The Bloomsbury Artists Tony Bradshaw, 1999 **The Bloomsbury Artists** Bloomsbury Workshop (London, England), 1999 **Modernism's Print Cultures** Faye Hammill, Mark Hussey, 2016-08-25 The print culture of the early twentieth century has become a major area of interest in contemporary Modernist Studies Modernism's Print Cultures surveys the explosion of scholarship in this field and provides an incisive well informed guide for students and scholars alike Surveying the key critical work of recent decades the book explores such topics as Periodical publishing from little magazines such as Rhythm to glossy publications such as Vanity Fair The material aspects of early twentieth century publishing small presses typography illustration and book design The circulation of modernist print artefacts through the book trade libraries book clubs and cafes Educational and political print initiatives Including accounts of archival material available online targeted lists of key further reading and a survey of new trends in the field this is an essential guide to an important area in the study of modernist literature **London's Women Artists, 1900-1914** Mengting Yu, 2020-09-16 Drawing on untapped archives as well as aggregating a wide range of existing published sources this book recalibrates the understanding of women artists roles outputs and receptions in London during what was indubitably a vibrant and innovative period in the history of British art and in which the work of their male contemporaries is so well understood The book takes its starting point from Alicia Foster's article Gwen John's Self Portrait Art Identity and Women Students at the Slade School published in 2000 where the expression a talented and decorative group was coined to describe common attitudes towards women artists in the late 19th and early 20th century London This pejorative attribution strongly implied a status less significant to that of their male counterparts The author challenges this statement's basic tenet by casting a wide net in examining women's art education from the Slade School of Fine Art through to the role of its graduates within a selection of London's exhibition groups societies and publications This book also reconstructs from scratch the role of the Women's International Art Club WIAC hitherto entirely overlooked in art historical studies of the era This book will be of interest to students and researchers in art and cultural history gender studies and in sociological studies of pre War World War Britain **Stitching the Self** Johanna Amos, Lisa Binkley, 2020-01-09 The needle arts are traditionally associated with the decorative domestic and feminine Stitching the Self sets out to expand this narrow view demonstrating how needlework has

emerged as an art form through which both objects and identities social political and often non conformist are crafted Bringing together the work of ten art and craft historians this illustrated collection focuses on the interplay between craft and artistry amateurism and professionalism and re evaluates ideas of gendered production between 1850 and the present From quilting in settler Canada to the embroidery of suffragist banners and the needlework of the Bloomsbury Group it reveals how needlework is a transformative process one which is used to express political ideas forge professional relationships and document shifting identities With a range of methodological approaches including object based feminist and historical analyses *Stitching the Self* examines individual and communal involvement in a range of textile practices Exploring how stitching shapes both self and world the book recognizes the needle as a powerful tool in the fight for self expression

Virginia Woolf, Literary Materiality, and Feminist Aesthetics Amber Jenkins, 2023-09-01 This book interrogates the relationship between the material conditions of Woolf's writing practices and her work as a printer and publisher at the Hogarth Press In bringing to light her embodied literary processes from drafting and composition to hand printing and binding this study foregrounds the interactions between Woolf's modernist experimentation and the visual and material aspects of her printed works By drawing on the field of print culture as well as the materialist turn in Woolf scholarship it explores how her experience in print book design and publishing underlines her experimental writing and how her literary texts are conditioned by the context of their production This book therefore provides new ways of reading Woolf's modernism in the context of twentieth century print material and visual cultures By suggesting that Woolf's work at the Hogarth Press sensitized her to the significant role the visual aspects of a text play in its system of representation it also considers the extent to which materiality informs both her work as well as her engagement with Bloomsbury formalist
