Jones, 2014-05-12 Anthropology and History in Yucatán is a collection of ten essays that offer new evidence and interpretations of the survival and adaptation of lowland Maya culture from its earliest contact with the Spanish to the 1970s These case studies reflect a growing interest in the use of historical approaches in the development of models of cultural change that will integrate

archaeological historical and ethnographic data The portrait of the Maya emerging from this collection is that of a remarkably vital people who have skillfully resisted total incorporation with their neighbors and who continue even today to emphasize their cultural independence and historical uniqueness In his introduction Grant D Jones synthesizes previous studies of the anthropological history of Yucatán and summarizes the theoretical issues underlying the volume Section I which focuses on continuity and change in the boundaries of Maya ethnicity in Yucatán includes contributions by the late Sir Eric Thompson France V Scholes and O Nigel Bolland Section II presents comparative regional perspectives of Maya adaptations to external forces of change and contains essays by D E Dumond Grant D Jones James W Ryder and Anne C Collins In the closing section three articles by Victoria Reifler Bricker Allan F Burns and Irwin Press treat Maya concepts of their own history Throughout the book the authors demonstrate that models far more complex than Robert Redfield's folk urban continuum must be developed to account for the great regional variations in responses by the Maya to the pressures of economic cultural and political control as exerted by Spanish Mexican Guatemalan and British authorities over the past four centuries The essays demonstrate a variety of methodological approaches that will be of interest to historians ethnohistorians ethnologists archaeologists and those who have a general interest in the survival of Maya culture *Alfred Maudslay and the Maya* Ian Graham, 2002 In this fascinating biography the first ever published about Alfred Maudslay 1850-1931 Ian Graham describes this extraordinary Englishman and his pioneering investigations of the ancient Maya ruins Maudslay the grandson of a famous English inventor and engineer spent his formative adult years in the South Seas as a junior official in Great Britain's Colonial Office Despite his exotic experiences he did not find his true vocation until the age of thirty one when he arrived in Guatemala Maudslay played a crucial role in exploring and documenting the monuments and architecture of the ancient Maya ruins at Palengue Copán Chichén Itz and other sites previously unknown His photographs and plaster casts have proven to be invaluable in the deciphering of Maya hieroglyphics Personal resources allowed him to undertake fieldwork at a time when no institution provided such support He made plaster casts of large stone monuments accurate maps of sites and painstaking recordings of inscriptions His *Biologia Centrali Americana* a multivolume compendium of photographs drawings plans and text published almost a century ago remains an essential foundation for Maya studies Perhaps Maudslay's greatest legacy is magnificent collection of glass negative photographs many of which are reproduced in this book *The Maya and Teotihuacán* Geoffrey E. Braswell, 2004-03-01 Debate has been fierce about the date and extent of influence of the central Mexican culture of Teotihuacán on the Maya This volume which aims to bring the debate up to date comprises thirteen essays that draw on recent archaeological evidence particularly burials and ceramic assemblages to recreate the region's ethnicity during the Early Classic period Evidence of interaction is also found in carved monuments and architectural design Includes an extensive bibliography *Maya Christians and Their Churches in Sixteenth-Century Belize* Elizabeth Graham, 2020-03-17 It is widely held that Christianity came to Belize as an extension of the conquest of Yucatan and that adherence to Christian

belief and practice was abandoned in the absence of enduring Spanish authority. An alternative view comes from the excavations of Maya churches at Tipu and Lamanai which show that the dead were buried in Christian churchyards long after the churches themselves fell into disuse and pre-Columbian ritual objects were cached in Christian sacred spaces both during and after Spanish occupation. Excavations also reveal that the architectural style of these early churches is Franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair. A conclusion difficult to ignore is that the Maya of Tipu and Lamanai considered themselves Christians with or without Spanish presence. Viewing historical and archaeological data through the lens of her personal experience of Roman Catholicism and informed by feminist approaches, Elizabeth Graham assesses the concept of religion, the significance of doctrine, the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas, objects and images by the Maya, by Iberian Christians and by archaeologists. Graham's provocative study also makes the case that the impact of Christianity in Belize was a phenomenon that uniquely shaped the development of the modern nation. A volume in the series *Maya Studies* edited by Diane Z. Chase and Arlen F. Chase.

Time Among the Maya Ronald Wright, 2000. The Maya created one of the world's most brilliant civilizations, famous for its art, astronomy and deep fascination with the mystery of time. Despite collapse in the ninth century, Spanish invasion in the sixteenth and civil war in the twentieth, eight million people in Guatemala, Belize and southern Mexico speak Mayan languages and maintain their resilient culture to this day. Traveling through Central America's jungles and mountains, Ronald Wright explores the ancient roots of the Maya, their recent troubles and prospects for survival. Embracing history, anthropology, politics and literature, *Time Among the Maya* is a riveting journey through past magnificence and the study of an enduring civilization with much to teach the present. Wright's unpretentious narrative blends anthropology, archaeology, history and politics with his own entertaining excursions and encounters. *The New Yorker* says *Time Among the Maya* shows Wright to be far more than a mere storyteller or descriptive writer. He is an historical philosopher with a profound understanding of other cultures. Jan Morris, *The Independent*, London.

Belize: Tracking the Path of Its History Renate Johanna Mayr, 2014. Belize belies its geographical location. It is a sparsely populated English-speaking enclave perched between Spanish-speaking countries. The colonization pattern was very unusual and its diplomatic status remained ambiguous for more than two centuries until it became an official British crown colony in 1862 and finally an independent nation in 1981.

The Oxford Handbook of Museum Archaeology Alice Stevenson, 2022-08-25. This Handbook provides a transnational reference point for critical engagements with the legacies of and futures for global archaeological collections. It challenges the common misconception that museum archaeology is simply a set of procedures for managing and exhibiting assemblages. Instead, this volume advances museum archaeology as an area of reflexive research and practice addressing the critical issues of what gets prioritized by and researched in museums by whom, how and why. Through twenty-eight chapters, authors problematize and suggest new ways of thinking about historic, contemporary and

future relationships between archaeological fieldwork and museums as well as the array of institutional and cultural paradigms through which archaeological enquiries are mediated Case studies embrace not just archaeological finds but also archival field notes photographic media archaeological samples and replicas Throughout museum activities are put into dialogue with other aspects of archaeological practice with the aim of situating museum work within a more holistic archaeology that does not privilege excavation or field survey above other aspects of disciplinary engagement These concerns will be grounded in the realities of museums internationally including Latin America Africa Asia Oceania North America and Europe In so doing the common heritage sector refrain best practice is not assumed to solely emanate from developed countries or European philosophies but instead is considered as emerging from and accommodated within local concerns and diverse museum cultures

Historical Archaeology of Childhood and Parenting April

Kamp-Whittaker, Jamie J. Devine, Suzanne M. Spencer-Wood, 2024-04-12 The study of childhood in historical archaeology enriches interpretations of the past but also has the potential for contributing to the understanding of methodological and theoretical issues in archaeology Archaeologically children are understudied relative to both their demographic and social importance partly because children are viewed as difficult to discern in the archaeological record Historical archaeology with its access to historical documents to supplement and illuminate archaeological evidence provides an opportunity to gain a greater understanding of the ways children's daily lives in the past were expressed in historically changing types and patterns of material culture Recent research presented in this volume contributes valuable perspectives for conceptualizing the historically changing social nature of childhood and methods for illuminating the roles of children Case studies are designed to illustrate methodological and theoretical advances in the historical archaeology of materialized experiences discourses identities places and their meanings associated with parenting and childhood The volume is organized into three sections devoted to case studies about 1 how childhood and parenting have been socially constructed cross culturally and temporally 2 social ideologies of childhood in contested spaces and 3 the relationship between children's experiences and adult expectations of childhood Each chapter demonstrates advances in current methods or theories used in the archaeology of childhood A final discussion drawn from the broader field of research on the archaeology of childhood provides a commentary on the ways the perspectives provided in the volume can be employed by researchers outside the sub discipline of historical archaeology
