Hawthorne s fiction The essays were published over a span of about thirty five years in various scholarly journals The author has revised some of these essays considerably and has added seven chapters to give the book continuity and unity Abel studies two characteristics besides the classic elegance of its style that distinguish Hawthorne s fiction One characteristic is Hawthorne s habitual use of a psychological approach to its subjects He assumed an absolute of archetypal human experiences enacting a providentially directed drama of which he had an uncertain knowledge through sympathy with characters assuming primordial roles The other characteristic was Hawthorne s use of the mode that he called the moral picturesque This was a mode of figuration of the archetypal experiences that his psychological preoccupations discovered His sensibility penetrated more deeply than his often banal thought and the picturesque mode enabled him to cognize perceptions that were not reducible to explicit statement In all his work he was preoccupied with two concerns how the ideal appears in the real world and the distinction and relation of the sexes He saw in both these concerns paradoxes of opposition and affinity He dealt with these paradoxes not as subjects of philosophical speculation but as matters for artistic treatment In fact he thought that the problems of relation posed by these paradoxes were insoluble and his sole concerns was to present them vividly and dramatically     *J.R. **Spectral Characters** Sarah Balkin,2019-07-31 Theater s materiality and reliance on human actors has traditionally put it at odds with modernist principles of aesthetic autonomy and depersonalization Spectral Characters argues that modern dramatists in fact emphasized the extent to which humans are fictional made and changed by costumes settings props and spoken dialogue Examining work by Ibsen Wilde Strindberg Genet Kopit and Beckett the book takes up the apparent

deadness of characters whose selves are made of other people whose thoughts become exteriorized communication technologies and whose bodies merge with walls and furniture The ghostly vampiric and telepathic qualities of these characters Sarah Balkin argues mark a new relationship between the material and the imaginary in modern theater By considering characters whose bodies respond to language whose attempts to realize their individuality collapse into inanimacy and who sometimes don't appear at all the book posits a new genealogy of modernist drama that emphasizes its continuities with nineteenth century melodrama and realism United States Economist, and Dry Goods Reporter ,1915
