The Blackboard Jungle:

The Blackboard Jungle Evan Hunter, 2017-06-13 The shocking and suspense packed bestseller about one teacher's stand against student violence and the basis for the Academy Award nominated film The New York Times Book Review After serving his country in World War II Richard Dadier decides to become an English teacher and for the sin of wanting to make a difference he is hired at North Manual Trades High School A tough vocational school in the East Bronx Manual Trades is home to angry unruly teenagers exiled from New York City's regular public schools On his first day Dadier endures relentless mockery and ridicule and makes an enemy of the student body by rescuing a female colleague from a vicious attack His fellow educators are bitter disillusioned and too afraid of their pupils to risk turning their backs on them in the classroom But Dadier refuses to give up without a fight Over the course of the semester he tries again and again to break through the wall of hatred and scorn and win his students respect The more he learns about their difficult circumstances the more convinced he becomes that a good teacher can make a difference in their lives His idealism will be put to the ultimate test however when a long simmering power struggle with his most intimidating student explodes into a violent schoolroom showdown The basis for the blockbuster film starring Glenn Ford and Sidney Poitier Evan Hunter's *The Blackboard Jungle* is a brutal unflinching look at the dark side of American education and an early masterpiece from the author who went on to write the gritty 87th Precinct series as Ed McBain Drawn from Hunter's own experiences as a New York City schoolteacher it is a nightmarish but authentic drama that packs a knockout punch Time

Walkowitz, 2003-07-11 Polls tell us that most Americans whether they earn 20 000 or 200 000 a year think of themselves as middle class. As this phenomenon suggests, middle class is a category whose definition is not necessarily self-evident. In this book, historian Daniel Walkowitz approaches the question of what it means to be middle class from an innovative angle. Focusing on the history of social workers who daily patrol the boundaries of class, he examines the changed and contested meaning of the term over the last one hundred years. Walkowitz uses the study of social workers to explore the interplay of race, ethnicity, and gender with class. He examines the trade union movement within the mostly female field of social work and looks at how a paradigmatic conflict between blacks and Jews in New York City during the 1960s shaped late twentieth-century social policy concerning work opportunity and entitlements. In all, this is a story about the ways race and gender divisions in American society have underlain the confusion about the identity and role of the middle class.

Tales Out of School Jo Keroes, 1999 Jo Keroes's scope is wide; she examines the teacher as represented in fiction and film in works ranging from the twelfth-century letters of Abelard and Heloise to contemporary films such as *Dangerous Minds* and *Educating Rita*. And from the twelfth through the twentieth century, Keroes shows the teaching encounter is essentially erotic. Tracing the roots of eros from cultural as well as psychological perspectives, Keroes defines erotic in terms broader than the merely sexual. She analyzes ways in which teachers serve as convenient figures on whom to map conflicts about gender, power, and desire. To show how portrayals of men and women differ, she examines pairs of texts using a film or a novel with a woman protagonist. Up the Down Staircase, for example, as counterpoint to one featuring a male teacher, *Blackboard Jungle* or *The Prime of Miss Jean Brodie* balanced against *Dead Poets Society*. The portrayals of teachers like all images a culture presents of itself reveal much about our private and social selves. Keroes points out authentic accounts of authoritative women teachers who are admired and respected by colleagues and students alike. Real teachers differ from the stereotypes we see in fiction and film; however, male teachers are often portrayed as heroes in film and fallibly human in fiction, whereas women in either genre are likely to be monstrous or muddled and are virtually never women of color. Among other things, Keroes demonstrates the tension between reality and representation reveals society's ambivalence about power in the hands of women.

Coming of Age in Popular Culture Donald C. Miller, 2018-10-25 Documenting the evolution of teens and media from the 1950s through 2010, this book examines the films, books, television shows, and musical artists that impacted American culture and shaped the coming-of-age experience for each generation. The teenage years are fraught with drama and emotional ups and downs, coinciding with bewildering new social situations and sexual tension. For these reasons, pop culture and media have repeatedly created entertainment that depicts, celebrates, or lampoons coming-of-age experiences through sitcoms like *The Wonder Years* to the brat pack films of the 1980s to the teen-centered television series of today. *Coming of Age in Popular Culture: Teenagers, Adolescence, and the Art of Growing Up* covers a breadth of media presentations of the transition from childhood to adulthood from the 1950s to the year 2010. It explores the ways that adolescence is

characterized in pop culture by drawing on these representations shows how powerful media and entertainment are in establishing societal norms and considers how American society views and values adolescence Topics addressed include race relations gender roles religion and sexual identity Young adult readers will come away with a heightened sense of media literacy through the examination of a topic that inherently interests them *Freedom Is, Freedom Ain't* Scott

Saul,2009-06-30 In the long decade between the mid fifties and the late sixties jazz was changing more than its sound The age of Max Roach's Freedom Now Suite John Coltrane's A Love Supreme and Charles Mingus's The Black Saint and the Sinner Lady was a time when jazz became both newly militant and newly seductive its example powerfully shaping the social dramas of the Civil Rights movement the Black Power movement and the counterculture Freedom Is Freedom Ain't is the first book to tell the broader story of this period in jazz and American history **Cinema under National Reconstruction**

Hye Seung Chung,2024-11-15 Cinema under National Reconstruction calls for a revisionist understanding of state film censorship during successive Cold War military regimes in South Korea 1961 1988 Drawing upon primary documents from the Korean Film Archive's digitized database and framing South Korean film censorship from a transnational perspective Hye Seung Chung makes the case that while political oppression repression existed inside and outside the film industry during this period film censorship was not simply a tool for authoritarian dictatorship Through such case studies as Yu Hyun mok's The Stray Bullet 1961 Ha Kil jong's The March of the Fools 1975 and Yi Chang ho's Declaration of Fools 1983 the author defines censorship as a dialogical process of cultural negotiations wherein the state the film industry and the public fight out a battle over the definitions and functions of national cinema In the context of Cold War Korea one cannot fully understand or construct film history without reassessing censorship as a productive feedback system where both state regulators and filmmakers played active roles in shaping the new narrative or sentiment of the nation on the big screen
