The Extra-Dimensional Universe John R. Violette,2005-05-12 UFO sightings and alien abductions mystical experiences and psychic phenomena the near death and the out of body experience millions of ordinary people around the world report experiencing these events at some point in their lives Yet because there is no accepted scientific theory to explain the paranormal the events and the people who report them are ridiculed and dismissed The problem isn't the people it's the science While some cutting edge researchers and quantum physicists are speculating more frequently that these experiences are caused by something beyond our world some kind of higher dimensional reality any proposed extra dimensional theories put forth thus far have lacked one key ingredient expanded consciousness Extra Dimensional Universe presents an expanded framework of space time and consciousness This for the first time explains how paranormal phenomena can exist Violette's landscape altering theory is fully compatible with all the findings of modern scientific research and ancient wisdom traditions and clearly explains the science of paranormal events such as UFOs and abductions mystical and psychic phenomena and the near death experience Violette even reveals that expanded consciousness is the key to understanding why some people experience psychic phenomena such as UFOs or ghosts when others don't An advancement of the classic theories of R M Bucke and P D Ouspensky Extra Dimensional Universe is itself destined to become a classic of the science of spirituality

A Meditator's Guidebook to The Secret of the Golden Flower JJ Semple,2018-07-23 The first book to examine and extract the workable teachings from the The Secret of the Golden Flower Forget dogma and belief systems This is DIY meditation method especially for those individuals tempted to brave the solitary path It's only limits are your ability to envision and strive for a new YOU Since the publication of Deciphering the Golden Flower One Secret at a Time ASIN B001A9TN7Q in 2008 DGF readers have asked for an in depth guidebook on using The Secret of the Golden Flower SGF to awaken kundalini in a manner and with results similar to those described in JJ Semple's DGF The Secret of the Golden Flower A Kundalini Meditation Method is that book a much anticipated interpretive guide to the SGF as well as a sequel to his DGF autobiographical kundalini memoir Kundalini is the formative biological life force energy in your body Most people don't realize that kundalini resides within them they are simply unaware of its actuality and its potential Which means of course that it may never re activate either spontaneously or otherwise not unless you learn how to induce a Kundalini awakening through meditation practice Even then the outcome is never certain There's a quantum or karmic aspect to the

process Wilhelm Cleary and Jung translated the book and commented on its teachings but not one of them ever practiced the method This book compares their translations and commentaries with JJ Semple s empirical practice of the method using his ultimate success in awakening kundalini as the arbiter of its suitability as a method in essence the author identifies where the written word deviates from actual practice He extracts the workable teachings from the esoteric text of the SGF and shapes them into a practical modern method By cross referencing both the Cleary and the Wilhelm versions the author details each version s contribution to the kundalini awakening process A chapter comparing Golden Flower Meditation GFM to the Microcosmic Orbit MCO is also included Says JJ Semple Did I take every word and every passage in the Wilhelm version literally No more than I take every word or passage in the Bible or in Cleary s translation literally I realized that a successful practice depended on problem solving and detective work that searching for literal meaning was a waste of time Success would be found in doing not in fantasizing In fact the SGF has two objectives One it s a manual for kundalini meditation even though the term kundalini never appears in the text Put aside what you may have been told or read about the SGF and accept this as fact one borne out by centuries of realized practitioners who practiced the method a fact vetted by contemporaries such as Gopi Krishna Two it s an explanation of ontology which the dictionary defines as the branch of metaphysics dealing with the nature of being Neither objective is readily understood without practicing the method Sure it s possible to approach the text as an academic challenge but the best way to reconcile the two objectives is by practicing the method which if you are patient allows you to grok the ontological elements as you move forward The two are not separated in the text they re mingled together which as you might imagine makes understanding problematic Says JJ Semple Although the ontological portions obscured the practical aspects to some degree I decided to forge ahead Ultimately once the meditation took its course once the light started to circulate I was catapulted out of the limiting duality of the physical world into the metaphysical actuality of the great One which has nothing above it In short he learned that enlightenment comes with practice

[Living with Kundalini](#) Gopi Krishna, 2017-10-24 The complete autobiography of a kundalini master and one of the most influential texts on spiritual awakening now expanded with new material This classic first person account of spiritual awakening was first published under the title Kundalini The Evolutionary Energy in Man here expanded with two thirds new material drawn from the author s writing to make a complete autobiography Gopi Krishna was an ordinary Indian householder who at the age of thirty four after years of unsupervised meditation suddenly experienced the awakening of kundalini during his morning practice The story of this transformative experience and the author s struggle to find balance amid a variety of powerful physiological and psychic side effects forms the core of the book His detailed descriptions of his dramatic inner experiences and symptoms such as mood swings eating disorders and agonizing sensations of heat and of how with the help of his wife he finally stabilized at a higher level of consciousness make this one of the most valuable classics of spiritual awakening available
