The Blue For Grassroots Politics

**Dario Moreno, Eduardo
Gamarra, Patrick Murphy, David Jolly**

The Blue For Grassroots Politics:

The Blue Book for Grassroots Politics Charles R. Phillips, 1990 The Oxford Handbook of Religion and American Politics Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene **T&T Clark Handbook of Political Theology** Rubén Rosario

Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars

America's Battle for Media Democracy Victor Pickard, 2015 Drawing from extensive archival research the book uncovers the American media system's historical roots and normative foundations It charts the rise and fall of a forgotten media reform movement to recover alternatives and paths not taken **The Politics of Globality since 1945** Rens van Munster, Casper Sylvest, 2016-05-12 This timely comprehensive and interdisciplinary volume advances an original argument about the complex roots and multiple politics of globality It shows that technological innovations and decisive developments since 1945 from the nuclear revolution to anthropogenic climate change and debates about the Anthropocene have prompted reflections on the global condition of humanity and helped reshape political communities by making the world appear small manageable and interconnected The contributors stress how human beings have transformed both their habitat and their view of human earth relations since 1945 Such changes have been accompanied by important shifts in political visions prompted new forms of human association encouraged legal and institutional reform and spurred ideas about ecological humility At the same time the spatially all encompassing nature of globality have also informed projects of human mastery and a range of practices historically associated with militarization and a strongly statist conception of national security This volume reflects on these paradoxical relationships their history and contemporary relevance Contributing to the overlapping concerns of four burgeoning fields of study across the humanities and the social sciences globality and globalization studies geopolitics and political geography Anthropocene studies global governance and political theory the book will be of great use

to scholars and graduates working in these areas Biblical Counsel ,1993 Upending American Politics Theda Skocpol, Caroline Tervo, 2020 The election of Barack Obama in 2008 was startling as was the victory of Donald Trump eight years later Because both presidents were unusual and gained office backed by Congresses controlled by their own parties their elections kick started massive counter movements The Tea Party starting in 2009 and the Resistance after November 2016 transformed America's political landscape Upending American Politics offers a fresh perspective on these recent upheavals tracking the emergence and spread of local voluntary citizens groups the activities of elite advocacy organizations and consortia of wealthy donors and the impact of popular and elite efforts on the two major political parties and candidate led political campaigns Going well beyond national surveys Theda Skocpol Caroline Tervo and their contributors use organizational documents interviews and local visits to probe changing organizational configurations at the national level and in swing states This volume analyzes conservative politics in the first section and progressive responses in the second to provide a clear overview of U S politics as a whole By highlighting evidence from the state level it also reveals the interplay of local and national trends *Man is the Cruellest Animal* Lyle Munro, 2021-04-28 *Man is the Cruellest Animal* features four main themes and essays on the human animal link History Cruelty Activism and Perspectives Each theme is comprised of four peer reviewed essays In History the centuries old animal protection societies that preceded the modern animal rights movement of the 1970s are described Cruelty highlights what drives animal activist campaigns especially practices involving the abuse of animals in food production research entertainment and hunting Activism analyses the strategies persuasion protest non cooperation and interference and the associated tactics of animal activists in the USA the UK and Australia Perspectives identifies some of the conflicts involving counter movements against the theory and practice of animal rights and the prospect of achieving common cause in resolving the worst features of human animal interactions The concluding section of the book is in two parts Part 1 focuses on Pandemics and Life Chances a topic that is of obvious relevance in the current era while Part 2 features an annotated guide to recommended reading on the four main themes covered in the book

Safire's Political Dictionary William Safire, 2008 Featuring more than one thousand new rewritten and updated entries this reference on American politics explains current terms in politics economics and diplomacy **Politics and Society in Ancient Greece** Nicholas F. Jones, 2008-02-28 Western democracies often trace their political roots back to Ancient Greece While politics today may seem the dusty domain of lawmakers and pundits in the classical era virtually no aspect of life was beyond its reach Political life was not limited to acts of a legislature magistrates and the courts but routinely included the activities of social clubs the patronage system and expression through literature art and architecture Through these varied means even non enfranchised groups such as women and non citizens gained entry into a wider democratic process Beyond the citizen world of traditional politics there existed multiple layers of Greek political life reflecting many aspects of our own modern political landscape Religious cults served as venues for female office holders private clubs and drinking parties

served significant social functions Popular athletes capitalized on their fame to run for elected office Military veterans struggled to bring back the good old days much to the dismay of the forward thinking ambitions of naive twenty somethings Liberals and conservatives of all classes battled over important issues of the day Scandal and intrigue made or ended many a political career Taken collectively these aspects of political life serve as a lens for viewing the whole of Greek civilization in some of its characteristic and distinctive dimensions

Environmental Politics and Policy Walter A. Rosenbaum, 2016-08-01 Walter A Rosenbaum s classic *Environmental Politics and Policy* Tenth Edition once again provides definitive coverage of environmental politics and policy lively case material and a balanced assessment of current environmental issues The first half of the book sets needed context and describes the policy process while the second half covers specific environmental issues such as air and water toxic and hazardous substances energy and a global policymaking chapter focused on climate change and transboundary politics Covering major environmental policy initiatives and controversies during President Obama s two terms and capturing the sudden and radical changes occurring in the American energy economy this Tenth Edition offers the needed currency and relevancy for any environmental politics course

Rebel Imaginaries Elizabeth E. Sine, 2020-11-23 During the Great Depression California became a wellspring for some of the era s most inventive and imaginative political movements In response to the global catastrophe the multiracial laboring populations who formed the basis of California s economy gave rise to an oppositional culture that challenged the modes of racialism nationalism and rationalism that had guided modernization during preceding decades In *Rebel Imaginaries* Elizabeth E Sine tells the story of that oppositional culture s emergence revealing how aggrieved Californians asserted political visions that embraced difference fostered a sense of shared vulnerability and underscored the interconnectedness and interdependence of global struggles for human dignity From the Imperial Valley s agricultural fields to Hollywood seemingly disparate communities of African American Native American Mexican Filipinx Asian and White working class people were linked by their myriad struggles against Depression era capitalism and patterns of inequality and marginalization In tracing the diverse coalition of those involved in labor strikes citizenship and immigration reform and articulating and imagining freedom through artistic practice Sine demonstrates that the era s social movements were far more heterogeneous multivalent and contested than previously understood

Development Without Freedom Songok Han Thornton, William H. Thornton, 2008 Case study rich this volume provides an interesting look at Asian politics and Asian globalization based on the insights of Amartya Sen giving particular focus to Korea the Philippines Indonesia Thailand China and India and the ways in which Senism has affected each of them

Behind the Backlash Kenneth D. Durr, 2003-11-20 In this nuanced look at white working class life and politics in twentieth century America Kenneth Durr takes readers into the neighborhoods workplaces and community institutions of blue collar Baltimore in the decades after World War II Challenging notions that the white backlash of the 1960s and 1970s was driven by increasing race resentment Durr details the rise of a working class populism shaped by

mistrust of the means and ends of postwar liberalism in the face of urban decline Exploring the effects of desegregation deindustrialization recession and the rise of urban crime Durr shows how legitimate economic social and political grievances convinced white working class Baltimoreans that they were threatened more by the actions of liberal policymakers than by the incursions of urban blacks While acknowledging the parochialism and racial exclusivity of white working class life Durr adopts an empathetic view of workers and their institutions Behind the Backlash melds ethnic labor and political history to paint a rich portrait of urban life and the sweeping social and economic changes that reshaped America's cities and politics in the late twentieth century Asian Leadership in Policy and Governance Evan Berman,M. Shamsul Haque,2015-09-03

Asian Leadership in Policy and Governance examines contemporary challenges facing public leaders in Asia providing insight into leadership processes and contexts past practices affecting effective governance and policy leadership The C-SPAN Archives Robert X. Browning,2014 This essential guidebook for scholars interested in using C-SPAN visual materials in their research and teaching provides an introduction to the online video library case studies of interesting current uses and ideas for future application **A Divided Union** Dario Moreno,Eduardo Gamarra,Patrick Murphy,David Jolly,2020-10-26 A Divided Union delves deep into ten pressing political challenges that former US Representatives Patrick Murphy D and David Jolly R have identified over their multiple terms in Congress and that continue to plague the American electorate today In an introduction describing their unique paths to Congress Murphy and Jolly focus in detail on key institutional barriers they faced in Washington in attempting to do the job voters elected them to do They introduce us to geographic challenges demographic change a polarized media gerrymandering the role of money in politics the structure of primary elections and several other aspects of political life on Capitol Hill The core of the book is original analysis by experts who tackle these topics in a manner relevant to both the seasoned political science student as well as the general reader From the commercials we see on TV to the city council districts in which we live these concerns shape every facet of our public lives and are distilled here in a careful synthesis of years of experience and research Contributors include former federal elected officials political science professors members of the press and scholars immersed in their fields of study While other textbooks may examine similar issues few have been edited by former members of the U S House who have walked the halls of Congress and directly experienced political dysfunction at so many levels and are willing to address it A Divided Union is appropriate for all political science students as well as the general public frustrated and alarmed by political gridlock

Shortening the Distance between Government and Public in China I Liu Xiaoyan,2020-12-15 Distance in its traditional sense connotes estrangement and division But in the context of modern political studies it means a controllable resource that can be manipulated to change the relationship between the government and the public Drawing on this concept from Western political science the author explores the law and mechanisms of China's political communication In this volume the author introduces a creative theoretical framework of distance which is a dynamic system comprised of physical and

psychological distance ideal distance and real distance and natural distance and consequent distance Psychological distance is the core because it signifies not only whether there is trust between a government and the public but also whether the political community can maintain a high degree of harmony stability unity and vitality Events in the past five years in China are used as cases to illustrate the point Students and scholars who are interested in political science and political communication especially Chinese politics would find this title a useful reference

Black Politics 2.0 Gary James, 2014-07-23 Gary James explores electoral politics from the 1960s to present day providing a portal to black American contemporary politics His insightful book discusses the internal dynamic between the civil rights and black power juxtaposition Two main characters animate the narrative Spike and CadreUSA who hold an informal dialogue on black politics from their respective points of view Apart from the traditional perspectives that are contrasted in the political conversation of African Americans from Africa to the Caribbean to the American mainland the election of President Barack Obama in 2008 as the first African American president has overshadowed and colored the conversation among black Americans in particular This stunning and politically earth shattering event had an incendiary impact on the popular political imagination igniting and inspiring many questions and speculations relative to the trajectory of American politics Some of these questions speculations and perspectives are debated by the two main characters

The Reform of Governance Keping Yu, 2010-06-28 The Reform of Governance is a translated collection of articles providing a look at how scholars in China have been assessing their country's recent governmental history This volume as well as the others in the SSRC series provides Western scholars with an accessible English language look at the state of current Chinese scholarship and as such does not simply provide information for the direct study of economic issues but also for meta level analysis of the interplay of China's policy scholarship and economy Specific topics include democratic reforms electoral rules accountability and social welfare
