practices in the field of education The author explores how imagination permeates every aspect of life with the intent to develop capacity with the readers to look beyond the taken for granted to question the normal to develop various ways of knowing seeing feeling and to imagine and act upon possibilities for positive social and educational change The principal aspect of the work illustrated in this book that distinguishes it from other work is that an imaginary dialogue between Maxine Greene and Paulo Freire runs through the book using actual citations from their work Each chapter starts with such a dialogue interspersed with the works of others and the author s critical autobiographical reflections With a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author explores some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of imagination and empathy as social imagination Reflecting upon emerging tensions challenges and possibilities curriculum workers face in such an era of standardization the author calls for a curriculum of imagination After providing a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author looks at some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of the imagination and empathy as social imagination All of these ideas are then incorporated in a curriculum of imagination that is envisioned through Joseph Schwab s four commonplaces of curriculum followed by a discussion of emerging tensions issues and possibilities for praxis and scholarship in present and future inquiry

The Evolution of Teaching Rich Waters, 2014-10-08 The Evolution of Teaching invites teachers to rethink what teachers and schools do The need to rethink the role of teachers is driven by an abundance of data showing that teachers are increasingly unhappy with their work Most critically they feel a loss of control over their work and their profession as they witness teacher voices being marginalized by impersonal authorities outside of schools who dictate more and more of what teachers and schools must do The antidote to this condition is the evolution of teaching Teachers need to take charge and lead change They need to redefine teaching and schooling in such a way that it authentically supports student learning and teacher learning They must redefine it in a way that supports every teacher s desire to have a personal impact on students while having control over their own work stakeholder standing as respected professionals and a full career of professional growth As A Guidebook to the Advancement of Teaching Teacher Education and Happier Careers this text will assist teachers in reconceiving the profession of teaching in ways that will make it more personally satisfying while acknowledging that the work of teachers in the twenty first century must necessarily be different from what we have now legacy practices of standardization left over from the industrial age
