The Box David James, TT Club, 1995* Shipping and Globalization in the Post-War Era Niels P. Petersson, Stig Tenold, Nicholas J. White, 2019-11-21 This open access book belongs to the Maritime Business and Economic History strand of the Palgrave Studies in Maritime Economics book series This volume highlights the contribution of the shipping industry to the transformations in business and society of the postwar era Shipping was both an example and an engine of globalization and structural change In turn the industry experienced and pioneered mirrored and enabled key developments that led to the present day globalized economy Contributions address issues such as the macro level shift of shipping's centre of gravity from Europe to Asia the political and legal frameworks within which it developed the strategies and performance of both successful and unsuccessful firms and the links between the shipping industry and the wider economy and society Without shipping and its ability to forge connections and networks of a global reach the modern world would look very different By bringing together scholars from various disciplinary and national backgrounds this book advances our understanding of the linkages that bind economies and societies together **Development of Containerization** Hans van Ham, J. C. van Ham, Joan Rijsenbrij, 2012 This book describes the development of containerization and presents a worldwide overview of all major system components and drivers that have contributed to their great success The Globalisation of the Oceans Frank Broeze, 2017-10-18 This book maintains that container shipping is vital to the actualisation of globalisation and that without it globalisation would remain a concept rather than reality It argues that container shipping has been academically overlooked as a global business sector in favour of more prominent sectors such as oil or arms trade and aims to provide a complete history of containerisation from the 1950s to the turn of the millennium This history explores the growth of the container industry due to prominent innovation in vessel design early adoption of the internet large international mergers and significant physical alterations to the global port system With particular emphasis on the east west trade the chapters cover the growth and development of the container industry to the social changes experienced by seafaring labour forces the cultural impact of the container bringing a domineering land presence to maritime activity through to the environmental concerns surrounding the industry The study is not a quantitative economic analysis of the industry rather an updated history that strives to demonstrate the importance of transport infrastructures to any consideration of global business sectors by providing evidence of the container industry's stimulation of the global economy Shipping and Development in Dubai Keith Nuttall, 2021-10-21 A small town on a sandy creek half a century ago Dubai is now the largest trading commercial leisure and transport entrepot in the Gulf and wider region This book explains the reasons for the emergence of Dubai and its distinctive development trajectory arguing that the decision in the 1970s to invest in infrastructure made possible by shipping containerization laid the foundations for its future expansion The book shows that in contrast to its competitors hydrocarbon rentier economic model Dubai's creation and expansion of ports and airports together with value added logistics

and business friendly enhancements were used to out compete regional rivals Drawing on a range of primary and secondary sources including interviews with logistics business people government records memoirs it fills a significant lacuna in the history of Dubai s development and emergence as a global trade hub **Containerisation International** ,1998 **Global Markets: the Internationalization of the Sea Transport Industries Since 1850** Gelina Harlaftis,1998 Creating Global Opportunities Chris Jephson,Henning Morgen,2014-05-08 Today s trade is global A company can choose to have its headquarters in one part of the world its production facilities in another and sell its brands in all markets Since the first sea borne container transport took place in 1956 the shipping industry has been one of the main facilitators of the globalisation of trade This book traces the rise to prominence of Maersk Line the world s leading container operator and the internal decision making processes that lay behind the firm s extraordinary expansion between 1973 and 2013 With unprecedented access to company archives interviews with current and former employees and extensive statistical information provided by The Economist Intelligence Unit Containerisation International and Lloyd s Register this is a valuable resource for students of logistics shipping or international business This first inside account of the challenges of building a global business will also appeal to industry specialists and the general business reader **The Dock and Harbour Authority** ,1995 *Intermodal Transshipment Technologies -- an Overview* Johan Woxenius,1998 *Development of Small-scale Intermodal Freight Transportation in a Systems Context* Johan Woxenius,1998 Inventory of Transshipment Technologies in Intermodal Transport Johan Woxenius,1997 *Kombinierter Verkehr* Shipping Statistics and Market Review ,1997 *Haven in de branding* Reginald Loyer,2008 De haven van Antwerpen telt vandaag de dag 65 000 voltijdse banen en genereert bijna 3% van het bruto binnenlands product Over de manier waarop dit economische complex tot stand kwam is maar weinig bekend behalve dat er sinds 150 jaar een bijna explosieve groei moet hebben plaatsgevonden Haven in de branding analyseert voor het eerst het tijdspad de oorzaken en gevolgen van deze groei op basis van de goederen stromen en de toegevoegde waardecreatie Zo wordt de waarde van de Antwerpse staaltrafiek verduidelijkt net als de impact van de tonnage balans de mythe van de spoorweghaven Antwerpen en het Belgische karakter van de overslag Ook de groei bij inter nationale concurrenten Rotterdam en Hamburg komt aan bod Centraal staat de vraag hoe de haven van Antwerpen goederen stromen kon aantrekken Was de haven gelijk een rots in de branding overgeleverd aan de grillen van de stroming of hadden havenarbeiders en havenbestuurders invloed op de richting en de sterkte van de stroom **Logística intermodal** Alexander Eslava Sarmiento,2022-01-28 Este libro es una contribuci n al an lisis pr ctica e implementaci n de la log stica intermodal en el transporte de mercanc as Cubre ampliamente los t picos de integraci n estrat gica mediante el empleo sincronizado de m s de un modo de transporte sin rotura de la carga indicador de calidad y del nivel de servicio entre distintos modos de transporte lo que permite obtener beneficios mutuos y ventajas competitivas a todos los integrantes de la cadena de suministro Combina conocimiento y experiencia para compartir con el lector promueve la construcci n de
