The Bloodthirsty Laewomba Myth And History In Papua New Guinea:

The Bloodthirsty Laewomba? Peter G. Sack, 1976 *Numbami Grammar in Ethnohistorical Context* Joel Bradshaw, 2025-05-31

The Numbami language is a small isolate tied to only one coastal village within the Huon Gulf family of Austronesian languages in Papua New Guinea. It is currently classified as threatened with roughly two hundred active speakers according to its latest Ethnologue listing. *Numbami Grammar in Ethnohistorical Context* is the first comprehensive description of the language and its ethnolinguistic relations to neighboring languages both Austronesian and Papuan. Language contact has had significant effects on all the Oceanic languages of New Guinea. This description therefore offers more ethnohistorical coverage than most reference grammars do, documenting such factors as oral history sources, evidence of multilingual villages in past and present, and frequent movement and prolonged contact among the coastal languages. It also notes the recent strong influence of Jab in the German Lutheran mission lingua franca Tok Pisin, the national lingua franca, and English. Linguistic coverage focuses especially on verbs, subject mood marking, verb serialization, deverbal resultatives, prepositions, and complementizers, and the highly productive compositional semantics of two small sets of ubiquitous core verbs. The members of one set function as polysemous light verbs, while the members of the other set play complementary roles in multiverb path constructions. Numbami serial verb constructions (SVCs) include switch subject as well as same subject relationships between verbs. The subjects of some adverbial serial verbs appear to be the events described by the earlier verbs in the SVC. Although Numbami appears to be phonologically conservative, it has shed most of its inherited Oceanic morphology. Possessive suffixes exist only on a few kinship terms; there is only one set of genitive pronouns, and there are no morphological means of deriving verbs from nouns or nouns from verbs. Light verbs and resultatives work to expand the inventory of verbal expressions, and postposed attributive genitives help expand the inventory of nominal expressions. Relative clauses are postposed and marked at both ends, as in most of the neighboring Oceanic languages. One chapter notes discourse phenomena, including topic marking, tail head linkage, and a tabular analysis of the roles of overt vs. null subjects in narrative texts. Those texts are reproduced with interlinear glosses and translations in the appendices.

Wampar-English Dictionary Hans Fischer, Bettina Beer, 2021-12-09

This ethnographic dictionary is the result of Hans Fischer's long-term fieldwork among the Wampar, who occupy the middle Markham Valley in Morobe Province, Papua New Guinea (PNG). Their language, Dzob Wampar, belongs to the Markham family of the Austronesian languages. Today, most Wampar speak not only Wampar but also PNG's lingua franca, Tok Pisin. Six decades of Wampar research has documented the extent and speed of change in the region. Today, mining, migration, and the commodification of land are accelerating the pace of change in Wampar communities, resulting in great individual differences in knowledge of the vernacular. This dictionary covers largely forgotten Wampar expressions as well as loanwords from German and Jab in that have become part of everyday language. Most entries contain example sentences from original Wampar texts. The dictionary is complemented by an overview of ethnographic

research among Wampar a sketch of Wampar grammar a bibliography and an English to Wampar finder list Religions of Melanesia Garry Trompf, 2006-09-30 Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth. The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways. As the first bibliographical survey to comprehensively cover the entire region, *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field. Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources. This survey covers 2188 entries organized topically and regionally. Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root. Regional coverage includes Irian Jaya, Papua New Guinea, Solomon Islands, Vanuatu, New Caledonia, and Fiji. *Ink and Land* Willem Church, 2025-08-14 *Ink and Land* is an ethnographic account of political and legal struggles over landownership in Papua New Guinea in which competing factions seek recognition as customary landowners of Wafi Golpu, a major prospective copper-gold mine. Drawing on extensive archival research, oral histories, court documents, and fifteen months of fieldwork, the book examines how different groups attempt to harness resource extraction for their benefit and how, in doing so, they reshape their social worlds through the medium of affidavits, court declarations, and incorporation certificates. To analyse this process, the book advances the concept of antagonistic documentality, a form of conflict in which parties engage in conflicting world-building projects through and about documents and, in doing so, create an order of paper that outlasts the disputes themselves. Through this detailed case study, *Ink and Land* reveals how legal and bureaucratic battles over resource extraction in Papua New Guinea formalise factionalism, consolidate elite control over new sources of wealth, and redefine the nature of groups and landownership. By focusing on conflict over documents as a process of social transformation, the book offers fresh insights into the politics of land, law, and resource extraction in the contemporary Pacific. **Historical Dictionary of Papua New Guinea** Ann Turner, 2001 Turner, who has taught history at both the University of Melbourne and the University of Papua New Guinea, provides a basic starting point for those researching both the history and modern culture and life of Papua New Guinea. This dictionary offers brief alphabetical entries on topics including the arts, such as Lapita pottery; international policies, such as relations with Australia; political personalities, including Mekere Morauta; economist and politician; languages, there are three official languages and 750 local dialects; and economic and social topics like agriculture and whaling. The 60-page bibliography displays a selection of resources organized topically, including history, culture, and economy. c. Book News Inc. Papua New Guinea Fraiser McConnell, 1988 *Payback* G. W. Trompf, 1994-07-14 In this ambitious study, the first monograph on religion and the logic of retribution, Professor Trompf shows how various aspects of payback, both negative and positive, provide the best indices to an understanding of Melanesian views of life. The book explores the reasons why people pay back and opens up a whole new dimension in the cross-cultural study of human

consciousness The author conducts his readers through the most complex anthropological pageant on earth illustrating his arguments from western New Guinea to Fiji A New Guinea Bibliography ,1984 *The Journal of the Polynesian Society* Polynesian Society (N.Z.),1976 Vols for 1892 1941 contain the transactions and proceedings of the society *An American Anthropologist in Melanesia: Field diaries* Albert Buell Lewis,1998 Anthropologist Albert Buell Lewis spent four years travelling through the former colonies of Melanesia The field diaries that he maintained during this period reveal the story of how Lewis overcame extraordinary difficulties to assemble the collection of artifacts now preserved in Chicago s Field Museum **How Long Have People Been in the Ok Tedi Impact Region?** Pamela Swadling,1983 *Queensland Institute of Technology Law Journal* ,1985 South Pacific Bibliography ,1991 Materials on Languages in Danger of Disappearing in the Asia-Pacific Region Stephen Adolphe Wurm,1997 *An American Anthropologist in Melanesia: Appendixes* Albert Buell Lewis,1998 Archaeology, Language, and History John Terrell,2001-02-28 Ever since Darwin the world has been struggling with the mystery of human diversity As the historian Peter Bowler has written an evolutionary interpretation of the history of life on the earth must inevitably extend itself to include the origins of the human race But this has proved to be a difficult and controversial task Understanding human origins means accounting not only for the obvious differences between people and cultures around the world but also for the unity of Homo sapiens as a single biological species As Stephen Jay Gould has said flexibility is the hallmark of human evolution Because so much of who we are is learned rather than genetically predetermined a satisfactory understanding of human evolution to use old parlance must account both for the human body and the human soul At any single moment of time it is always possible to find instances where people seem to live in their own world speak in their own distinctive ways and have their own exclusive cultural traits and practices Over the course of time however it is not so easy to find places where these dimensions of our diversity stay together The essays in this collection show why we must stop thinking that race language and culture go together and why we should be wary of the commonsense beliefs that human races exist and that people who speak different languages come from fundamentally different biological lineages New Caledonia Or Kanaky?
