The Blackwell Guide To Recorded Jazz:

The Blackwell Guide to Recorded Jazz Barry Dean Kernfeld, 1995 *A Blues Bibliography* Robert Ford, 2008-03-31 *A Blues Bibliography* Second Edition is a revised and enlarged version of the definitive blues bibliography first published in 1999. Material previously omitted from the first edition has now been included and the bibliography has been expanded to include works published since then. In addition to biographical references, this work includes entries on the history and background of the blues, instruments, record labels, reference sources, regional variations, and lyric transcriptions and musical analysis. *The Blues Bibliography* is an invaluable guide to the enthusiastic market among libraries specializing in music and African American culture and among individual blues scholars.

The Harvard Guide to African-American History

Evelyn Brooks Higginbotham, 2001. This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America.

A Guide to Popular Music Reference Books Gary Haggerty, 1995-09-30. A guide to locating information on popular music and the people who create it. This volume is designed as a desk reference to locate answers to specific questions and to direct library users to key resources. More than 400 comprehensive titles are carefully annotated describing content, scope, and special features. The focus is on the musical styles that have developed measurable commercial success through recordings and live performance. Along with academic titles, many important titles from the popular press are included as well as selected electronic resources. A necessary reference tool for any library scholar, student, and popular music buff. The work covers bibliographies, indexes, discographies, dictionaries, and encyclopedias; biographical resources; directories; almanacs; yearbooks; and guidebooks on styles that include jazz, swing, Tin Pan Alley, country, gospel, blues, rhythm and blues, soul, rockabilly, rock, heavy metal, musical theater, and film music. Its extensive appendices feature discographies and bibliographies of individual artists and ensembles. A detailed index combining authors, titles, and subjects makes cross referencing easy. The entries are modeled after the immensely useful *The Guide to Reference Books*.

Jazz Books in the 1990s Janice Leslie Hochstat Greenberg, 2010-03-18. *Jazz Books in the 1990s: An Annotated Bibliography* contains over 700 entries covering adult non-fiction books on jazz published from 1990 through 1999. International in scope, the books included range from such places as Finland, Slovakia, Australia, Japan, India, and South Africa, as well as Canada, the United Kingdom, and the United States. Entries are organized by category, including biographies, history, individual instruments, essays, and criticism; musicology; regional studies; discographies; and reference works. Greenberg has amassed an impressive collection of entries, with each entry including the author, title, publisher, year, and number of pages, and also indicating when a book contains a bibliography, discography, footnotes, musical transcriptions, illustrations, photographs, or any other additional material. The discography entries also note whether books contain unissued material or reissues. Three indexes by title, author, and subject make this a valuable and comprehensive reference guide for researchers, students, and

jazz aficionados alike Jazz Makers Alyn Shipton, 2002-02-21 Jazz Makers gathers together short biographies of more than 50 of jazz's greatest stars from its early beginnings to the present. The stories of these innovative instrumentalists, bandleaders and composers reveal the fascinating history of jazz in six parts: The Pioneers including Scott Joplin, Louis Armstrong and Bessie Smith; Swing Bands and Soloists with Duke Ellington, Ella Fitzgerald and Billie Holiday; The Piano Giants featuring Fats Waller, Art Tatum and Mary Lou Williams; Birth of Bebop including Dizzy Gillespie, Charlie Parker and Miles Davis; Cool Jazz, Hard Bop and Fusion with John Coltrane, Sonny Rollins and Stan Getz; A Century of Jazz featuring Wynton Marsalis, Joshua Redman and other contemporary greats. *Music Library and Research Skills* Jane Gottlieb, 2017 Concise and engaging, this text covers a wide range of reference sources for research in all genres of music. Through this practical introduction to the key concepts of music research, students will develop a firm understanding of the tools used to gather data, including what types of sources exist, how they are arranged, and how they may best be used to do research.

The Popular Music Teaching Handbook B. Lee Cooper, Rebecca A. Condon, 2004-04-30 The function of print resources as instructional guides and descriptors of popular music pedagogy are addressed in this concise volume. Increasingly, public school teachers and college-level faculty members are introducing and utilizing music-related educational approaches in their classrooms. This book lists reports dealing with popular music resources as classroom teaching materials and will stimulate further thought among students and teachers. It focuses on the growing spectrum of published scholarship available to instructors in specific teaching fields: art, geography, social studies, urban studies, and so on, as well as on the multitude of general resources including biographical directories and encyclopedias of artist profiles. Building on two recent publications, *Teaching with Popular Music Resources: A Bibliography of Interdisciplinary Instructional Approaches* (Popular Music and Society XXII no. 2, Summer 1998) and *American Culture Interpreted through Popular Music: Interdisciplinary Teaching Approaches* (Bowling Green State University Popular Press, 2000), this volume focuses on the growing spectrum of published scholarship that is available to instructors in specific teaching fields: art, geography, social studies, urban studies, and so on, as well as on the multitude of general resources including biographical directories and encyclopedias of artist profiles.

Jazzwomen Wayne Enstice, Janis Stockhouse, 2004 Personal interviews with women jazz artists including Marian McPartland, Abbey Lincoln, Cassandra Wilson, and Diana Krall. Between 1995 and 2000, Wayne Enstice and Janis Stockhouse interviewed dozens of women jazz instrumentalists and vocalists. *Jazzwomen* collects 21 of the most fascinating interviews.

Jazz Eddie S. Meadows, 2013-10-23 *Jazz Research and Pedagogy* is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new

comprehensive and annotated reference book on jazz is apparent Multiply indexed this book will serve as an excellent tool for librarians researchers and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade The Virgin Encyclopedia of Jazz Colin Larkin,2004 From boogie woogie to bebop and beyond the sounds and rhythms of Jazz is mercurial always creative seldom static frequently cultish and often contentious The latest edition of The Virgin Encyclopedia of Jazz is the essential companion to making an acquaintance with Jazz It will inform you and it will not talk down to you There are over 3 500 entries detailing every artist who has had an impact on the development of jazz since it headed out from New Orleans and spread to New York London Paris Montreux Munich and way beyond Here are all the legends whose genius is evoked in a single name Ella Duke Satchimo Bird Miles Trane the Hawk Monk and Diz together with all the younger talent Brad mehidaui jacky terrasson Nicholas Payton and the youngest phenomenon of them all Norah Jones They line up with modern day giants of the genre such as John Schofield Dave Holland Joe Lovano and Keith Jarrett All entries have a detailed album chronology together with a five star rating system The text is non pompous non judgemental yet friendly and constructive All the text has been taken from the gigantic database of The Encyclopedia of Popular Music first published in 1992 the EPM and its spin off series swiftly and firmly established itself as the undisputed champion of all contemporary music reference books *Jazz in New Orleans* Charles Suhor,2001-04-11 Jazz in New Orleans provides accurate information about and an insightful interpretation of jazz in New Orleans from the end of World War II through 1970 Suhor relying on his experiences as a listener a working jazz drummer and writer in New Orleans during this period has done a great service to lovers of New Orleans music by filling in some gaping holes in postwar jazz history and cutting through many of the myths and misconceptions that have taken hold over the years Skillfully combining his personal experiences and historical research the author writes with both authority and immediacy The text rich in previously unpublished anecdotes and New Orleans lore is divided into three sections each with an overview essay followed by pertinent articles Suhor wrote for national and local journals including Down Beat and New Orleans Magazine Section One Jazz and the Establishment focuses on cultural and institutional settings in which jazz was first battered then nurtured It deals with the reluctance of power brokers and the custodians of culture in New Orleans to accept jazz as art until the music proved itself elsewhere and was easily recognizable as a marketable commodity Section Two Traditional and Dixieland Jazz highlights the music and the musicians who were central to early jazz styles in New Orleans between 1947 and 1953 Section Three An Invisible Generation will help dispel the stubborn myth that almost no one was playing be bop or other modern jazz styles in New Orleans before the current generation of young artists appeared in the 1980s *Music in the 20th Century (3 Vol Set)* Dave DiMartino,2016-04-15 This is an examination of the crucial formative period of Chinese attitudes toward nuclear weapons the immediate post Hiroshima Nagasaki period and the Korean War It also provides an account of US actions and attitudes during this period and China s response *Subject Guide to Books in Print* ,1996 **Jeru's Journey**
