**The Big Four** Ian D. Gow, Stuart Kells, 2018-08-28 Messrs Gow and Kells have made an invaluable contribution writing in an amused tone that nevertheless acknowledges the firms immense power and the seriousness of their neglect of traditional responsibilities The Big Four will appeal to all those interested in the future of the profession and of capitalism itself Jane Gleeson White Wall Street Journal With staffs that are collectively larger than the Russian army and combined revenues of over 130 billion a year the Big Four accounting firms Deloitte PricewaterhouseCoopers Ernst Young and KPMG are a keystone of global commerce But leading scholar Ian Gow and award winning author Stuart Kells warn that a house of cards may be about to fall

Stretching back to the Medicis in Renaissance Florence this book is a fascinating story of wealth power and luck The founders of the Big Four lived surprisingly colorful lives Samuel Price for example married his own niece Between the world wars Nicholas Waterhouse collected postage stamps while also hosting decadent parties in his fashionable London home All four firms have endured major calamities in recent decades There have been hundreds of court cases and legal prosecutions for failed audits tax scandals and breaches of independence The firms have come so close to extinction level events that regulators have required them to prepare living wills And today the Big Four face an uncertain future thanks to their push into China their vulnerability to digital disruption and competition and the hazards of providing traditional services in a new era of transparency This account of the past present and likely future of the Big Four is essential reading for anyone perplexed or fascinated by professional services working or considering working in the industry or simply curious about the fate of the global economy

### **Medicine, Risk, Discourse and Power** John Martyn Chamberlain, 2015-11-19

This book critically explores from a comparative international perspective the role medicine plays in constructing and managing natural and social risks including those belonging to modern medical technology and expertise Drawing together chapters written by professional practitioners and social scientists from the UK South America Australia and Europe the book offers readers an insightful and thought provoking analysis of how modern medicine has transformed our understanding of both ourselves and the world around us but in so doing has arguably failed to fully recognize and account for its unintended and negative effects This is an essential read for social scientists practitioners and policymakers who want to better understand how they can develop new ways of thinking about how modern medicine can promote social goods and enhance

public health      **Digital Media and Risk Culture in China's Financial Markets** Zhifei Mao, 2019-01-15 This book analyzes the risk cultures in China that have emerged from the entanglement of new communication technologies and financial markets examining the role that digital media play in Asian modernity and offering an alternative narrative to that of the West The book illustrates the impact of exclusively Chinese digital media on power dynamics within risk definition arguing that information and communication technologies ICTs empower individuals enabling them to compete with an expert oriented risk culture controlled by Government and banker led media outlets With struggles competitions compromises and confrontations major communicators in financial world are collectively producing risk cultures based on interpersonal relations instead of contractual obligations in which insider information is valued over professional analysis Meanwhile investors are trapped in a risk culture paradox that they themselves have produced as they attempt to take advantage of other actors uncertainties and eventually produce risks for the entire market      Software Project Management Ashfaq Ahmed, 2016-04-19 To build reliable industry applicable software products large scale software project groups must continuously improve software engineering processes to increase product quality facilitate cost reductions and adhere to tight schedules Emphasizing the critical components of successful large scale software projects Software Project Management A      Strategic Networks J Carlos Jarillo, 2013-01-11 Strategic Networks examines the new style of industrial coordination which enables independent companies to work so closely together that they can sometimes present a single face to the outside world Coordination is not achieved by mergers and acquisitions but through the creation of a strategic network of companies working towards the same goals Based on the author's extensive research the book first analyses the economic arguments for industry coordination and suggests in which industries it is most likely to occur The second part of the book focuses on managerial implications for this type of organization impact on responsibilities control without ownership cooperation instead of competition how to set up alliances and how to maintain them A wide range of international examples and cases are featured in the book J Carlos Jarillo is Professor of Strategy at the University of Geneva previously Professor of General Management and International Strategy at IMD Switzerland His research on strategy has been widely published in more than two dozen articles and books He also acts as senior adviser to a large number of international corporations

**Anthropology and Risk** Asa Boholm, 2015-04-24 Drawing on theory from anthropology sociology organisation studies and philosophy this book addresses how the perception communication and management of risk is shaped by culturally informed and socially embedded knowledge and experience It provides an account of how interpretations of risk in society are conditioned by knowledge claims and cultural assumptions and by the orientation of actors based on roles norms expectations identities trust and practical rationality within a lived social world By focusing on agency social complexity and the production and interpretation of meaning the book offers a comprehensive and holistic theoretical perspective on risk based on empirical case studies and ethnographic enquiry As a selection of Asa Boholm's publications throughout her career

along with a newly written introduction overviewing the field this book provides a unified perspective on risk as a construct shaped by social and cultural contexts This collection should be of interest to students and scholars of risk communication risk management environmental planning environmental management and environmental and applied anthropology
