## **The Blackpool Landlady A Social History:**

*The Blackpool Landlady* John K. Walton, 1978

**The Cambridge Social History of Britain, 1750-1950** F. M. L.

Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

## **The Lure of the Beach**

Robert C. Ritchie, 2023-04-25 A human and global take on a beloved vacation spot The crash of surf smell of salted air wet whorls of sand underfoot These are the sensations of the beach that environment that has drawn humans to its life sustaining shores for millennia And while the gull s cry and the cove s splendor have remained constant throughout time our relationship with the beach has been as fluid as the runnels left behind by the tide s turning The Lure of the Beach is a chronicle of humanity s history with the coast taking us from the seaside pleasure palaces of Roman elites and the aquatic rituals of medieval pilgrims to the venues of modern resort towns and beyond Robert C Ritchie traces the contours of the material and social economies of the beach throughout time covering changes in the social status of beach goers the technology of transport and the development of fashion from nudity to Victorianism and back again as well as the geographic spread of modern beach going from England to France across the Mediterranean and from nineteenth century America to the world And as climate change and rising sea levels erode the familiar faces of our coasts we are poised for a contemporary reckoning with our relationship and responsibilities to our beaches and their ecosystems The Lure of the Beach demonstrates that whether as a commodified pastoral destination a site of ecological resplendency or a flashpoint between private ownership and public access the history of the beach is a human one that deserves to be told now more than ever before

**The Foundations of Female Entrepreneurship** Alison Kay, 2012-08-21 The Foundations of Female Entrepreneurship explores the relationship between home household headship and enterprise in Victorian London It examines the notions of duty honor and suitability in how women's ventures are represented by themselves and others and engages in a comparison of the interpretation of historical female entrepreneurship by contemporaries and historians in the UK Europe and America It argues that just as women in business have often been

hidden by men they have often also been hidden by the home and the conceptualization of separate spheres of public and private agency and of the entrepreneur Drawing on contextual evidence from 1747 to 1880 including fire insurance records directories trade cards newspapers memoirs the census and extensive record linkage this study concentrates on the early to mid Victorian period when ideals about gender roles and appropriate work for women were vigorously debated Alison Kay offers new insight into the motivations of the Victorian women who opted to pursue enterprises of their own By engaging in empirical comparisons with men s business it also reveals similarities and differences with the small to medium sized ventures of male business proprietors The link between home and enterprise is then further excavated by detailed record linkage revealing the households and domestic circumstances and responsibilities of female proprietors Using both discourse and data to connect enterprise proprietor and household *The Foundations of Female Entrepreneurship* provides a multi dimensional picture of the Victorian female proprietor and moves beyond the stereotypes It argues that active business did not exclude women although careful representation was vital and this has obscured the similarities of their businesses with those of many male business proprietors

*The Lancashire Working Classes c.1880-1930* Trevor Griffiths, 2001-10-04 This book examines the experiences and values which shaped working class life in Britain in the half century from 1880 It takes as its focus a region Lancashire which was central to the social and political changes of the period The discussion centres on two towns Bolton and Wigan which while they were geographically close differed significantly in their industrial fortunes and their electoral development The formation of class identity is traced through developments in the world of work from the impact of technological and managerial innovations to the elaboration of collective bargaining procedures Beyond work particular attention is paid to the dynamics of neighbourhood and family life the latter emerging as an important source of continuity in working class life The broader impact of such influences are traced through a close examination of the electoral politics of the period Dr Griffiths conclusions fundamentally challenge the notion that the fifty years around the turn of the century witnessed the emergence of a working class more culturally and politically united than at any other time either before or since Rather an alternative

narrative of class development is offered in which broad continuities in working class life in particular the survival of religious ethnic and occupational points of division are emphasised Despite the presence of strong and stable labour institutions from trade unions to Co operative and Friendly Societies the picture emerges of a working class more individualist than collectivist in outlook more flexible in response to economic change and less constrained by the broader solidarities of work and neighbourhood than has previously been supposed Women's Leisure in England, 1920-1960 Claire Langhamer, 2000 This study examines the complex relationship between women and leisure drawing upon recent feminist theory The text charts the changes in perception representation and experiences of leisure for women between 1920 and 1960 and relates the changes to life cycle lines **The Blackpool Landlady** John K. Walton, 1978-04-01 **Charles Dickens and the Properties of Fiction** Ushashi Dasgupta, 2020-05-20 When Dickens was nineteen years old he wrote a poem for Maria Beadnell the young woman he wished to marry The poem imagined Maria as a welcoming landlady offering lodgings to let Almost forty years later Dickens died leaving his final novel unfinished in its last scene another landlady sets breakfast down for her enigmatic lodger These kinds of characters are everywhere in Dickens's writing **Charles Dickens and the Properties of Fiction** The Lodger World explores the significance of tenancy in his fiction In nineteenth century Britain the vast majority of people rented rather than owned their homes Instead of keeping to themselves they shared space renting lodging taking lodgers in or simply living side by side in a crowded modern city Charles Dickens explored both the chaos and the unexpected harmony to be found in rented spaces the loneliness and sociability the interactions between cohabitants the complex gender dynamics at play and the relationship between space and money Charles Dickens and the Properties of Fiction demonstrates that a cosy secluded home life was beyond the reach of most Victorian Londoners and considers Dickens's nuanced conception of domesticity Tenancy maintained an enduring hold upon his imagination giving him new stories to tell and offering him a set of models to think about authorship He celebrated the fact that unassuming houses brim with narrative potential comedies romances and detective plots take place behind their doors **Charles Dickens and the Properties of Fiction** The Lodger World wedges these doors open **The Mystique of Running the Public House in England** David W. Gutzke, 2024-05-14 This book is the first scholarly study to explore economic relations between brewers and publicans in the brewing industry over a century Based on overlooked historical evidence this volume examines over 400 interviews with candidates for public houses unpublished evidence of royal commissions heard in secrecy representations of publicans in fiction and film and systematic reading of 15 licensed victuallers newspapers **The Mystique of Running the Public House in England** situates licensed victualling among upper working and lower middle class occupations in England and abroad This book explores why aspiring but untrained individuals sought public house tenancies notwithstanding high levels of turnovers and numerous bankruptcies among licensed victuallers Encapsulated in any newcomer's appraisal was the captivating vision of El Dorado a nirvana which promised unimaginable wealth high social status respectability and social

mobility as rewards for those limited in income but not in ambition Despite the allure of El Dorado the likelihood of publicans realizing their aspirations was quite as remote as that of fish and chip proprietors Blackpool landladies and French caf proprietors This volume will be of great value to students and scholars alike interested in British History Economic History and Social and Cultural History

**The Seaside, Health and the Environment in England and Wales since 1800** John Hassan, 2016-12-05

The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public s imagination Particular account is paid to the interwar years when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection
