Thomas Mann's Doctor Faustus and David Grossman's See Under Love     **Galaxy Interactions at Low and High Redshift**  
J.E. Barnes, D.B. Sanders, 2012-12-06 The 186th IAU Symposium came at an exciting and perhaps even historic time for extragalactic astronomy. New spacecraft observations plumbed the depths of the Universe out to redshifts of five while revealing astounding details of nearby galaxies and AGN at intermediate redshifts. Theoretical ideas on structure formation together with results from detailed numerical modeling created a comprehensive framework for modeling the formation of galaxies and the transformation of galaxies by interactions and mergers. All these strands came together at the Symposium as participants glimpsed a developing synthesis highlighting galactic encounters and their role in the history of the Universe. This volume offers professional astronomers including PhD students an overview of the rapidly advancing subject of galaxy interactions at low and high redshifts     [Directory of American Poetry Books](#), 1997     **Human Emotions** Jonathan H.

Turner, 2007 This major theoretical work takes existing work on the emotions in significantly new directions. It gives a comprehensive account of emotions beginning with general sociological principles moving over important theory construction of social formation and applying this to a detailed and unified grand theory of human emotions. Presenting a unified view of the emotions in the social universe the book explores the relationships between emotions social structure and culture. Turner hypothesizes how social structure and culture affect emotional arousal in humans and vice versa. This book is essential reading for undergraduate and postgraduate students researching sociology of emotions social psychology and contemporary social theory and is also relevant for students and researchers working in the fields of psychology and cultural studies     [The Iran-United States Claims Tribunal and the Process of International Claims Resolution](#) David D.

Caron, Crook, 2021-10-01 Examining the Tribunal's structure operations and evolution in search of the underlying patterns that characterize such international institutions this valuable book records the diverse experiences and judgments of a group of outstanding lawyers each of whom has played a significant role at some stage of the Tribunal's proceedings. The essays are grouped in three distinct stages in the Tribunal's history. The first group deals with the creation of the Tribunal building upon the bare bones framework laid down by the Claims Settlement Declaration. The second deals with the Tribunal at work processing and deciding cases during the period when it gave greatest emphasis to resolving large commercial claims. The third deals with the present situation where the Tribunal has taken a docket first dominated by claims of U.S. Iranian dual nationals against Iran and then by a small group of large and difficult claims between the two governments.
