Historical Dictionary of Boxing John Grasso,2013-11-14 Boxing is one of the oldest sports in the world reaching back to the Ancient Greeks although it has become popular only in the past century or so But in some ways it is a rather complicated sport since to avoid unnecessary harm it has been endowed with rules to keep it clean referees to see the rules are obeyed and organizations to regulate the sport Boxing was once largely amateur although the professional bouts attracted the most attention but now it is also an Olympic sport And over the years there has been one champion after another who symbolized what boxing was all about such Joe Louis Mohammad Ali and Cassius Clay Naturally these champions are the focus of the Historical Dictionary of Boxing as well and they have the biggest entries in the dictionary section but they had to fight against someone and there are dozens and dozens of other boxers with smaller entries More of these boxers come from the United States than elsewhere but there are others from Europe Asia and Latin America and there are also entries on the major boxing countries as well Plus entries on the rules on the organizations and on the technical terminology and jargon you have to know just to follow the bouts The introduction provides a broad view of boxing s history while the chronology traces events from 688 B C to 2012 A D Not all that much has been written on boxing that is not ephemeral but much of that literature can be found in the bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the sport of boxing *The Art and Aesthetics of Boxing* David H. T. Scott,2008-01-01 What separates the chaos of fighting from the coherent ritual of boxing According to author David Scott it is a collection of aesthetic constructions including the shape of the ring the predictable rhythm of timed rounds the uniformity of the boxers glamorous attire and the stylization of the combatants posture and punches In *The Art and Aesthetics of Boxing* Scott explores the ways in which these and other aesthetic elements of the sport have evolved over time Scott comprehensively addresses the rich dialogue between boxing and the arts suggesting that boxing not only possesses intrinsic aesthetic qualities but also has inspired painters graphic designers surrealist poets and modern writers to identify expand and respond to the aesthetic properties of the sport Divided into three parts the book moves from a consideration of

the evolution and intrinsic aesthetics of boxing to the responses to the sport by cubist and futurist painters and sculptors installation artists poster designers photographers and finally surrealist poets and modernist writers With distinctive illustrations and photographs in nine short chapters Scott creates a visual as well as a textual narrative that supplements and concretely demonstrates the deep dynamic relationship between the art of boxing and the world of art and literature
