The Politics of Islam in the Sahel Rahmane Idrissa, 2017-06-14 Ideologies need enemies to thrive religion does not Using the Sahel as a source of five comparative case studies this volume aims to engage in the painstaking task of disentangling Islam from the political ideologies that have issued from its theologies to fight for governmental power and the transformation of society While these ideologies tap into sources of religious legitimacy the author shows that they are fundamentally secular or temporal enterprises defined by confrontation with other political ideologies both progressive and liberal within the arena of nation states Their objectives are the same as these other ideologies i e to harness political power for changing national societies and they resort to various methods of persuasion until they break down into violence The two driving questions of the book are whence come these ideologies and why do they sometimes result in violence Ideologies of Salafi radicalism are at work in the five countries of the Sahel region Burkina Faso Mali Niger Northern Nigeria and Senegal but violence has broken out only in Mali and Northern Nigeria Using a theoretical framework of ideological development and methods of historical analysis Idrissa traces the emergence of Salafi radicalism in each of these countries as a spark ignited by the shock between concurrent processes of Islamization and colonization in the 1940s However while the spark eventually ignited a blaze in Mali and Nigeria it has only led to milder political heat in Niger and Senegal and has had no burning effect at all in Burkina Faso By meticulously examining the development of Salafi radicalism ideologies over time in connection with developments in national politics in each of the countries Idrissa arrives at compelling conclusions about these divergent outcomes Given the many similarities between the countries studied these divergences show in particular that history the behaviour of state leaders and national sociologies matter against assumptions of natural contradictions between religion Islam and secularism or democracy This volume offers a new perspective in discussions on ideology which remains as is shown here the independent variable of many key contemporary political processes either hidden in plain sight or disguised in a religious garb

The Tao of Islam Sachiko Murata, 1992-03-23 The Tao of Islam is a rich and diverse anthology of Islamic teachings on the nature of the relationships between God and the world the world and the human being and the human being and God Focusing on gender symbolism Sachiko Murata shows that Muslim authors frequently analyze the

divine reality and its connections with the cosmic and human domains with a view toward a complementarity or polarity of principles that is analogous to the Chinese idea of yin yang Murata believes that the unity of Islamic thought is found not so much in the ideas discussed as in the types of relationships that are set up among realities She pays particular attention to the views of various figures commonly known as Sufis and philosophers since they approach these topics with a flexibility and subtlety not found in other schools of thought She translates several hundred pages most for the first time from more than thirty important Muslims including the Ikhwan al Safa Avicenna and Ibn al Arabi

the supervision of Saudi Arabia's religious police. What results is a struggle to separate the spiritual from the political. Knight searching for a personal relationship to Islam in the context of how it's defined by the external world. How Islam Plans to Change the World William Wagner, 2012. An updated edition of a timely resource. In this revealing book, author William Wagner examines the continuing rapid worldwide growth of Islam. Crediting Islam's growth to a well-financed missions strategy, Wagner analyzes three tactical methods: jihad, holy war, Dawah missions, and mosques' presence. Now updated with new information and statistics, this timely book provides insight into a seldom-discussed area of Islamic culture and equips believers to answer the claims of a more strident Islamic apologetics.

The Prophetic Fall Of The Islamic Regime Glenn Miller, Roger Loomis, 2012-02-02. Author Glenn Miller is a master at weighing world events on God's scales. The results are both frightening and sobering. By providing a dynamic commentary of unfolding events in the Middle East, the reader is made aware of what God is about to do in the human race and the nations of the world. *The Prophetic Fall of the Islamic Regime* is a desperately needed word for the Church as it seeks to understand current events from God's perspective. It is essential that Christians properly understand the purpose that was accomplished when Christ came to the earth. In *The Prophetic Fall of the Islamic Regime*, Glenn Miller shows that while Jesus came to demonstrate God's loving, merciful character, it did not change His nature as the Mighty Man of War who is involved in the fight between good and evil. *The Prophetic Fall of the Islamic Regime* is a new word for anyone looking for godly insight into terrorism, conflicts, and the deception of a false god. In true prophetic fashion, Miller penned a work that must result in souls beginning to hunger for the true God in the face of mass deception. No other book in the Christian marketplace gives such insight concerning God's prophetic voice to the nations.

Shamanism and Islam Thierry Zarcone, Angela Hobart, 2017-01-30. Here Thierry Zarcone and Angela Hobart offer a vigorous and authoritative exploration of the link between Islam and shamanism in contemporary Muslim culture, examining how the old practice of shamanism was combined with elements of Sufism in order to adapt to wider Islamic society. *Shamanism and Islam* thus surveys shamanic practices in Central Asia, the Middle East, North Africa, and the Balkans to show how the Muslim shaman, like his Siberian counterpart, cultivated personal relations with spirits to help individuals through healing and divination. It explores the complexities and variety of rituals involving music, dance, and in some regions, epic and bardic poetry, demonstrating the close links between shamanism and the various arts of the Islamic world. This is the first in-depth exploration of Islamized shamanism and is a valuable contribution to the field of Islamic Studies, Religion, Anthropology, and an understanding of the Middle East more widely.
