The Body And The Self:

The Body and the Self Jose Luis Bermudez, Naomi Eilan, Anthony Marcel, 1998-01-23 The Body and the Self brings together recent work by philosophers and psychologists on the nature of self consciousness the nature of bodily awareness and the relation between the two The central problem addressed is How is our grasp of ourselves as one object among others underpinned by the ways in which we use and represent our bodies The contributors take up such issues as how should we characterize the various distinctive ways we have of being in touch with our own bodies in sensation proprioception and action How exactly does our grip on our bodies as objects connect with our ability to perceive the external environment and with our ability to engage in various forms of social interaction Can any of these ways of representing our bodies affect a bridge between body and self

Food, the Body and the Self Deborah Lupton, 1996-04-25 In this wide ranging and thought provoking analysis of the sociocultural and personal meanings of food and eating Deborah Lupton explores the relationship between food and embodiment the emotions and subjectivity She includes discussion of the intertwining of food meaning and culture in the context of childhood and the family as well as the gendered social construction of foodstuffs food tastes dislikes and preferences the dining out experience spirituality and the civilized body She draws on diverse sources including representations of food and eating in film literature advertising gourmet magazines news reports and public health literature and her own empirical research into people's preferences memories experiences

The Body, Self-Cultivation, and Ki-Energy Yasuo Yuasa, 1993-01-01 This book is an inquiry into ki energy its role within Eastern mind body theory and its implications for our contemporary Western understanding of the body Yuasa examines the concept of ki energy as it has been used in such areas as acupuncture Buddhist and Taoist meditation and the martial arts To explain the achievement of mind body oneness in these traditions he offers an innovative schematization of the lived body His approach is interdisciplinary and cross cultural offering insights into Western philosophy religion medical science depth psychology parapsychology theater and physical education To substantiate the relationship that ki energy forms between the human body and its environment Yuasa introduces contemporary scientific research on ki energy in China and Japan as well as evidence from acupuncture medicine and from the experience of meditators and martial arts practitioners This evidence requires not only a rethinking of the living human body and of the mind body and mind matter relation but also calls into question the adequacy of the existing scientific paradigm Yuasa calls for an epistemological critique of modern science and explores the issue of the relation of teleology to science

Integrating Body Self & Psychological Self David W. Krueger, 2013-10-17 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

Body, Self, and Society Anne E. Becker, 2013-11-25 Anne E Becker examines the cultural context of the embodied self through her ethnography of bodily aesthetics food exchange care and social relationships in Fiji She contrasts the cultivation of the body self in Fijian and American society arguing that the motivation of Americans to work on their bodies shapes as a personal endeavor is

permitted by their notion that the self is individuated and autonomous On the other hand because Fijians concern themselves with the cultivation of social relationships largely expressed through nurturing and food exchange there is a vested interest in cultivating others bodies rather than one s own Body Representations, Peripersonal Space, and the Self: Humans, Animals, Robots Matej Hoffmann,Alex Pitti,Lorenzo Jamone,Eszter Somogyi,Pablo Lanillos,2020-07-22 The Taittirīya-upanishad ,1903 *Dreambody* Arnold Mindell,2011 Bridging the gaps between depth psychology somatic psychology spirituality and energy based mind body practices Dreambody is the foundational introduction to process oriented psychology by its founder Mindell an MIT physicist and Jungian analyst **The Theosophical Path** Katherine Augusta Westcott Tingley,1919 **Self and Salvation in Hinduism and Christianity** Vadakethala F. Griffin,Robert C. L. Moffat,1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers

and legal scholars by showing that many claims to radicalism are highly problematic at best **The Great Art of Government** Peter Josephson, 2002 Moving beyond previous scholarship he gives us a Locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy BOOK JACKET Vedānta Philosophy Swami Vivekananda, 1913 **Mind**, 1923 *Yoga Philosophy* Swami Vivekananda, 1896 **Self-educator for a Rising Race** Joseph R.
