Skinner, 1994-12-01 **Planet Earth Vol. 2 - The Blue Planet** , The Blue Planet Michael D. Bayer, 2010 Mike Bayer s book *The Blue Planet* Informal International Police Networks and National Intelligence makes a powerful argument for why the United States needs to make better use of its federal law enforcement agencies abroad as an integral part of our national counterterrorism strategy Bayer s book criticizes the primacy of the military intelligence model in our foreign counterintelligence strategy arguing that the counterterrorism role reserved for the FBI makes insufficient use of the global networking capabilities of our many other American law enforcement agencies abroad Bayer s book makes an important contribution to the literature on international governmental networks such as the work of Anne Marie Slaughter and Kal Raustiala describing the unique ability that informal networks of cooperating law enforcement agencies have to collect information about local conditions and local communities that may prove crucial in identifying terrorist threats and

preventing terrorist attacks Bayer argues that such networks have proven immensely successful in investigating organized crime but that these capabilities have been underused against international terrorist networks By virtue of their omnipresence around the globe police are natural anticipatory collectors of vast amounts of information They are for that reason well placed to detect suspicious activities particularly given the overlap between terrorist cells and criminal networks Law enforcement personnel have a unique ability to draw on trust and a common culture with their counterparts in other countries resulting in a regular informal interchange of useful information Building on the work of Mathieu Deflem Bayer recognizes the particular advantage that the police enjoy by virtue of their professional autonomy and relative independence from the centers of political decision making Quoted From Defense Technical Information Center citation to the book on the Internet *The Blue Planet* Louise B.
