## **The Black Consumer Dimensions Of Behavior And Strategy:**

**The Black Consumer** George Joyce, Norman A. P. Govoni, 1971      **Supersizing Urban America** Chin Jou, 2017-03-15

More than one third of adults in the United States are obese The Centers for Disease Control and Prevention estimates that there are over 112 000 obesity related deaths annually and for many years the government has waged a very public war on the problem Former Surgeon General Richard Carmona warned in 2006 that obesity is the terror within going so far as to call it a threat that will dwarf 9 11 What doesn't get mentioned in all this The fact that the federal government helped create the obesity crisis in the first place especially where it is strikingly acute among urban African American communities

**Supersizing Urban America** reveals the little known story of how the U S government got into the business of encouraging fast food in inner cities with unforeseen consequences we are only beginning to understand Chin Jou begins her story in the late 1960s when predominantly African American neighborhoods went from having no fast food chain restaurants to being littered with them She uncovers the federal policies that have helped to subsidize that expansion including loan guarantees to fast food franchisees programs intended to promote minority entrepreneurship and urban revitalization initiatives During this time fast food companies also began to relentlessly market to urban African American consumers An unintended consequence of these developments was that low income minority communities were disproportionately affected by the obesity epidemic In the first book about the U S government's problematic role in promoting fast food in inner city America Jou tells a riveting story of the food industry obesity and race relations in America that is essential to understanding health and obesity in contemporary urban America

**Duke Ellington's America** Harvey G. Cohen, 2010-05-15 Few American artists in any medium have enjoyed the international and lasting cultural impact of Duke Ellington From jazz standards such as Mood Indigo and Don't Get Around Much Anymore to his longer more orchestral suites to his leadership of the stellar big band he toured and performed with for decades after most big bands folded Ellington represented a singular pathbreaking force in music over the course of a half century At the same time as one of the most prominent black public figures in history Ellington demonstrated leadership on questions of civil rights equality and America's role in the world With Duke Ellington's America Harvey G Cohen paints a vivid picture of Ellington's life and times taking him from his youth in the black middle class enclave of Washington D C to the heights of worldwide acclaim Mining extensive archives many never before available plus new interviews with Ellington's friends family band members and business associates Cohen illuminates his constantly evolving approach to composition performance and the music business as well as issues of race equality and religion Ellington's own voice meanwhile animates the book throughout giving Duke Ellington's America an intimacy and immediacy unmatched by any previous account By far the most thorough and nuanced portrait yet of this towering figure Duke Ellington's America highlights Ellington's importance as a figure in American history as well as in American music

**Commerce in Color** James C. Davis, 2010-02-11 Commerce in Color explores the juncture of consumer culture and race by examining

advertising literary texts mass culture and public events in the United States from 1893 to 1933 James C Davis takes up a remarkable range of subjects including the crucial role publishers Boni and Liveright played in the marketing of Harlem Renaissance literature Henry James s critique of materialism in *The American Scene* and the commodification of racialized popular culture in James Weldon Johnson s *The Autobiography of an Ex Colored Man* as he argues that racial thinking was central to the emergence of U S consumerism and conversely that an emerging consumer culture was a key element in the development of racial thinking and the consolidation of racial identity in America By urging a reassessment of the familiar rubrics of the culture of consumption and the culture of segregation Dawson poses new and provocative questions about American culture and social history Both an influential literary study and an absorbing historical read *Commerce in Color* proves that in America advertising publicity and the development of the modern economy cannot be understood apart from the question of race A welcome addition to existing scholarship Davis s study of the intersection of racial thinking and the emergence of consumer culture makes connections very few scholars have considered James Smethurst University of Massachusetts James C Davis is Assistant Professor of English at Brooklyn College [Food Is Love](#) Katherine J.

Parkin,2011-06-03 Modern advertising has changed dramatically since the early twentieth century but when it comes to food Katherine Parkin writes the message has remained consistent Advertisers have historically promoted food in distinctly gendered terms returning repeatedly to themes that associated shopping and cooking with women Foremost among them was that regardless of the actual work involved women should serve food to demonstrate love for their families In identifying shopping and cooking as an expression of love ads helped to both establish and reinforce the belief that kitchen work was women s work even as women s participation in the labor force dramatically increased Alternately flattering her skills as a homemaker and preying on her insecurities advertisers suggested that using their products would give a woman irresistible sexual allure a happy marriage and healthy children Ads also promised that by buying and making the right foods a woman could help her family achieve social status maintain its racial or ethnic identity and assimilate into the American mainstream Advertisers clung tenaciously to this paradigm throughout great upheavals in the patterns of American work diet and gender roles To discover why *Food Is Love* draws on thousands of ads that appeared in the most popular magazines of the twentieth and early twenty first centuries including the *Ladies Home Journal* *Good Housekeeping* *Ebony* and the *Saturday Evening Post* The book also cites the records of one of the nation s preeminent advertising firms as well as the motivational research advertisers utilized to reach their customers **Advances in Communication Research to Reduce Childhood Obesity**

Jerome D. Williams,Keryn E Pasch,Chiquita A. Collins,2013-02-12 Rates of childhood obesity are alarmingly high and increasing each year Studies have shown that obese children are more likely to become obese adults and are likely to suffer with numerous health consequences like coronary heart disease high blood pressure and Type II diabetes among others Studies also indicate that television viewing and exposure to advertising for food products influences children s attitudes

toward food preferences and food purchase requests for foods with low nutritional value It is important to better understand the role of media in childhood obesity and to learn how media may be used to address this issue in a positive way This book focuses on communication and media research that can have an impact on reducing childhood obesity Emphasis is placed on topics related to how the media communicate health related messages about food nutrition and diet that influence childhood obesity Particular emphasis is on the new media given the fact that media now have more central roles in socializing today's children and youth than ever before Advertising and marketing messages reach young consumers through a variety of vehicles broadcast and cable television radio magazines computers through the Internet music cell phones and in many different venues homes schools child care settings grocery stores shopping malls theaters sporting events and even airports In addition given the disparity in obesity rates between children of color and the general population special attention is given to research on media targeting these populations

**Pushing Cool** Keith Wailoo,2021-11-02 Spanning a century Pushing Cool reveals how the twin deceptions of health and Black affinity for menthol were crafted and how the industry's disturbingly powerful narrative has endured to this day Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner George Floyd was killed by police outside a store in Minneapolis known as the best place to buy menthols Black smokers overwhelmingly prefer menthol brands such as Kool Salem and Newport All of this is no coincidence The disproportionate Black deaths and cries of I can't breathe that ring out in our era because of police violence COVID 19 or menthol smoking are intimately connected to a post 1960s history of race and exploitation In Pushing Cool Keith Wailoo tells the intricate and poignant story of menthol cigarettes for the first time He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America the world of tobacco marketers consultants psychologists and social scientists as well as Black lawmakers and civic groups including the NAACP Today most Black smokers buy menthols and calls to prohibit their circulation hinge on a history of the industry's targeted racial marketing In 2009 when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking menthol cigarettes were also slated to be banned Through a detailed study of internal tobacco industry documents Wailoo exposes why they weren't and how they remain so popular with Black smokers
