others He demonstrates that such disparate fictions as *Heart of Darkness* *The Secret Agent* *The Plumed Serpent* *Dubliners* *Ulysses* *Mrs Dalloway* *To the Lighthouse* and *Under the Volcano* all portray civilization in the paradoxical image of blindness and insight obfuscation and enlightenment as a blinding torch that captivates the eye while it obscures the vision

Eastern Figures Douglas Kerr, 2008-06-01 *Eastern Figures* is a literary history with a difference It examines British writing about the East centred on India but radiating as far as Egypt and the Pacific in the colonial and postcolonial period It takes as its subject the East that was real to the British imagination largely the creation of writers who described and told stories about it descriptions and stories coloured by the experience of empire and its aftermath It is bold in its scope with a centre of gravity in the work of writers like Stevenson Kipling Conrad and Orwell but also covering less well known literary authors and including Anglo Indian romance writing the reports and memoirs of administrators and travel writing from Auden and Isherwood in China to Redmond O Hanlon in Borneo *Eastern Figures* produces a history of this writing by looking at a series of figures or tropes of representation through which successive writers sought to represent the East and the British experience of it tropes such as exploring the hinterland going native and the figure of rule itself *Eastern Figures* is accessible to anyone interested in the literary and cultural history of empire and its aftermath It will be of especial interest to students and scholars of colonial and postcolonial writing as it raises issues of

identity and representation power and knowledge and centrally the question of how to represent other people It has original ideas and approaches to offer specialists in literary history of the nineteenth and twentieth centuries cultural historians and researchers in colonial discourse analysis postcolonial studies and Asian area studies and history It is also aimed at students in courses in literature and empire culture and imperialism and cross cultural studies **Joseph Conrad and the**

Anthropological Dilemma John Wylie Griffith,1995 By situating Conrad s work in relation to other writings on primitive peoples John Griffith shows how his fiction draws on prominent anthropological and biological theories regarding the degenerative potential of contacts between European and other cultures At the same time however Conrad s work reflected an anthropological dilemma he constantly posed the question of how to bridge conceptual and cultural gaps between various peoples **Modernism and Latin America** Patricia Novillo-Corvalán,2017-09-22 This book is the first in depth exploration

of the relationship between Latin American and European modernisms during the long twentieth century Drawing on comparative historical and postcolonial reading strategies including archival research it seeks to reenergize the study of modernism by putting the spotlight on the cultural networks and aesthetic dialogues that developed between European and non European writers including Pablo Neruda James Joyce Leonard Woolf Virginia Woolf Jorge Luis Borges Victoria Ocampo Roberto Bola o Julio Cort zar Samuel Beckett Octavio Paz Carlos Fuentes and Malcolm Lowry The book explores a wide range of texts that reflect these writers complex concerns with questions of exile space empire colonization reception translation human subjectivity and modernist experimentation By rethinking modernism comparatively and by placing this intricate web of cultural interconnections within an expansive transnational and transcontinental framework this unique study opens up new perspectives that delineate the construction of a polycentric geography of modernism It will be of interest to those studying global modernisms as well as Latin American literature transatlantic studies comparative literature world literature translation studies and the global south **Bloomsbury, Beasts and British Modernist Literature** Derek

Ryan,2022-12-15 Argues that the Bloomsbury group s fascination with beasts was integral to their exploration of imperialism race gender sexuality and technology **Joyce/Lowry** Patrick A. McCarthy,Paul Tiessen,2021-10-21 While James Joyce was a central figure of high modernism Malcom Lowry spoke for the next generation of modernist writers and despite his denials was almost certainly influenced by Joyce Wherever the truth lies there are correspondences and differences to be explored between Joyce and Lowry that are far more interesting than the question of direct influence Despite numerous differences their works have much in common verbal richness experimentation with narrative structure and perspective a fascination with cultural and historical forces as well as with the process of artistic creation and the inclusion of artist figures who are in varying degrees ironic self portrayals The contributors to Joyce Lowry examine the relationship of these two expatriates writers both to each other and to broader issues in the study of literary modernism and its aftermath This collection embraces a variety of approaches The volume begins with a consideration of Joyce and Lowry as practitioners of

Expressionist art and concludes with an essay on John Huston's cinematic interpretation of works by both writers. In between are explorations of nationalism, anti-Semitism, syphilis, mental illness, and authorial design. **Higher Education and**

Intellectual Retrogression Arup Maharatna, 2023-02-24 This monograph critically analyses the historical evolution of ideas, perceptions, and principles on higher education and unravels a few of its interlinked aspects: content quality standard, massification, privatization, and commercialization. It presents both original and penetrating critique of neoliberal ideas and policies reigning higher education since World War II. The volume argues that with the proliferation of academic capitalism, the academic quality of higher education has been inevitably compromised and it has thereby heralded a comprehensive intellectual retrogression. The book offers a meticulous evaluation of global research reflecting on impeccable evidence of decline in academic learning in its effort, quality standards, and overall intellectual level and rigour. Finally, it illuminates why it is dangerous to continue clinging ideationally to neoliberal reign in education and thereby evading or effacing some of the lasting and universal wisdoms and precepts of the educational reign preceding neoliberal market-oriented predominance. The book will be of interest to students, teachers, and researchers of education, higher education sociology, economics, and politics of education. It will also be useful for academicians, higher education administration, policymakers, schoolteachers, and those interested in debates and issues around higher education. Virginia Woolf and the Bloomsbury Avant-garde

Christine Froula, 2006-09-22 Virginia Woolf and the Bloomsbury Avant Garde traces the dynamic emergence of Woolf's art and thought against Bloomsbury's public thinking about Europe's future in a period marked by two world wars and rising threats of totalitarianism. Educated informally in her father's library and in Bloomsbury's London extension of Cambridge, Virginia Woolf came of age in the prewar decades when progressive political and social movements gave hope that Europe might really be on the brink of becoming civilized as Leonard Woolf put it. For pacifist Bloomsbury heir to Europe's unfinished Enlightenment project of human rights, democratic self-governance, and world peace, and in E. M. Forster's words, the only genuine movement in English civilization, the 1914 civil war exposed barbarities within Europe: belligerent nationalisms, rapacious racialized economic imperialism, oppressive class and sex/gender systems, a tragic and unnecessary war that mobilized sixty-five million and left thirty-seven million casualties. An avant-garde in the twentieth-century struggle against the violence within European civilization, Bloomsbury and Woolf contributed richly to interwar debates on Europe's future at a moment when democracy's triumph over fascism and communism was by no means assured. Woolf honed her public voice in dialogue with contemporaries in and beyond Bloomsbury: John Maynard Keynes and Roger Fry to Sigmund Freud. Published by the Woolfs' Hogarth Press, Bertrand Russell, T. S. Eliot, E. M. Forster, Katherine Mansfield, and many others, and her works embody and illuminate the convergence of aesthetics and politics in post-Enlightenment thought. An ambitious history of her writings in relation to important currents in British intellectual life in the first half of the twentieth century, this book explores Virginia Woolf's narrative journey from her first novel *The Voyage Out* through her last *Between the Acts*.

The Modernist Novel and the Decline of Empire John Marx, 2005-12-08 In the early twentieth century subjects of the British Empire ceased to rely on a model of centre and periphery in imagining their world and came instead to view it as an interconnected network of cosmopolitan people and places English language and literature were promoted as essential components of a commercial cultural and linguistic network that spanned the globe John Marx argues that the early twentieth century was a key moment in the emergence of modern globalization rather than simply a period of British imperial decline Modernist fiction was actively engaged in this transformation of society on an international scale The very stylistic abstraction that seemed to remove modernism from social reality in fact internationalized the English language Rather than mapping the decline of Empire modernist novelists such as Conrad and Woolf celebrated the shared culture of the English language as more important than the waning imperial structures of Britain
