Charlotte Perkins Gilman Jack London and Frank Norris Drawing on contemporaneous theories of time and modernity as well as recent scholarship on film narrative and naturalism this book moves beyond traditional adaptation studies approaches to argue that both naturalism and the early cinema intervened in the era's varying experiments with temporality and time management Specifically it shows that American naturalist novels are constructed around a sustained formal and thematic interrogation of the relationship between human freedom and temporal inexorability and that the early cinema developed its norms in the context of naturalist experiments with time The book identifies the silent cinema and naturalist novel's shared privileging of narrative progress over character development as a symbolic solution to social and aesthetic concerns ranging from systems of representation to historiography labor reform miscegenation and birth control This volume thus establishes the dynamic exchange between silent film and naturalism arguing that in the products of this exchange personality figures as excess bogging down otherwise efficient narratives of progress Considering naturalist authors and a diverse range of early film genres this is the first book length study of the reciprocal media exchanges that took place when the cinema was new It will be a valuable resource to those with interests in Adaptation Studies American Literature Film History Literary Naturalism Modernism and Narrative Theory

D.W. Griffith's the Birth of a Nation Melvyn Stokes, 2008-01-15 In this deeply researched and vividly written volume Melvyn Stokes illuminates the origins production reception and continuing history of this ground breaking aesthetically brilliant and yet highly controversial movie By going back to the original archives particularly the NAACP and D W Griffith Papers Stokes explodes many of the myths surrounding The Birth of a Nation 1915 Yet the story that remains is fascinating the longest American film of its time Griffith's film incorporated many new features including the first full musical score compiled for an American film It was distributed and advertised by pioneering methods that would quickly become standard Through the high prices charged for admission and the fact that it was shown at first only in live theaters with orchestral accompaniment Birth played a major role in reconfiguring the American movie audience by attracting more middle class patrons But if the film was a milestone in the history of cinema it was also undeniably racist Stokes shows that the darker side of this classic movie has its origins in the racist ideas of Thomas Dixon Jr and Griffith's own Kentuckian background and earlier film career The book reveals how as the years went by the campaign against the film became increasingly successful In the 1920s for example the NAACP exploited the fact that the new Ku Klux Klan which used Griffith

s film as a recruiting and retention tool was not just anti black but also anti Catholic and anti Jewish as a way to mobilize new allies in opposition to the film This crisply written book sheds light on both the film s racism and the aesthetic brilliance of Griffith s filmmaking It is a must read for anyone interested in the cinema

In the Shadow of The Birth of a Nation Melvyn Stokes,Paul McEwan,2023-03-14 This collection brings together many of the world s leading scholars on race and film to re consider the legacy and impact of D W Griffith s deeply racist 1915 epic The Birth of a Nation While this film is often cited there is a considerable dearth of substantial research on its initial impact and global reach These essays fill important gaps in the history of the film including essential work on its sources international reception and African American responses This book is a key text in the history of the most infamous and controversial film ever made and offers crucial new insights to scholars and students working in film history African American history and the history of race relations

Sacrifice and Modern Thought Julia Meszaros,Johannes Zachhuber,2013-10-03 Sacrifice has always been central to the study of religion yet attempts to understand and assess the concept have usually been controversial The present book which is the result of several years of interdisciplinary collaboration suggests that in many ways the fascination with sacrifice has its roots in modernity itself Theological developments following the Reformation the rediscovery of Greek tragedies and the encounter with the practice of human sacrifice in the Americas triggered a complex and passionate debate in the sixteenth century which has never since abated Contributors to this volume leading experts from theology anthropology and literary and cultural studies describe and discuss how this modern fascination for the topic of sacrifice has evolved how it has shaped theological debate the literary imagination and anthropological theory Individual chapters discuss in depth major theological trajectories theories of sacrifice including those of Marcel Mauss and Ren Girard and current feminist criticism They engage with sacrifice in the context of religious and philosophical thought works of literature and film They explore different yet overlapping aspects of modernity s obsession with sacrifice The book does not intend to impose a single narrative over all these diverse contributions but brings them into a conversation around a common centre

The Trash Phenomenon Stacey Michele Olster,2003 The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events artifacts and theories of popular culture into their works but also have used those works as windows into popular culture s role in the process of nation building Taking her cue from Donald Barthelme s 1967 portrayal of popular culture as trash and Don DeLillo s 1997 description of it as a subversive people s history Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception The Trash Phenomenon begins with a look at the mass media s role in the United States emergence as the twentieth century s dominant power Olster discusses the works of three authors who collectively span the century bounded by the Spanish American War 1898 and the Persian Gulf War 1991 Gore Vidal s American Chronicle series John Updike s Rabbit tetralogy and Larry Beinhart s American Hero Olster then turns her attention to three non American writers whose works explore the imperial

sway of American popular culture on their nation's value systems hierarchical class structure in Dennis Potter's England Peronism in Manuel Puig's Argentina and Nihonjinron consensus in Haruki Murakami's Japan Finally Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963 Olster first focuses on autobiographical historical and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class gender and race the John F Kennedy assassination the Scarsdale Diet Doctor murder and the O J Simpson trial She concludes with some thoughts about the nature of American consolidation after 9 11

Refiguring American Film Genres Nick Browne, 1998-04-22 This collection of essays by leading American film scholars charts a whole new territory in genre film criticism Rather than assuming that genres are self evident categories the contributors offer innovative ways to think about types of films and patterns within films in a historical context Challenging familiar attitudes the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society The range of essays is exceptional from David J Russell's insights into the horror genre to Carol J Clover's provocative

take on trial films to Leo Braudy's argument for the subject of nature as a genre. Also included are essays on melodrama, race film, noir, and the industrial context of genre production. The contributors confront the poststructuralist critique of genre head on; together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema.

The Media Reader on Representations of Race, Gender, Disability, Body Size, Age, and Sexuality

Caroline Heldman, Rebecca Cooper, 2025-04-01. This reader is the first comprehensive look at representations of race, gender, disability, body size, age, and sexuality in US entertainment media. The bible of media representation, it weaves contemporary media examples together with quantitative data and qualitative case studies in a way that is accessible to students, industry insiders, and media advocates. Using over twenty publicly available reports and datasets, the authors provide the most detailed picture to date of how different groups have historically been erased and misrepresented in film and television. This book should be on the shelf of every person who seeks to understand the significance of media inclusion for the advancement of traditionally marginalized groups in the US.

The Birth of Whiteness Daniel Bernardi, 1996. As indelible components of the history of the United States, race and racism have permeated nearly all aspects of life: cultural, economic, political, and social. In this first anthology on race in early cinema, fourteen scholars examine the origins, dynamics, and ramifications of racism and Eurocentrism and the resistance to both during the early years of American motion pictures. Any discussion of racial themes and practices in any arena inevitably begins with the definition of race: Is race an innate and biologically determined essence, or is it a culturally constructed category? Is the question irrelevant? Perhaps race exists as an ever-changing historical and social formation that regardless of any standard definition involves exploitation, degradation, and struggle. In his introduction, Daniel Bernardi writes that early cinema has been a clear partner in the hegemonic struggle over the meaning of race and that it was steadfastly aligned with a Eurocentric world view at the expense of those who didn't count as white. The contributors to this work tackle these problems and address such subjects as biological determinism, miscegenation, Manifest Destiny, assimilation, and nativism and their impact on early cinema. Analyses of *The Birth of a Nation*, *Romona*, *Nanook of the North*, and *Madame Butterfly* and the directorial styles of D.W. Griffith, Oscar Micheaux, and Edwin Porter are included in the volume.

Apocalypse, Revolution and Terrorism Jeffrey Kaplan, 2018-09-21. This book focuses on religiously driven

oppositional violence through the ages. Beginning with the 1st century Sicari, it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam, past and present. It is divided into two sections: *This was Then* and *This is Now*, which together examine the cultural and religious history of oppositional violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements' leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal in that it incorporates the author's experiences in the worlds of communist Eastern Europe and the Iranian

Revolution and in the uprisings and wars in the Middle East and East Africa This book will be of much interest to students of religious and political violence religious studies history and security studies **Playing the Race Card** Linda Williams, 2002-09-23 Williams the author of Hard Core explores how these images took root beginning with melodramatic theater where suffering characters acquire virtue through victimization BOOK JACKET
