to day existence The key point of the book ideally as well as practically is to realize that there may be something potentially significant and politically significant in the very act of making such connections of understanding the supposedly trite and trivial world of the everyday against a broader political backcloth There is merit in sifting the fragments the fragmentary experiences of everyday life in order to see how they imply a broader political totality in which they are situated and at times cleverly made to function This intuition broadly inspired by Henri Lefebvre is reflected in and through the various and varying ways Porter puts to work the ideas and provocations of thinkers such as Raoul Vaneigem Gilles Deleuze and Soren Kierkegaard
