, 1965 [Social Interaction Systems](#) Robert Bales, 2017-09-08 *Social Interaction Systems* is the culmination of a half century
of work in the field of social psychology by Robert Freed Bales a pioneer at the Department of Social Relations at Harvard
University Led by Talcott Parsons Gordon W Allport Henry A Murray and Clyde M Kluckhohn the Harvard Project was
intended to establish an integrative framework for social psychology one based on the interaction process augmented by
value content analysis Bales sees this approach as a personal involvement that goes far beyond the classical experimental
approach to the study of groups Bales developed SYMLOG which stands for systematic multiple level observation of groups
The SYMLOG Consulting Group approach was worldwide as well as interactive It created a data bank that made possible a
search for general laws of human interaction far beyond anything thus far known In his daring search for universal features
Bales redefines the fundamental boundaries of the field and in so doing establishes criteria for the behavior and values of
leaders and followers Bales offers a new field theory an appreciation of the multiple contexts in which people live Bales does
not aim to eradicate differences but to understand them In this sense the values inherent in any interaction situation permit
the psychologist to appreciate the sources of polarization as they actually exist between conservative and liberal
individualistic and authoritarian libertarian and communitarian Bales repeatedly emphasizes that the mental processes of
individuals and their social interactions take place in systematic contexts which can be measured Hence they permit
explanation and prediction of behavior in a more exact way than in past traditions Bales has offered a pioneering work that
has the potential to move us into a new theoretical epoch no less than a new century His work holds out the promise of
synthesis and support for psychologists sociologists and all who work with groups and organizations of all kinds [Social Interaction](#)
