**Buddhist Scriptures as Literature** Ralph Flores, 2009-01-01 Buddhist Scriptures as Literature explores the drama lyricism and compelling storylines in Buddhist sacred writings while illustrating how rhetoric and ideology are at work in shaping readers reactions Ralph Flores argues that the Buddha's life story itself follows an archetypal quest romance pattern regal surroundings are abandoned and the ensuing feats are heroic The story can be read as an epic but it also has a comic plot confusions and trials until the Prince becomes utterly selfless having found his true element nirvana Making use of contemporary literary theory Flores offers new readings of texts such as the Nikāyas the Dhammapadam the Heart Sutra Zen koans Shantideva's Way of the Bodhisattva and the Tibetan Book of the Dead Understanding these works as literature deepens our sense of the unfolding of their teachings of their exuberant histories and of their relevance for contemporary life

Patriarchs on Paper Alan Cole, 2016-11 Chan Buddhism better known as Zen produced an enormous amount of literature

and yet many Chan advocates medieval and modern insist that Chan and its truths can be found in neither language nor literature Patriarchs on Paper explores this paradox by considering several genres of Chan literature that appeared during the Tang and Song dynasties c 600 1300 including genealogies biographies dialogues poems monastic handbooks and koans Looking carefully at this body of literature Alan Cole shows how Chan authors gradually constructed in ever more artful portrayals images of the perfectly simple masters of the past best known for their freedom from literature and cultural norms Patriarchs on Paper explores how this kind of fantasy Buddhism interacted with its more traditional Chinese forms and in so doing sheds new light on how Chan's illustrious ancestors were created in literature to satisfy a wide range of agendas

translations and studies of these works have encouraged a perception of Daoism as a mystical philosophy heavy with political implications that advises kings to become one with the Dao. Breaking with this standard approach, *The Pristine Dao* argues that the Laozi and the Zhuangzi participated in a much wider tradition of metaphysical discourse that included a larger corpus of early Chinese writings. This book demonstrates that early Daoist discourse possessed a distinct textually constituted coherence and a religious sensibility that starkly differed from the intellectual background of all other traditions of early China, including Confucianism. The author argues that this discourse is best analyzed through its emergence from the mythological imagination of early China and that it was unified by a set of notions about the Dao that was shared by all of its participants. The author introduces certain categories from the Western religious and philosophical traditions in order to bring out the distinctive qualities constituting this discourse and to encourage its comparison with other religious and philosophical traditions.
