Selcer,2015-12-15 A History of Fort Worth in Black White fills a long empty niche on the Fort Worth bookshelf a scholarly history of the city s black community that starts at the beginning with Ripley Arnold and the early settlers and comes down to today with our current battles over education housing and representation in city affairs The book s sidebars on some noted and some not so noted African Americans make it appealing as a school text as well as a book for the general reader Using a wealth of primary sources Richard Selcer dispels several enduring myths for instance the mistaken belief that Camp Bowie trained only white soldiers and the spurious claim that Fort Worth managed to avoid the racial violence that plagued other American cities in the twentieth century Selcer arrives at some surprisingly frank conclusions that will challenge current politically correct notions **Black and White** Agnieszka Piotrowska,2016-10-04 In Black and White Agnieszka Piotrowska presents a unique insight into the contemporary arts scene in Zimbabwe an area that has received very limited coverage in

research and the media The book combines theory with literature film politics and culture and takes a psychosocial and psychoanalytic perspective to achieve a truly interdisciplinary analysis Piotrowska focuses in particular on the Harare International Festival of the Arts HIFA as well as the cinema featuring the work of Rumbi Katedza and Joe Njagu Her personal experience of time spent in Harare working in collaborative relationships with Zimbabwean artists and filmmakers informs the book throughout It features examples of their creative work on the ground and examines the impact it has had on the community and the local media Piotrowska uses her experiences to analyse concepts of trauma and post colonialism in Zimbabwe and interrogates her position as a stranger there questioning patriarchal notions of belonging and authority **Black and White** also presents a different perspective on convergences in the work of Doris Lessing and iconic Zimbabwean writer Dambudzo Marechera and how it might be relevant to contemporary race relations **Black and White** will be intriguing reading for psychoanalysts psychotherapists and psychotherapeutically engaged scholars film makers academics and students of post colonial studies film studies cultural studies psychosocial studies and applied philosophy

Composition in Black and White Kathryn Talalay, 1997-04-24 George Schuyler, a renowned and controversial black journalist of the Harlem Renaissance, and Josephine Cogdell, a blond blue-eyed Texas heiress and granddaughter of slave owners, believed that intermarriage would invigorate the races, thereby producing extraordinary offspring. Their daughter, Philippa Duke Schuyler, became the embodiment of this theory, and they hoped she would prove that interracial children represented the final solution to America's race problems. Able to read and write at the age of two and a half, a pianist at four and a composer by five, Philippa was often compared to Mozart. During the 1930s and 40s, she graced the pages of *Time* and *Look* magazines, the *New York Herald Tribune*, and *The New Yorker*. Philippa grew up under the adoring and inquisitive eyes of an entire nation and soon became the role model and inspiration for a generation of African American children. But as an adult, she mysteriously dropped out of sight, leaving America to wonder what had happened to the little Harlem genius. Suffering the double sting of racism and gender bias, Philippa had been rejected by the elite classical music milieu in the United States and forced to find an audience abroad where she flourished as a world-class performer and composer. She traveled throughout South America, Europe, Africa, and Asia, performing for kings, queens, and presidents. By then, Philippa had added a second career as an author and foreign correspondent, reporting on events around the globe from Albert Schweitzer's leper colony in Lambaré to the turbulent Asian theater of the 1960s. She would give a command performance for Queen Elisabeth of Belgium one day and hide from the Viet Cong among the ancient graves of the Annam kings another. But behind the scrim of adventure, glamour, and intrigue was an American outcast, a woman constantly searching for home and self. "I am a beauty, but I'm half-colored, so I'm always destined to be an outsider," she wrote in her diary. Philippa tried to define herself through love affairs but found only disappointment and scandal. In a last attempt to reclaim an identity, she began to pass as Caucasian. Adopting an Iberian American heritage, she reinvented herself as Felipa Monterro, an ultra-right conservative who wrote and lectured for the John Birch Society. Her experiment failed, as had her parents' dream of smashing America's racial barriers. But at the age of thirty-five, Philippa finally began to embark on a racial catharsis. She was just beginning to find herself when, on May 9, 1967, while on an unauthorized mission of mercy, her life was cut short in a helicopter crash over the waters of war-torn Vietnam. The first authorized biography of Philippa Schuyler, *Composition in Black and White*, draws on previously unpublished letters and diaries to reveal an extraordinary and complex personality. Extensive research and personal interviews from around the world make this book not only the definitive chronicle of Schuyler's restless and haunting life but also a vivid history of the tumultuous times she lived through, from the Great Depression through the Civil Rights movement to the Vietnam War. Talalay has created a highly perceptive and provocative portrait of a fascinating woman.

about the demise of white supremacy but did so without destroying the South's unique culture. Indeed, it is Goldfield's contention that the civil rights crusade has strengthened the South's cultural heritage, making it possible for black southerners to embrace their region unfettered by fear and frustration and for whites to leave behind decades of guilt and condemnation. In support of his analysis, Goldfield presents a sweeping examination of the evolution of southern race relations over the past fifty years. He provides moving accounts of the major moments of the civil rights era and he looks at more recent efforts by blacks to achieve economic and class parity. This history of the crusade for black equality is, in the end, the story of the South itself and of the powerful forces of redemption that Goldfield attests are still working to shape the future of the region.

Angry Black White Boy Adam Mansbach, 2007-12-18 From the acclaimed author of *Shackling Water* comes the first great race novel of the twenty-first century: an incendiary and ruthlessly funny satire about violence, pop culture, and American identity. Macon Detornay is a suburban white boy possessed and politicized by black culture and filled with rage toward white America. After moving to New York City for college, Macon begins robbing white passengers in his taxicab, setting off a manhunt for the black man presumed to be committing the crimes. When his true identity is revealed, Macon finds himself to be a celebrity and makes use of the spotlight to hold forth on the evils and invisibility of whiteness. Soon he launches the Race Traitor Project, a stress-addled collective that attracts guilty liberals, wannabe gangstas, and bandwagon riders from all over the country to participate in a Day of Apology, a day set aside for white people to make amends for four hundred years of oppression. The Day of Apology pushes New York City over the edge into an epic riot, forcing Macon to confront the depth of his own commitment to the struggle. Peopled with all manner of race pimps and players, *Angry Black White Boy* is a stunning breakout book from a critically acclaimed young writer and should be required reading for anyone who wants to get under the skin of the complexities of identity in America.

Black Child, White Child Judith D. R. Porter, 1971 I don't like colored people. He's lazy because he's colored. Similar attitudes have too many echoes in American society. What distinguishes these particular comments is that they were made by preschool-age children: the former by a five-year-old white, the latter by a four-year-old black. The general public might be amazed to find that statements of this type were made by such young children, yet it is now widely accepted by social scientists that racial attitudes are learned during preschool years.
