Smoke A Global History Of Smoking:

Smoke Sander L. Gilman, Xun Zhou, 2004 People have always smoked and they probably always will Every culture in recorded history has smoked something whether for pleasure or relief whether as part of an elaborate religious ritual or merely to strike a pose This is the first truly comprehensive history of smoking describing all of its forms practices paraphernalia and materials in cultures locations and times throughout the world **Smoke**, 2004 [An Atmospheric History of Smoking in Modern Britain](#) Ivan Markovic, 2025-01-09 This book studies the historiography of smoking in modern Britain with a focus on the social cultural and emotional aspects of the practice Centring on four specific moments in modern British history the turn of the 20th century the Second World War the 1980s and the mid 2000s *An Atmospheric History of Smoking* not only traces the history of tobacco use but explores the cultural significance of and attitudes toward smoking Markovic combines oral histories with archival research and artefact analysis in order to evoke the unique social atmospheres surrounding smoking at each of these key periods within British history By analysing factors such as the encouragement of the practice as part of Home Front mood management during the Second World War or the impact of smoking on 1980s workplace relations this book highlights how the role of smoking in public spheres has undergone significant change throughout the 20th century Constructing the 2007 UK ban on smoking in public places as a turning point for the practice in the British cultural imagination Markovic examines how smoking has both been deemed out of place and yet still persists today [The Atlantic in World History](#) Karen Ordahl Kupperman, 2012-08-08 *The Atlantic in World History* tells the story of the emergence of an integrated Atlantic world after 1492 and the way lives on all four continents were transformed Novel products especially foods made lives better but intensive labor systems especially slavery ruined many lives Plantation agriculture and intensified trade fed industrial processes and led to modern economic and political regimes **The Oxford Handbook of Global Drug History** Paul Gootenberg, 2022 This landmark collection of essays by thirty five historians working on a global scale brings together the latest knowledge and perspectives about the long origins and transformations of today's illicit drugs such as cannabis heroin and cocaine *A History of Global Consumption* Ina Baghdiantz McCabe, 2014-08-27 In *A History of Global Consumption 1500-1800* Ina Baghdiantz McCabe examines the history of consumption throughout the early modern period using a combination of chronological and thematic discussion taking a comprehensive and wide reaching view of a subject that has long been on the historical agenda The title explores the topic from the rise of the collector in Renaissance Europe to the birth of consumption as a political tool in the eighteenth century Beginning with an overview of the history of consumption and the major theorists such as Bourdieu Elias and Barthes who have shaped its development as a field Baghdiantz McCabe approaches the subject through a clear chronological framework Supplemented by illustrations in every chapter and ranging in scope from an analysis of the success of American commodities such as tobacco sugar and chocolate in Europe and Asia to a discussion of the Dutch tulip mania *A History of*

Global Consumption 1500 1800 is the perfect guide for all students interested in the social cultural and economic history of the early modern period **Tobacco in Global Perspective, 1780-1960** Alexander van Wickeren, Jean Stubbs, William Gervase Clarence-Smith, 2024-12-24 This edited collection provides an in depth analysis of the imperial colonial and postcolonial history of tobacco from 1780 to 1960 which was one of the major periods of change in the global tobacco economy It brings together case studies from known and lesser known tobacco regions of the world to interrogate tobacco s second globalisation a concept little employed by historians thus far but one which encapsulates tobacco s central role in Europe s imperial expansion beyond the Atlantic and the social political and cultural transformations of global capitalism taking place during the period The collection fills a gap in the study of commodities of empire which has examined tobacco primarily for the early modern Atlantic world or for single empires during the later period It invites comparison across borders encompassing political economic and sociocultural history and with a particular emphasis on trade knowledge and labour juxtaposes micro histories with a macro historical perspective Together the studies in the volume testify to the importance of tobacco in new places and among new players challenging the confines of national and imperial historiographical frameworks They demonstrate the rising dominance of new powerful forces including transnational corporations but also a wide range of actors in conflict and negotiation within territorial and imperial confines By systematically taking into account the agency in Europe s apparent peripheries and the Global South they critique a simple assumption of the dominance of the West Chapter 11 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Smoking Geographies Ross Barnett, Graham Moon, Jamie Pearce, Lee Thompson, Liz Twigg, 2017-03-13 Smoking Geographies provides a research led assessment of the impact of geographical factors on smoking The contributors uncover how geography can show us not only why people smoke but also broader issues of tobacco control providing deeper clarity on how smoking and tobacco is governed The text centres on one of the most important public health issues worldwide and a major determinant of preventable mortality and morbidity in developed and developing countries Records the outcomes of a long term research collaboration that brings a geographical lens to smoking behaviour Uncovers how geography can play a part in understanding not only why people smoke but also broader issues of tobacco control Provides a deeper understanding of how smoking and tobacco is governed regarding where people may smoke but also more subtle governance as a climate is produced in which smoking becomes denormalised Brings both quantitative and qualitative perspectives to bear on this major source of mortality and morbidity *All Facts Considered*
