The Body Of A Young Man:

Walks Through Heaven with Dad: a Young Man's Experience with Lewy Body Dementia Daniel John Woytowich, 2015-06-26 Daniel Woytowich's father was diagnosed with Lewy Body Dementia while he was still in college. This memoir tells the story of the diagnosis, acceptance, and journey through the terrible illness that is dementia. Daniel hopes that his family's experience can help others, especially young people who are dealing with loved ones that have terminal illnesses. It is the story of how a young man watched his father's life unravel in gradual progression, his coming to terms with the fact that his relationship with his father would be changed forever, and how he eventually came to the realization that no illness, no matter how debilitating, can ever touch what resides deep within all of us, and especially how it can never touch the everlasting bond of father and son.

Armando Maggi, 2009-05-15 Italian novelist, poet, and filmmaker Pier Paolo Pasolini was brutally killed in Rome in 1975, a macabre end to a career that often explored humanity's capacity for violence and cruelty. Along with the mystery of his murderer's identity, Pasolini left behind a controversial but acclaimed oeuvre, as well as a final quartet of beguiling projects that signaled a radical change in his aesthetics and view of reality: *The Resurrection of the Body*, an original and compelling interpretation of these final works; the screenplay *Saint Paul*; the scenario for *Porn Theo*; the colossal, immense, and unfinished novel *Petrolio*; and his notorious final film *Salò or the 120 Days of Sodom*, a disturbing adaptation of the writings of the Marquis de Sade. Together, these works Armando Maggi contends, reveal Pasolini's obsession with sodomy and its role within his apocalyptic view of Western society. One of the first studies to explore the ramifications of Pasolini's homosexuality, *The Resurrection of the Body* also breaks new ground by putting his work into fruitful conversation with an array of other thinkers, such as Freud, Strindberg, Swift, Henri Michaux, and Norman O. Brown.

Beyond the Body Elizabeth Hallam, Jenny Hockey, Glennys Howarth, 2005-08-16 *Beyond the Body* presents a new and sophisticated approach to death, dying, and bereavement, and the sociology of the body. The authors challenge existing theories that put the body at the centre of identity. They go beyond the body to highlight the persistence of self-identity even when the body itself has been disposed of or is missing. Chapters draw together a wide range of empirical data, including cross-cultural case studies and fieldwork, to examine both the management of the corpse and the construction of the soul or spirit by focusing on the work of undertakers, embalmers, coroners, clergy, clairvoyants, exorcists, bereavement counsellors.
