**The Black and the Red** Catherine Nay,1987 Chronicles the life of the French President from his austere childhood and deeply religious youth through the development of his obsessive ambition for power and ruthless pursuit of the presidency

**King of the Mountain** Arnold M. Ludwig,2002-01-01 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too from the book King of the Mountain presents the startling findings of Arnold M Ludwig s eighteen year investigation into why people want to rule The answer may seem obvious power privilege and perks but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable trust nobody feel besieged and face almost certain death Ludwig s results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power govern and rule Profiling every ruler of a recognized country in the twentieth century over 1 900 people in all Ludwig establishes how rulers came to power how they lost power the dangers they faced and the odds of their being assassinated committing suicide or dying a natural death Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available he compares six different kinds of leaders examining their characteristics their childhoods and their mental stability or instability to identify the main predictors of later political success Ludwig s penetrating observations though presented in a lighthearted and entertaining way offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace François Mitterrand Ronald Tiersky,2003

Tiersky examines the three major themes of Mitterrand s presidency socialism national reconciliation and the reconstruction of Europe and shows that on each count Mitterrand left a decisive mark **De Gaulle's Legacy** W. Nester,2014-12-16 This book explores the following What is the art of power What is the art of French power How did Charles de Gaulle understand and assert power establishing the Fifth Republic and breaking centuries of political instability How well or poorly have his successors wielded the art of French power to define defend or enhance French interests *The Retreat of Social*

*Democracy* John T. Callaghan,2000 An examination of policy and programme in the key social democratic parties of Britain France Germany and Sweden since the 1970s It situates change in the context of capitalist restructuring and shows how the radical Left initially responded to the unfolding crisis of the post war order **The Socialite Who Killed a Nazi with Her**

**Bare Hands and 143 Other Fascinating People Who Died This Past Year** William McDonald,2012-10-30 Returning for its second year but reimagined in a new impulse format with a new title new cover new mission and new sensibility here is *The Socialite Who Killed a Nazi with Her Bare Hands* a pithier quirkier collection of the 164 best page turning obituaries from The New York Times Written by top journalists each story is a gem of a bio a full life in miniature There s the famous
