

Urban Political Economy of Urban Regeneration and Inequality: Case of the post-Apartheid city of Cape Town

INTRODUCTION

The legacy of apartheid has left Cape Town a highly unequal city with inter-racial patterns of inequalities as well as having spatial disparities, and a growing urban polarisation between different racial groups (Peyroux, 2006, p. 9). With post-Apartheid political landscape of South Africa experiencing a rise of neoliberal thought and policymaking both at a national and urban level, looking at the neoliberal strategy of urban regeneration for improvements of economic and social condition of the urban areas becomes interesting (McDonald & Smith, 2004, p. 1461; Roberts, 2000, p. 17). A persistent spatial inequality leads to social exclusion which the data shows is prevalent for the black community of Cape Town (Roberts, 2000, p. 5).

As a result of the neoliberal hegemony of the South African political economy, Business Improvement District has been widely used as an urban regeneration strategy in a city that is highly unequal (Didier et al., 2012, p. 915). Because of the inequalities of post-Apartheid Cape Town, its urban regeneration when addressing social exclusion and racial spatial inequality will be further examined. The main theme of the essay is free market economics vs socialist approaches and the topic is urban regeneration. The interest lays in looking at the topic - the choice of urban regeneration strategy and what implications it has for racial spatial inequality and social exclusion. It does so by using South Africa as a country case because of the history of social exclusion and racial inequality both during and post-Apartheid. Cities however, are and always will be the focal point of civilized life and because the topic is urban regeneration, Cape Town is used as a city-level analysis of South African post-Apartheid urban political economy in addressing racial inequality (Colquhoun, 1995, p. 13). The essay acknowledges the role of colonialism and the repercussions it may have for the neoclassical dominance of thought, however, the focus will be on the level of social exclusion and

An Ex-colored Church Raymond R. Sommerville,2004 The Christian Methodist Episcopal Church was an important part of the historic freedom struggles of African Americans from Reconstruction to the Civil Rights movement This fight for equality and freedom can be seen clearly in the denomination's evolving social and ecumenical consciousness The denomination's very name changed from Colored to Christian in 1954 but the denomination did not join the struggle late Rather the CME was a critical participant from the days following the Civil War At times the Church was at odds with their white Methodist counterparts and in solidarity with other African American denominations on issues of racial desegregation and the role of social protest in religion Raymond Sommerville's important book discusses the relationship between Martin Luther King Jr and the Southern Christian Leadership Conference and the CME While King and others received most of the headlines during the Civil Rights Era the CME proved to be involved at all levels and equally important in all they did With its strategic location in the South and its long history of ecumenical involvement the CME Church emerged as a leading advocate of ecumenical civil rights activism Previous interpretations asserted that the CME was apolitical and accommodationist or that it was more progressive than it was Sommerville presents a more nuanced account of how a church of largely former slaves emancipated itself from the constraints of white Methodist paternalism and Jim Crow racism to emerge as a progressive force of racial justice and ecumenism in the South and beyond Sommerville examines major centers of the CME Nashville Birmingham Memphis Atlanta and selected leaders in the South in charting the gradual metamorphosis of the former CME as a largely nonpolitical body of former slaves in 1870 to a more politically active denomination at the apex of the modern Civil Rights movement in the 1960s

The Gospel in Black and White Dennis L. Okholm,1997-01-01 After signal victories of the civil rights

movement in the sixties recent events have shown that the divide between black and white Americans remains alarmingly wide And as African and Euro Americans perhaps increasingly find themselves at odds politically and culturally Sunday morning worship dismayingly remains the most segregated hour of the week Yet Christians of both races affirm that the gospel calls them together that they at least should be one people of one Lord one faith one baptism In that spirit the incisive and challenging essays in this book consider what rigorous theological work can contribute to the noble and ongoing quest for racial reconciliation Some of the church's most exciting black and white thinkers are gathered here by editor Dennis Okholm to address issues of theological method hermeneutics soteriology ecclesiology and social ethics always with an eye to closing the gaping wound of racism and serving God's kingdom across color lines Down by the Riverside Larry Murphy, Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology Down by the Riverside provides an expansive introduction to the development of African American religion and theology Spanning the time of slavery up to the present the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure Orisa and Black Judaism to Islam African American Catholicism and humanism This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity as well as the maintenance of African and Islamic traditions in antebellum America Preeminent contributors include Charles Long Gayraud Wilmore Albert Raboteau Manning Marable M Shawn Copeland Vincent Harding Mary Sawyer Toinette Eugene Anthony Pinn and C Eric Lincoln and Lawrence Mamiya They consider the varieties of religious expression emerging from migration from the rural South to urban areas African American women's participation in Christian missions Black religious nationalism and the development of Black Theology from its nineteenth century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians They also draw on case studies to provide a profile of the Black Christian church today This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people practices and theological positions **New Day Begun** R. Drew Smith, 2003-07-02 This collection discusses African American churches involvement in post civil rights era political culture with regard to faith based services black nationalism evangelism and community development *Race, Religion, and the Continuing American Dilemma* C. Eric Lincoln, 2011-04-01 A classic work on religion and the racial problems of modern America now brought up to date Since the early days of the Republic Americans exuberant unchastened idealism their commitment to the notion of a perfect society in the New World has clashed with the reality of ugly American society and religious groups have all too often accommodated themselves to these injustices In *Race Religion and the Continuing American Dilemma* C Eric Lincoln reevaluates what Gunnar Myrdal called the American dilemma and studies particularly the influence of the black church This revised edition takes into account the weakening of welfare and affirmative action and argues that the black church must serve today as a vital moral authority to lead us in to the twenty

first century *African American Religious History* Milton C. more generally As a cultural phenomenon it has even become integral to the worship experience of a growing number of churches who are reaching out to these groups This includes not just African American churches but churches of all ethnic groups Once seen as advocating violence Hip Hop can be the Church's agent of salvation and praise to transform society and reach youth and young adults in greater numbers After looking at Hip Hop's socio historical context including its African roots Wake Up shows how Hip Hop has come to embody the worldview of growing numbers of youth and young adults in today's church The authors make the case that Hip Hop represents the angst and hope of many youth and young adults and that by examining the inherent religious themes embedded in the music the church can help shape the culture of hip hop by changing its own forms of preaching and worship so that it can more effectively offer a message of repentance and liberation
