The Bounds Of Agency:

The Bounds of Agency Carol Rovane, 2019-03-26 The subject of personal identity is one of the most central and most contested and exciting in philosophy Ever since Locke psychological and bodily criteria have vied with one another in conflicting accounts of personal identity Carol Rovane argues that as things stand the debate is unresolvable since both sides hold coherent positions that our common sense she maintains is conflicted so any resolution to the debate is bound to be revisionary She boldly offers such a revisionary theory of personal identity by first inquiring into the nature of persons Rovane begins with a premise about the distinctive ethical nature of persons to which all substantive ethical doctrines ranging from Kantian to egoist can subscribe From this starting point she derives two startling metaphysical possibilities there could be group persons composed of many human beings and multiple persons within a single human being Her conclusions supports Locke s distinction between persons and human beings but on altogether new grounds These grounds lie in her radically normative analysis of the condition of personal identity as the condition in which a certain normative commitment arises namely the commitment to achieve overall rational unity within a rational point of view It is by virtue of this normative commitment that individual agents can engage one another specifically as persons and possess the distinctive ethical status of persons Carol Rovane is Associate Professor of Philosophy at Yale University Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Bounds of Agency Carol Anne Rovane, 1998 The subject of personal identity is one of the most central and most contested and exciting in philosophy Ever since Locke psychological and bodily criteria have vied with one another in conflicting accounts of personal identity Carol Rovane argues that as things stand the debate is unresolvable since both sides hold coherent positions that our common sense will embrace Our very common sense she maintains is conflicted so any resolution to the debate is bound to be revisionary She boldly offers such a revisionary theory of personal identity by first inquiring into the nature of persons Rovane begins with a premise about the distinctive ethical nature of persons to which all substantive ethical doctrines ranging from Kantian to egoist can subscribe From this starting point she derives two startling metaphysical possibilities there could be group persons composed of many human beings and multiple persons within a single human being Her conclusion supports Locke s distinction between persons and human beings but on altogether new grounds These grounds lie in her radically normative analysis of the condition of personal identity as the condition in which a certain normative commitment arises namely the commitment to achieve overall rational unity within a rational point of view It is by virtue of this normative commitment that individual agents can engage one another specifically

as persons and possess the distinctive ethical status of persons This highly original book departs significantly from the standard philosophical views of personal identity It will be of major importance in the fields of metaphysics moral philosophy and philosophy of mind *The Bounds of Agency* Carol Rovane,1998-01-01 The subject of personal identity is one of the most central and most contested and exciting in philosophy Ever since Locke psychological and bodily criteria have vied with one another in conflicting accounts of personal identity Carol Rovane argues that as things stand the debate is unresolvable since both sides hold coherent positions that our common sense will embrace Our very common sense she maintains is conflicted so any resolution to the debate is bound to be revisionary She boldly offers such a revisionary theory of personal identity by first inquiring into the nature of persons Rovane begins with a premise about the distinctive ethical nature of persons to which all substantive ethical doctrines ranging from Kantian to egoist can subscribe From this starting point she derives two startling metaphysical possibilities there could be group persons composed of many human beings and multiple persons within a single human being Her conclusion supports Locke s distinction between persons and human beings but on altogether new grounds These grounds lie in her radically normative analysis of the condition of personal identity as the condition in which a certain normative commitment arises namely the commitment to achieve overall rational unity within a rational point of view It is by virtue of this normative commitment that individual agents can engage one another specifically as persons and possess the distinctive ethical status of persons This highly original book departs significantly from the standard philosophical views of personal identity It will be of major importance in the fields of metaphysics moral philosophy and philosophy of mind Discourses on the Sovereign and Universal Agency of God in Nature and Grace Robert McDowall,1806 *Decisions of the United States Merit Systems Protection Board* United States. Merit Systems Protection Board, **Locating Agency** Fiona Williamson,2011-10-18 In the latter half of the twentieth century historians came to consider politics to mean more than simply the formal institutions and apparatus of government run by a small minority of wealthy educated elite men The word has been adopted by historians of different genres as synonymous with power or agency and the scope for political activity has been widened to incorporate a variety of everyday events and ordinary people These collected essays explore the quotidian experience of politics in the form of popular politics religion and popular culture The contributors consider for example the politics of the alehouse the politics of Methodism the interrelationship between plebeian agency custom and memory the politics of economics dramatic agency and the politics of the spiritual parish Collectively they suggest that political activity was embedded in almost every aspect of life In addition they draw on interdisciplinary theory in particular the spatial turn and how it can be used to better understand popular agency **Report of the American Home Missionary Society** American Home Missionary Society,1847 **The Home Missionary** ,1832 No 3 of each volume contains the annual report and minutes of the annual meeting Home Missionary ,1847 **Annual Report of the Pennsylvania Agency of the American Tract Society** American Tract Society. Exercising Agency Mark Mullaly, 2016-04-22 *Exercising Agency* is a book about decision making In particular it looks in detail at how a very important type of organizational decision gets made whether or not to initiate a project Making strategic decisions of this kind can never be a wholly rational and scientific process And *Exercising Agency* lifts the lid on many of the important behavioural factors that inform project decisions power and politics personality the rules of an organization Mark Mullaly draws on his research to provide practical guidance for decision makers project shapers approving executives and those responsible for how initiation decisions are made By explaining the influence value and risks associated with the elements that inform the way we make strategic decisions he will help you identify how individuals and organizations can best support the process to ensure project initiation decisions are effective and most closely underpin the priorities of the organization If you are involved in framing or making decisions about the future of your organization the projects that you do or don't decide to initiate then read this book It won't make the decisions any easier but it will help you improve the quality of the decisions you make and over time the effectiveness of your organizational decision making Comparative Law Uwe Kischel, 2019-02-21 Uwe Kischel's comprehensive treatise on comparative law offers a critical introduction to the central tenets of comparative legal scholarship The first part of the book is dedicated to general aspects of comparative law The controversial question of methods in particular is addressed by explaining and discussing different approaches and by developing a contextual approach that seeks to engage with real world issues and takes a practical perspective on contemporary comparative legal scholarship The second part of the book offers a detailed treatment of the major legal

contexts across the globe including common law civil law systems based on Germany and France and extended to Eastern Europe Scandinavia and Latin America among others the African context with an emphasis on customary law different contexts in Asia Islamic law and law in Islamic countries plus a brief treatment of Jewish law and canon law and transnational contexts public international law European Union law and lex mercatoria The book offers a coherent treatment of global legal systems that aims not only to describe their varying norms and legal institutions but to propose a better way of seeking to understand how the overall context of legal systems influences legal thinking and legal practice Agency and Archaeology of the French Maritime Empire Marijo Gauthier-Bérubé, Annaliese Dempsey, 2023-12-08 The French maritime empire enabled the continued colonization of territories all over the world from the 17th to the 19th centuries and was built upon the backs of those in lower socioeconomic classes These classes were heavily impacted by social political and economic structures Detailed archaeological case studies using an agency perspective indicate that these lower socioeconomic classes were extremely diverse and dynamic groups that constantly negotiated their identities These stories are not about the kings military leaders and politicians but rather an exploration of the perspective of those who provided the fuel both willingly and unwillingly for the French maritime empire *Life and the Law in the Era of Data-Driven Agency* Mireille Hildebrandt, Kieron O'Hara, 2020-01-31 This ground breaking and timely book explores how big data artificial intelligence and algorithms are creating new types of agency and the impact that this is having on our lives and the rule of law Addressing the issues in a thoughtful cross disciplinary manner leading scholars in law philosophy computer science and politics examine the ways in which data driven agency is transforming democratic practices and the meaning of individual choice Social Epistemology and Epistemic Agency Patrick J. Reider, 2016-07-15 The field of epistemology is undergoing significant changes Primary among these changes is an ever growing appreciation for the role social influences play on one's ability to acquire and assess knowledge claims Arguably social epistemology's greatest influence on traditional epistemology is its stance on decentralizing the epistemic agent In other words its practitioners have actively sought to dispel the claim that individuals can be solely responsible for the assessment acquisition dissemination and retention of knowledge This view opposes traditional epistemology which tends to focus on the individual's capacity to form and access knowledge claims independent of his or her relationship to society Social Epistemology and Epistemic Agency is an essential resource for academics and students who ask in what manner does society engender its members with the ability to act as epistemic agents what actions constitute epistemic agency and what type of beings can be epistemic agents
