The Body in the Fjord Katherine Hall Page, 1998 *The Body in the Moonlight* Katherine Hall Page, 2023-08-18 The Agatha Award winning author of *The Body in the Big Apple* dishes up scrumptious suspense as a toxic tragedy rattles a New England village Boston Herald Minister's wife Faith Fairchild is excited about catering her church's restoration campaign kickoff at historic Ballou House But when a beautiful young woman dies moments after finishing dessert Faith is suddenly in serious trouble Not only is her business in jeopardy but Aleford's wagging tongues are suggesting that Faith herself laced the goodie with cyanide having discovered her husband Tom's perhaps overly pastoral interest in the victim Faith's world feels steeped in poison and never before have her amateur sleuthing skills been more crucial especially when another body is found in the moonlight carrying an unmistakable warning you're next Intriguing clever and unexpected Pittsburgh Post Gazette Enchanting well written Page's style is entertaining and unpretentiously cultured Portland Herald **By Fell and Fjord** Elizabeth Jane Oswald, 1882 **The Westminster Review**, 1848 **Quarterly Journal of Science, and Annals of Mining, Metallurgy, Engineering, Industrial Arts, Manufactures, and Technology**, 1880 **Quarterly Journal of Science, and Annals of Mining, Metallurgy, Engineering, Industrial Arts, Manufactures, and Technology** James Samuelson, William Crookes, 1880 "The" Journal of science and annals of biology, astronomy, geology, industrial arts, manufactures, and technology, 1880 **Science in Short Chapters** William Mattieu Williams, 1882 **Saga Time** John Fulford Vicary, 1887 **The Lost Colony of the Templars** Steven Sora, 2004-10-27 Reveals the existence of a Templar colony in the New World and how the explorer Verrazano also a member of a secret society attempted to reestablish contact with it Explores Columbus's connection to Henry Sinclair's maps of the New World Examines the secret alliance of Catholic Sulpicians and French Huguenots to preserve the Templar legacy Reveals the hidden knowledge preserved in the Templar baptisteries found throughout Europe and in Newport Rhode Island In 1524 the Italian explorer Giovanni da Verrazano was sent by the French king Francis I on an expedition ostensibly to find a shorter route to China However his true mission

Steven Sora suggests was to contact a Templar colony that might have been established in Newport Rhode Island by Henry Sinclair at the end of the 14th century In his expedition log Verrazano recorded that his only stay on this journey was at Newport Harbor the site of a tower built to the exact measurements of a Templar baptistery a sacred sanctuary representing baptism and eternal life This tower is a remnant of Sinclair s voyage to America nearly a century before that of Columbus who had access to Sinclair s maps thanks to his wife who was Sinclair s great granddaughter While Verrazano s mission succeeded in finding the tower the colony itself eluded him His backers then decided to resurrect the dream of Acadia a place where they could aspire to higher knowledge without fear of Church or state by creating a new Secret Society that included Huguenots and Catholic Sulpicians This Company of the Holy Sacrament would lay the foundations for Montreal in an attempt to realize the ambitions of Sinclair and his Templar companions as well as to stave off efforts by the Jesuits to transform Quebec into a fiefdom of the orthodox Church Quebec s motto *Je me souviens* I remember is a reference to this secret history

[Body and Image](#) Christopher Tilley,2016-09-16 The understanding and interpretation of ancient architecture landscapes and art has always been viewed through an iconographic lens a cognitive process based on traditional practices in art history But ancient people did not ascribe their visions on canvas rather on hills stones and fields Thus Chris Tilley argues the iconographic approach falls short of understanding how ancient people interacted with their imagery A kinaesthetic approach one that uses the full body and all the senses can better approximate the meaning that these artifacts had for their makers and today s viewers The body intersects the landscape in a myriad of ways through the effort to reach the image the angles that one can use to view the multiple senses required for interaction Tilley outlines the choreographic basis of understanding ancient landscapes and art phenomenologically and demonstrates the power of his thesis through examples of rock art and megalithic architecture in Norway Ireland and Sweden This is a powerful new model from one of the leading contemporary theorists in archaeology

The Weather in the Icelandic Sagas Bernadine McCreesh,2019-01-15 The descriptions of the weather in medieval Icelandic sagas have long been considered unimportant mere adjuncts to the action This is not true the way the weather is depicted can give us an insight into the minds of medieval Icelanders The first part of this book illustrates how the Christian world view of authors of the twelfth to fourteenth centuries influenced their descriptions of meteorological conditions in

earlier times The second part is more literary in approach It points out the formulaic nature of descriptions of storms and shows how references to the weather help to structure the narrative in some sagas It also demonstrates how medieval Icelandic attitudes to the weather affect the portrayal of the hero **Fjord Systems and Archives** John Allen Howe,2010
