unbelievable ignorance and stupidity of which the human society is full at every step Some independent and objective wise observers from the outside of the human species after dissecting all the depicted troubles with the accuracy and the precision of a surgeon present the rational solutions which for some may look farfetched but for the bright minds they appear in all their majestic realism of the possible practical implementation if the full power of intelligence and will is used Please read this book you will not regret a bit you will enjoy every moment of it and will get food for thought as never before And at some points you will be amused too
