The Birds of Guyana (formerly British Guiana) Dorothy Eastman Snyder, 1966

The birds of Guyana Snyder, 1966 **Birds of Guyana** Dorothy E. Snyder, Peabody Museum, 1966 **Guyana** Kirk Smock, 2008 South America's often overlooked English speaking country lies far off the well trodden tourist path Guyana is the ideal destination for the discerning visitor seeking adventure Within its vast interior the Guiana Shield one of the four pristine tropical rainforests left in the world converges with the Amazon Basin creating a unique geography composed of coastal waters mangroves marshes savannas mountains and tropical rainforests Bordered by Venezuela Brazil Suriname and the Atlantic Ocean the lively locals a melting pot of East Indian and African descendants peppered with Chinese Europeans and Amerindians create a culture decidedly more Caribbean than Latin

Schmidt, 2007 A Guide to the Birds of Colombia Steven L. Hilty, William L. Brown, 1986 Describing all of Colombia's birds Steven Hilty and William Brown bring together information on one of the world's largest avifaunas nearly 1 700 species Over half of all the species of birds in South America are included thus making the book useful in regions adjacent to Colombia as well as in the country itself The primary purpose of the work is to enable observers to identify the birds of the region but it also provides detailed species accounts and will serve as an important handbook and reference volume Fifty six lavish color plates thirteen halftone plates and ninety nine line drawings in the text illustrate over 85% of the species including most of the resident birds Notes on the facing page of each plate and range maps of 1 475 species facilitate identification Written with the field observer in mind the text gives special attention to comparisons of similar species transcriptions of voices and comments on behavior status and habitat It also provides ranges breeding data and references Notes outline taxonomic problems and briefly describe species that eventually may be found in Colombia Introductory chapters and photographs highlight Colombia's geography climate and vegetation and discuss migration and conservation questions and the history of Colombian ornithology Appendices contain a large bibliography a section on birding locations and coverage of two of Colombia's far flung island territories Isla San Andr s and Providencia Maps depicting vegetation zones political boundaries national parks and the most text localities are included

Field Guide to the Birds of Suriname Arie L. Spaans, Otte Ottema, Jan Hein J.M. Ribot, 2018-11-01 Suriname located on the Atlantic coast of northeastern South America is a relatively small country compared to most other South American countries It nevertheless has a rich avifauna By the end of 2017 751 species including 765 subspecies were known to occur in Suriname Most of the land area of Suriname is still covered with

tropical rainforest and the country should be a must visit for birdwatchers Suriname is even mentioned as being the best country to spot certain neotropical species Surprisingly few birders visit Suriname The main reason given is the lack of a handy pocket guide that can easily be carried in a backpack This revised and updated edition of the Field Guide to the Birds of Suriname with its 109 color plates tries to fill this gap In addition to species accounts data on topography climate geology geomorphology biogeography avifauna composition conservation and hotspots for bird watching are given So why delay your trip to this beautiful and friendly country any longer Suriname with its rich avifauna awaits you *Birds of Northern South America: An Identification Guide* Miguel Lentino, Robin Restall, Clemencia Rodner, 2020-01-23 Volume I of a comprehensive two part identification guide dealing exclusively with the birds of this region It covers all the species including vagrants found in Ecuador Columbia Venezuela Aruba Cura ao Bonaire Trinidad and Tobago Guyana Suriname and French Guiana More than 2 300 species are described in depth in the text describing geographical variation identification status habitat voice and taxonomy Detailed and comprehensive colour plates and distribution maps may be found in the second volume *Birds of Northern South America An Identification Guide Plates and Maps* This authoritative book will not only be an indispensable guide to the visiting birder but also a vital tool for those engaged in work to conserve and study the avifauna of this region which is of such importance to both the indigenous species and those which pass through on migration A Field Checklist of the Birds of Guyana ,2000 *Taxonomy of the birds of the world* fotolulu, 2018-10-30 How do you come up with the idea to list all the birds in the world including the subspecies and to give all birds English names There is a reason for it my favorite saying whose author is unknown Everyone said that s not possible then there was one who did not know that and just did it I am an animal photographer and probably a little bit crazy I ve built a complete animal database for mammals and birds over the last decade This facilitates my work in determining and archiving images and assigning keywords especially among the many subspecies With this book I would like to give all birding friends and ornithologists a complete overview in English For this I have given unique English names to all subspecies The naming should not meet any scientific requirements The names are based on translations from the Latin name geographical distribution areas and the names of the discoverers The entries consist of the scientific name the English name the distribution areas and the author I wish you a lot of fun with this book but especially while watching the fascinating birdlife fotolulu The Birds of Guyana ,2004 **Guyana Memories** Dr. Hanif Gulmahamad, 2011-12-19 This book contains 15 stories and 48 poems Four of the stories are works of fiction Some of the stories for example Life on a sugar plantation in colonial Guyana contain a lot of information of historical significance that has previously been unrecorded and could well be lost in the passage of time I was born in 1945 on Springlands Sugar Estate where we lived in a small cottage in the estate compound behind and west of the District Commissioners Office building The story about life on a British colonial sugar plantation is drawn from personal experience and it is told in the voice of someone who actually lived that life The story entitled Going to America represents

today's reality of Guyanese who have left leaving or trying to leave Guyana. The expatriate Guyanese community particularly in North America should certainly be able to relate to that experience. Many of my compatriots were forced to undergo a second traumatic deracination for economic and political reasons: lack of opportunity in the homeland, no jobs, no viable future, and other reasons when they emigrated to Britain, United States of America, Canada, the West Indies, and other places. The ancestors of Afro Guyanese were dragged out of Africa and brought to the New World as slaves. The forefathers of Indo Guyanese were lured to British Guiana by deception and false promises and became bound coolies trapped in a form of indentured servitude that some regard as another form of slavery. The second Guyanese uprooting and displacement, though done largely voluntarily, was no less disruptive, frightening, emotionally turbulent, and difficult than the first one, either from Africa or India. Life for these people in a new land, very often in hostile climatic conditions quite unlike the tropical conditions in the homeland, was difficult, harrowing, stressful, tumultuous, psychologically traumatic, and distressing for new emigrants. The history of the Guyanese people is written in blood, sweat, tears, suffering, and misery. The children of the new Guyanese diaspora will subsequently have their own story to tell about life in an alien land. It has been said that it is easy for the poor to escape from a poor nation but it is not so easy for them to escape poverty in a rich nation. Emigrants, particularly those of an older generation who are set in their ways, often experience extreme difficulties acculturating and assimilating into a different society and adjusting to an alien way of life. They are often relegated to a shadowy existence in the marginalized immigrant community, standing on the periphery of an alien culture, looking in and experiencing loneliness, hopelessness, helplessness, and lacking a sense of belonging. Refer to the poem in this book entitled "Living in a place where you were not born" for some insights on this issue. Stories such as "Hunting birds with slingshots in Guyana," "Making and flying kites in Guyana," "Catching mullet at No 73 waterside," "Notorious fowl thieves of the village," and "When you really know it was Christmas time" can elicit strong nostalgia and sentimental memories of youthful experiences so pleasurable and engrossing that it could cause you to yearn for a past life that was simple, care-free, full of wonderful remembrances and recollections. When I think of the wonderful life I once lived at Clonbrook, I am a young lad all over again and I am happy. Those who lived that life and had fond memories of it should certainly share these stories with their children and grandchildren. Make these stories more real and fascinating by adding your own memories and experiences as you read them to your descendants. After all, everybody has a story to tell. There are forty-eight poems in this compilation that are sure to evoke emotions and nostalgia. Many deal with subject matters pertaining to the Corentyne. The reason for that is simple: I was born and raised in the Upper Corentyne and I hold lots of treasured memories.

Storks, Ibises and Spoonbills of the World James Hancock, James A. Kushlan, M. Philip Kahl, 2010-09-30. Everything you ever wanted to know about storks, ibises, and spoonbills. Some of the world's largest and most spectacular birds are to be found among this group of wading birds. Tragically, they also include many of the world's most endangered species as changes in land use erode their wetland habitats. Some like the White Stork have lived alongside

humans for hundreds of years and are well known from numerous studies Others like the Storm s stork and ibises of West Africa South East Asia and South America live so secluded a life in the remote corners of the globe that they will probably be extinct before even the most basic details of their biology are known In this monograph three authors and two artists have combined their skills to capture what is known of this group of wading birds The text opens with general chapters on taxonomy and feeding breeding and behaviour followed by detailed coverage of each species *The Biosphere, Problems and Solutions* ,2011-09-22 The Biosphere Problems and Solutions **An Introduction to Birds of Guyana** Bal Ram Singh,1994 **Antpittas and Gnateaters** Harold Greeney,2018-07-12 This authoritative handbook part of the Helm Identification Guide series looks in detail at the beautiful antpittas Elusive study organisms for ornithologists and highly prized additions to the birder s life list the antpittas Grallariidae and gnateaters Conopophagidae are among the most poorly known Neotropical bird groups This authoritative handbook is the first book dedicated solely to these two families combining an exhaustive review of more than two centuries of literature with original observations by the author and many knowledgeable contributors Antpittas and Gnateaters provides a thorough guide to the identification and ecology of these birds with detailed maps accompanying the text A series of superb plates illustrate most of the 156 recognized taxa supplemented by more than 250 colour photographs the immature plumages and natural history of many species are depicted for the first time This book is the ultimate reference on these remarkable and beautiful birds and an indispensable addition to the libraries of researchers and birders for many years to come *The Guiana Travels of Robert Schomburgk, 1835-1844: Explorations on behalf of the Royal Geographical Society, 1835-1839* Peter Rivière,2006 This is the first of a pair of volumes publishing the unedited full reports of Robert Schomburgk s travels in Guiana between 1835 and 1844 previously available only in greatly abridged and heavily edited versions Sponsored by the Royal Geographical Society between 1835 and 1839 Schomburgk explored much of the interior of the colony and completed the arduous overland journey to the Orinoco to connect his survey with that of Alexander von Humboldt in Brazil **The Live Bird Trade in Tanzania** R. K. Tibanyenda,1996 The practice of keeping live birds in captivity has been widespread throughout this century and has increased considerably as the 20th century comes to a close In the last decade or so the increased trade in live birds from Tanzania has given rise to a number of concerns regarding the sustainability of the trade its effects on bird numbers and illegal trafficking As part of its efforts to palliate the lack of legislation and planning in this domain and to evaluate the effects of this trade in 1990 the Tanzanian government initiated the Planning and Assessment for Wildlife Management PAWM project As part of this project a workshop on the live bird trade in Tanzania was organized in Dar Es Salaam in December 1991 and gave rise to a series of initiatives This publication provides a record of these initiatives and of the PAWN s efforts to arrive at and implement them It also provides a record of the papers presented during the workshop and the recommendations that emerged therefrom
