Black Gondolier and Other Stories Fritz Leiber, John Pelan, 2000 **The Image of the Black in Western Art** David Bindman, 2010 A pioneering work in the field of art history The Image of the Black in Western Art is a comprehensive series of ten books which offers a lavishly illustrated history of the representations of people of African descent from antiquity to the present Each book includes a series of essays by some of the most distinguished names in art history Ranging from images of Pharaohs created by unknown hands almost 3 500 years ago to the works of the great masters of European and American art such as Bosch Durer Mantegna Rembrandt Rubens Watteau Hogarth Copley and Goya to stunning new media creations by contemporary black artists these books are generously illustrated with beautiful moving and often little known images of black people Black figures queens and slaves saints and soldiers priests and prisoners dancers and athletes children and gods are central to the visual imagination of Western civilization Written in accessible language the extensive and insightful commentaries on the illustrations by distinguished art historians make this series invaluable for the general reader and the specialist alike *Summary of the Editor* *Horror of Philosophy* Eugene Thacker, 2025-10-14 Eugene Thacker's three cult classic volumes of supernatural horror come together in this new Zero Books omnibus revised with updated material offering an essential resource for thinking about the unthinkable world *Germany and the Black Diaspora* Mischa Honeck, Martin Klimke, Anne Kuhlmann, 2013-07-01 The rich history of encounters prior to World War I between people from German speaking parts of Europe and people of African descent has gone largely unnoticed in the historical literature not least because Germany became a nation and engaged in colonization much later than other European nations This volume presents intersections of Black and German history over eight centuries while mapping continuities and ruptures in Germans' perceptions of Blacks Juxtaposing these intersections demonstrates that negative German perceptions of Blackness proceeded from nineteenth century racial theories and that earlier constructions of race were far more differentiated The contributors present a wide range of Black German encounters from representations of Black saints in religious medieval art to Black Hessians fighting in the American Revolutionary War from Cameroonian children being educated in Germany to African American agriculturalists in Germany's protectorate Togoland Each chapter probes individual and collective responses to these intercultural points of contact *The Anthroscene* Jussi Parikka, 2014-10-30 Smartphones laptops

tablets and e readers all at one time held the promise of a more environmentally healthy world not dependent on paper and deforestation The result of our ubiquitous digital lives is as we see in The Anthrobscene actually quite the opposite not ecological health but an environmental wasteland where media never die Jussi Parikka critiques corporate and human desires as a geophysical force analyzing the material side of the earth as essential for the existence of media and introducing the notion of an alternative deep time in which media live on in the layer of toxic waste we will leave behind as our geological legacy Forerunners Ideas First is a thought in process series of breakthrough digital publications Written between fresh ideas and finished books Forerunners draws on scholarly work initiated in notable blogs social media conference plenaries journal articles and the synergy of academic exchange This is gray literature publishing where intense thinking change and speculation take place in scholarship

Immortali Anne Lewington, 2014-03 Described by the author as a Renaissance soap opera Immortali is a late sixteenth century feast of pleasure and pain exploring mysticism and heresy tensions and jealousies illusion and reality smouldering passion and murderous intrigue in Tuscany and Venice This is an emotionally familiar debut novel strangely exotic and heady as a Venetian perfume Colourful actors with familiar names and the evil machinations of a masked villain drive the relentless action The book brims with vivid scenes and an expert knowledge of the period yet it is also a novel for today a coming of age in an exciting era in which a young girl s longing for love and fame is the timeless theme Made pregnant by rape and forced to flee her home spoiled little rich girl Giulia finds life with the travelling actors harsh But perhaps there s more to them than she realized Can the charismatic Arlecchino whom she adores in spite of his brutal treatment of her really walk on air and step from one world to another In pursuit of her dream to become the Immortali s leading lady Giulia is drawn into the darkest supernatural peril The flames of the Inquisition are stoked in readiness and only a miracle can save her

Wrongness Joseph Packer, Ethan Stoneman, 2018-11-01 In *A Feeling of Wrongness* Joseph Packer and Ethan Stoneman confront the rhetorical challenge inherent in the concept of pessimism by analyzing how it is represented in an eclectic range of texts on the fringes of popular culture from adult animated cartoons to speculative fiction Packer and Stoneman explore how narratives such as *True Detective* *Rick and Morty* *Final Fantasy VII* Lovecraftian weird fiction and the pop ideology of transhumanism are better suited to communicate pessimistic affect to their fans than most carefully argued philosophical treatises and polemics They show how these popular nondiscursive texts successfully circumvent the typical defenses against pessimism identified by Peter Wessel Zapffe as distraction isolation anchoring and sublimation They twist genres upend common tropes and disturb conventional narrative structures in a way that catches their audience off guard resulting in belief without cognition a more rhetorically effective form of pessimism than philosophical pessimism While philosophers and polemicists argue for pessimism in accord with the inherently optimistic structures of expressive thought or rhetoric Packer and Stoneman show how popular texts are able to communicate their pessimism in ways that are paradoxically freed from the restrictive tools of optimism *A Feeling of Wrongness* thus presents uncharted rhetorical possibilities for narrative making visible the rhetorical efficacy of alternate ways and means of persuasion *The Last Letter* Fritz Leiber, 2011-03-28 Who or

what was the scoundrel that kept these couriers from the swift completion of their handsomely appointed rondos **The Bioscope**, 1913 **Snakes & Spiders** Fritz Leiber, 2016-03-14 Have you ever worried about your memory because it doesn't seem to be bringing you exactly the same picture of the past from one day to the next Have you ever been afraid that your personality was changing because of forces beyond your knowledge or control Have you ever felt sure that sudden death was about to jump you from nowhere Have you ever been scared of Ghosts not the story book kind but the billions of beings who were once so real and strong it's hard to believe they'll just sleep harmlessly forever Have you ever wondered about those things you may call devils or Demons spirits able to range through all time and space through the hot hearts of stars and the cold skeleton of space between the galaxies Have you ever thought that the whole universe might be a crazy mixed up dream If you have you've had hints of the *Change War* This collection gathers the original magazine versions of every canonical story in Fritz Leiber's iconic *Change War* time travel series for the first time It includes an introduction by Kevin A Straight comprehensive Guide to the *Change World* timeline of Fritz Leiber's life and works and list of *Change War* apocrypha Physical book editions include full index [Spaces and Fictions of the Weird and the Fantastic](#) Julius Greve, Florian Zappe, 2019-11-18 This collection of essays discusses genre fiction and film within the discursive framework of the environmental humanities and analyses the convergent themes of spatiality climate change and related anxieties concerning the future of human affairs as crucial for any understanding of current forms of weird and fantastic literature and culture

Given their focus on the culturally marginal unknown and other these genres figure as diagnostic modes of storytelling outlining the latent anxieties and social dynamics that define a culture's structure of feeling at a given historical moment. The contributions in this volume map the long and continuous tradition of weird and fantastic fiction as a seismograph for eco-geographical turmoil from the nineteenth to the twenty-first century offering innovative and insightful ecocritical readings of H. P. Lovecraft, Harriet Prescott Spofford, China Miéville, N. K. Jemisin, Thomas Ligotti, and Jeff VanderMeer among others.

The Big Time Fritz Leiber, 2011-06-01 You can't know there's a war on for the Snakes coil and Spiders weave to keep you from knowing it's being fought over your live and dead body. Excerpt: My name is Greta Forzane. Twenty-nine and a party girl would describe me. I was born in Chicago of Scandinavian parents but now I operate chiefly outside space and time not in Heaven or Hell if there are such places but not in the cosmos or universe you know either. I am not as romantically entrancing as the immortal film star who also bears my first name but I have a rough and ready charm of my own. I need it for my job is to nurse back to health and kid back to sanity Soldiers badly roughed up in the biggest war going. This war is the Change War a war of time travelers in fact our private name for being in this war is being on the Big Time. Our Soldiers fight by going back to change the past or even ahead to change the future in ways to help our side win the final victory a billion or more years from now. A long killing business believe me. You don't know about the Change War but it's influencing your lives all the time and maybe you've had hints of it without realizing. Have you ever worried about your memory because it doesn't seem to be bringing you exactly the same picture of the past from one day to the next? Have you ever been afraid that your personality was changing because of forces beyond your knowledge or control? Have you ever felt sure that sudden death was about to jump you from nowhere? Have you ever been scared of Ghosts not the story book kind but the billions of beings who were once so real and strong it's hard to believe they'll just sleep harmlessly forever? Have you ever wondered about those things you may call devils or Demons spirits able to range through all time and space through the hot hearts of stars and the cold skeleton of space between the galaxies? Have you ever thought that the whole universe might be a crazy mixed up dream? If you have you've had hints of the Change War. How I got recruited into the Change War how it's conducted what the two sides are why you don't consciously know about it what I really think about it you'll learn in due course. **Mariana** Fritz Leiber, 2011-05-01 Jonathan told her not to touch the switches but it was cold and lonely and isolated. Excerpt: Mariana had been living in the big villa and hating the tall pine trees around it for what seemed like an eternity when she found the secret panel in the master control panel of the house. The secret panel was simply a narrow blank of aluminum she'd thought of it as room for more switches if they ever needed any. Perish the thought between the air conditioning controls and the gravity controls. Above the switches for the three-dimensional TV but below those for the robot butler and maids. Jonathan had told her not to fool with the master control panel while he was in the city because she would wreck anything electrical so when the secret panel came loose under her aimlessly questing fingers and fell to the solid rock floor of the patio with a musical

twing her first reaction was fear Then she saw it was only a small blank oblong of sheet aluminum that had fallen and that in the space it had covered was a column of six little switches Only the top one was identified Tiny glowing letters beside it spelled trees and it was on When Jonathan got home from the city that evening she gathered her courage and told him about it He was neither particularly angry nor impressed Of course there s a switch for the trees he informed her deflatingly motioning the robot butler to cut his steak

In the Dust of This Planet Eugene Thacker,2011-08-26 1 Amazon Best Seller in Philosophy Criticism The world is increasingly unthinkable a world of planetary disasters emerging pandemics and the looming threat of extinction In this book Eugene Thacker suggests that we look to the genre of horror as offering a way of thinking about the unthinkable world To confront this idea is to confront the limit of our ability to understand the world in which we live a central motif of the horror genre In the Dust of This Planet explores these relationships between philosophy and horror In Thacker s hands philosophy is not academic logic chopping instead it is the thought of the limit of all thought especially as it dovetails into occultism demonology and mysticism Likewise Thacker takes horror to mean something beyond the focus on gore and scare tactics but as the under appreciated genre of supernatural horror in fiction film comics and music This relationship between philosophy and horror does not mean the philosophy of horror if anything it means the reverse the horror of philosophy those moments when philosophical thinking enigmatically confronts the horizon of its own existence For Thacker the genre of supernatural horror is the key site in which this paradoxical thought of the unthinkable takes place The cover of In the Dust of this Planet can be seen in a New York gallery on a banner at the 2014 Climate Change march in New York and on Jay Z s back promoting Run The book influenced the writers of the US TV series True Detective and has been lambasted by ex Fox News broadcaster Glenn Beck in this podcast https://www.youtube.com/watch?v=2IW8OK4_1gQ

The Moon Is Green Fritz Leiber,2011-06-01 Anybody who wanted to escape death could by paying a very simple price denial of life ExcerptEffie What the devil are you up to Her husband s voice chopping through her mood of terrified rapture made her heart jump like a startled cat yet by some miracle of feminine self control her body did not show a tremor Dear God she thought he mustn t see it It s so beautiful and he always kills beauty I m just looking at the Moon she said listlessly It s green Mustn t mustn t see it And now with luck he wouldn t For the face as if it also heard and sensed the menace in the voice was moving back from the window s glow into the outside dark but slowly reluctantly and still faunlike pleading cajoling tempting and incredibly beautiful Close the shutters at once you little fool and come away from the window Green as a beer bottle she went on dreamily green as emeralds green as leaves with sunshine striking through them and green grass to lie on She couldn t help saying those last words They were her token to the face even though it couldn t hear Effie She knew what that last tone meant Warily she swung shut the ponderous lead inner shutters and drove home the heavy bolts That hurt her fingers it always did but he mustn t know that You know that those shutters are not to be touched Not for five more years at least I only wanted to look at the Moon she said turning around and then it was all gone the face

the night the Moon the magic and she was back in the grubby stale little hole facing an angry stale little man It was then that the eternal thud of the air conditioning fans and the crackle of the electrostatic precipitators that sieved out the dust reached her consciousness again like the bite of a dentist s drill Only wanted to look at the Moon he mimicked her in falsetto Only wanted to die like a little fool and make me that much more ashamed of you Then his voice went gruff and professional Here count yourself She silently took the Geiger counter he held at arm s length waited until it settled down to a steady ticking slower than a clock due only to cosmic rays and indicating nothing dangerous and then began to comb her body with the instrument First her head and shoulders then out along her arms and back along their under side There was something oddly voluptuous about her movements although her features were gray and sagging The ticking did not change its tempo until she came to her waist Then it suddenly spurted clicking faster and faster Her husband gave an excited grunt took a quick step forward froze She goggled for a moment in fear then grinned foolishly dug in the pocket of her grimy apron and guiltily pulled out a wristwatch He grabbed it as it dangled from her fingers saw that it had a radium dial cursed heaved it up as if to smash it on the floor but instead put it carefully on the table You imbecile you incredible imbecile he softly chanted to himself through clenched teeth with eyes half closed She shrugged faintly put the Geiger counter on the table and stood there slumped He waited until the chanting had soothed his anger before speaking again He said quietly I do suppose you still realize the sort of world you re living in
