Redl,2016-09-15 Carolyn D Redl s memoir of growing up on a northern Saskatchewan farm in the 1940s and 50s captures in the vivid memories of one girl a way of life that is a vital part of Canada s social history But it is much more than a recollection of rural life A Canadian Childhood is above all a beautifully realized coming of age story the story of a girl with an adventurous and restless spirit in an era when women s roles were just starting to become less restricted Alongside the colourful details of everyday life skiing to school collecting magpie eggs for bounty going swimming in a frigid snow melt pond are the struggles she experiences as she tries to find her place in the world Raised in a warm and loving family she is nevertheless painfully aware that her father longs for a boy to help work the farm Going to the one room farm school becomes an ordeal with the constant threat of bullying The welcome move to town for high school is coupled with the humiliation of having to live in a garage Through it all the question of her future looms as she confronts the lure of the horizon Richly detailed and deftly told A Canadian Childhood will be enjoyed not just as a fascinating snapshot of history but as a moving honest and courageous life story Supreme Court ,1914 **Books Related to Compensatory Education** ,1969 *Teaching Conflict Resolution Through Children's Literature* William J. Camp Hero Cameron Elliott,2014-06-11 In a time of war morality is overcome by the unthinkable The unthinkable justified by fear and circumstances beyond our control From uncontrollable circumstances emerges a new world of terror To fight this terror we sacrifice our morality further and go beyond the unthinkable The remnants of this vicious cycle turn with a momentum all their own and live on long after the treaties are signed This is the fuel that sustains us between conflicts This is the catalyst that ignites our creativity and spawns new technologies of war We are united through common enemies even though our greatest enemy is our own fear For David Andrews his peaceful existence collided with the reverberations of a war written into history books decades earlier As the reality of these uncontrollable events swamp over him he comes face to face with the unthinkable The cyclone of a war that will not die will test his fear of the unknown by redefining everything he knew to be true and replacing it with an alternate universe An alternate set of events sent into motion the day of his birth A universe created by the cold war in a long forgotten US military base called Camp Hero Camp Hero State Park is located on the south fork of Long Island just west of the Montauk Point Lighthouse The Montauk Point Lighthouse was commissioned by General George Washington in 1792 during the Revolutionary War In 1929 during WWI the US Army established Fort Hero named after Major General Andrew Hero Jr who was the Army s Chief of Coastal Artillery In 1942 during WWII the US Army upgraded the defenses of Fort Hero to deal with the growing threat of German invasion and Camp Hero was born Camp Hero was eventually turned over to the Air Force in 1950 to become part of the National Air Defense system Finally in 1984 the land was turned over to the New York State Department of Parks Conspiracy theorists believe the base is still operational today and the science being developed is out of this world

The Last Landscape

William H. Whyte,2012-10-23 The remaining corner of an old farm unclaimed by developers The brook squeezed between housing plans Abandoned railroad lines The stand of woods along an expanded highway These are the outposts of what was once a larger pattern of forests and farms the last landscape According to William H Whyte the place to work out the problems of our metropolitan areas is within those areas not outside them The age of unchecked expansion without consequence is over but where there is waste and neglect there is opportunity Our cities and suburbs are not jammed they

just look that way There are in fact plenty of ways to use this existing space to the benefit of the community and The Last Landscape provides a practical and timeless framework for making informed decisions about its use Called the best study available on the problems of open space by the New York Times when it first appeared in 1968 The Last Landscape introduced many cornerstone ideas for land conservation urging all of us to make better use of the land that has survived amid suburban sprawl Whyte's pioneering work on easements led to the passage of major open space statutes in many states and his argument for using and linking green spaces however small the areas may be is a recommendation that has more currency today than ever before *Punk Rock Etiquette* Travis Nichols,2025-09-23 Looking to start an underground band Don't make a move until you've read this book So you KNOW you are destined to rock well you're in luck all you need is this book Please note musical talent bandmates a car for touring and an uncle who owns a record label might also help An original blend of nonfiction how to's about all things DIY rock created by an indie circuit veteran with a knack for hysterical snark PUNK ROCK ETIQUETTE teaches you everything from how to pick your bandmates and choose a name Never deliberately misspell your band's name C how lame it looks to detailed guides on screenprinting your own merch and interviews and advice from studio owners about the do's and don'ts of recording PUNK ROCK ETIQUETTE is an unfiltered peek backstage that will appeal to aspiring musicians and anyone who's curious about what goes on in the hours between the last chord and the next big show *Truly Loved* Rose Sweetflower,2020-03-19 Journey with me into the life of a little girl named Jasmine She is one of four sisters but my story journeys into her life from her perspective Raised partly in the desert of Nevada the hills of Kentucky and the mountains of Idaho All four sisters suffer during a time when their parents divorce their mother neglects them and their father kidnaps them Now raised in an environment full of abuse by their stepmother they learn to keep secrets From Jasmine's point of view she starts suffering from depression and chronic anxiety A great amount of fear controls her life now that her father is gone Feeling trapped and helpless to find her real mother she wonders if her prayers are heard As she grows up she begins soul searching to heal from emotional damage Trust issues prevent her from setting healthy boundaries A long search begins to find her real mother and find answers Through Jasmine's eyes we experience her sadness inflicted on her tender heart a heart that feels unloved during a time when she is betrayed by her husband Jasmine learns that love and forgiveness are the keys to healing and that her voice matters during a time when shattered and broken *Gunship Pilot* Robert F. Hartley,2015-02-24 It was 1968 and Robert Hartley was on his first combat mission in Vietnam as copilot of a helicopter gunship As he and his platoon leader flew over the A Shau Valley a Chinook helicopter engulfed in flames suddenly came into view Hartley noticed tiny black smoking objects exiting the tail ramp of the aircraft Seconds later he realized those objects were men escaping the flames and plunging to their deaths It was in that moment that he silently wondered How the hell did I get here Mr Hartley was still wet behind the ears when he was tossed into the cauldron of America's most unpopular war as an attack helicopter gunship pilot As he shares a gripping bird's eye

view of battles that took him from the Demilitarized Zone in the north to the Mekong Delta in the south Mr Hartley compellingly details how he learned to rely on his superior training and equipment to follow through with his mission to kill the enemy and save the lives of his fellow soldiers below Gunship Pilot provides an unforgettable glimpse into two combat tours of duty in Vietnam as a helicopter pilot soaring high above rice paddies and jungles attempts to fulfill his duty of protecting Americas warriors on the ground *Risky Demeanor* Kevin L Trachsel,2023-02-14 Based on true events At thirteen Tracy has mastered escaping from his bedroom on the family farm south of Chicago in the mid to late night hours His only transportation is his dirt bike He blends in at the parties by drinking from a beer keg Tracy lives on a farm with his parents plays football and has few friends His world changes though when his parents divorce his mom moves to town and his dad sells the livestock Tracy must decide where to live He discovers how things can go from good to bad and bad to good and learns how right and wrong decisions from family friends and others can change the trajectory of one s life Based on true events Risky Demeanor shares one young man s coming of age story It identifies how one s life can be led and influenced directly from the results of someone else s actions to alter another s path **Ben Rod Jordan of Putnam County** Keith Honaker,2007-06 Ben Rod Jordan s rustic environment consisted of unpaved roads no electricity no running water no television or even a telephone He and his companions created their own entertainment usually provided by the swimmin hole hunting with his brothers and rambling the wood with their dog Bruno Being isolated by the steep hills surrounding him Ben Rod was invigorated by the sounds of the rattling freight trains and the whistling of the river boats sounding over the hills stimulating his imaginative mind His educational facilities consisted of a small one room schoolhouse one teacher a student body of sixteen which included students from the first to the eighth grades Hearing the radio for the first time flinging a voice from a distance of thirty miles amazed him but further energized his vivid imagination causing him to wonder what lie beyond his rustic hilly environment Fearing preachers because they buried little boys he always managed to escape their presence Ben Rod and his companions active mischievous lives even though hard and difficult enjoyed life to the fullest when their duties were not required tilling the hilly farm on which they lived *Music for Centauri* Donald Krueger,2016-10-20 Shawnis is beautiful she is brilliant and she is a senior educator at the Centauri University in Atlantis She is married she is sinuous and the perfect age to have children but to her disappointment she cannot She is not alone Natural pregnancies no longer exist on the planet Centauri The species is being kept in existence through cloning Shawnis is the unchallenged master at cloning embryos for implanting in females She is on the board of several clinics that have that purpose only But the population is declining at an alarming rate and she is not the only one concerned A small but elite council has been formed to seek a solution She is honored to be one of the six If these the best minds on Centauri fear their genus will be extinct in three thousand years An ancient expedition discovered that the planet Centauri is a twin of a distant planet called earth Centauri is far more advanced yet the populous of earth is expanding almost too fast Perhaps an answer lies four light years away
