The Big Scam Religion:

The Big Scam-- Religion Al Long, 1994-01-01 The Biggest Scam in Human History Joyce Seagraves, 2021-03-01 My intention for writing this book is that it will enhance people s lives so they spend more time doing good instead of praying and wishing something will come to be To question all the stories we have been taught through are church leaders and our government's Think of all the time mankind has spent in churches temples mosque's and what they could have accomplished if they had put their energy into something that has been proven scientifically for the good of mankind The money people have spent in the church to hear a bunch of nonsense This time and money could have been spent on knowledge of science and helping out other people without the church To learn the real truth about mankind instead of worshipping people like Jesus Mohammad or a God that is make up with fictitious facts How many people have been killed for the sake of religion and how many wars have we fought over religious dogma Our civilization would be so advanced and maybe even civilized if we embraced science instead of religion We might have even wiped out famine war diseases by now and be living on another planet Our ancestors were ignorant of the world by no fault of their own after all we haven t evolved that long compared to the universe and we couldn t evolve until the conditions were right A world where we were one people instead of people divided my countries and religions that don't get along where women children and the oppressed are treated with respect and dignity I like to acknowledge all the scientists philosophers and all those who sought knowledge instead of fables I could never have written this book without the knowledge that has come before me and the research and dedication to finding out the real truth is beyond measurement. The church wants you to give them your money so they can buy their gold chalices crosses feed them clothe them and build the most expensive churches Wouldn t it be easier to cut out the middleman and go directly to the people Volunteers community services and prisoners can do the same work as the church and it would save a lot of money and time When Texas Prison Scams Religion Michael G. Maness, 2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ s executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein

Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars

We Are A Scam Santosh Jha, 2020-06-03 You are born of scam shall die in scam Everyone is scamming others What better expected of the most deprayed dangerous half animal half human 7 5 billion strong species Fear anger attitude denial deception as proceeds of the scam are the pandemics this species loves Scared of death yet trades it most Reality can de scam lives But who cares Ignorance is bliss perfect till death Biggest Scam on earth is humanity itself Every consciousness of every human being is a scam It had to be as evolution which designed consciousness is itself a huge scam Almost 99 9 percent humans are trapped in the scam Evolution gifted this exclusivity of complex consciousness in humans but the scammed design made it ride on the brute animalistic body mind mechanism and processes A species born not human but only with potentials as human positioned over a largely animal system is the worst scam of cosmos As half animal half human we are the most split and most conflicted creatures and therefore qualify as the most corrupt and monstrous species in universe That is why the human world is full of pain grief sufferings devastations et al The animal instincts of fear anger attitude denial and deception surely cannot create anything better The only purely human element of compassion is negligible as only a handful out of 7 5 billion people qualifies as humans The singular solution of scammed humanity is in being human Only knowledge of reality in its entirety and holism can de scam consciousness and lead the embedded potentials to evolve us as humans The human world shall always remain a theatre of absurd and insanity if this scam is allowed to not only continue but prosper The best possible way for an individual to come out of this scam is to understand the scam in details the fear and denial elements of scammed consciousness and the core and critical elements of Reality This eBook shall detail all these The eBook deconstructs fear especially the all pervasive fear of death and unravel the scam of humanity in details so that an individual can de scam his consciousness and life to construct his or her personal model of lasting peace sanity wellness and excellence The larger humanity is too busy and hugely blissful enjoying sex food moneys games commerce scamming et al An individual alone has the possibility to come out of the scam Welcome Minority Religions and Fraud Amanda van Eck Duymaer van Twist, 2016-04-22 Analysing both fraud and religion as social constructs with different functions and meanings attributed to them this book raises issues that are central to debates about the limits of religious toleration in diverse societies and the possible harm as well as benefits that religious organisations can visit upon society and individuals There has already been a lively debate concerning the structural context in which abuse especially sexual abuse can be perpetrated within religion Contributors to the volume proceed from the premise that similar arguments

about ways in which structure and power may be conducive to abuse can be made about fraud and deception Both can contribute to abuse yet they are often less easily demonstrated and proven hence less easily prosecuted With a focus on minority religions the book offers a comparative overview of the concept of religious fraud by bringing together analyses of different types of fraud or deception financial bio medical emotional breach of trust and consent Contributors examine whether fraud is necessarily intentional or whether that is in the eye of the beholder certain structures may be more conducive to fraud followers willingly participate in it The volume includes some chapters focused on non Western beliefs Juju Occult Economies Dharma Lineage which have travelled to the West and can be found in North American and European metropolitan areas The Bonobo and the Atheist: In Search of Humanism Among the Primates Frans de Waal, 2013-03-25 In this lively and illuminating discussion of his landmark research esteemed primatologist Frans de Waal argues that human morality is not imposed from above but instead comes from within Moral behavior does not begin and end with religion but is in fact a product of evolution For many years de Waal has observed chimpanzees soothe distressed neighbors and bonobos share their food Now he delivers fascinating fresh evidence for the seeds of ethical behavior in primate societies that further cements the case for the biological origins of human fairness Interweaving vivid tales from the animal kingdom with thoughtful philosophical analysis de Waal seeks a bottom up explanation of morality that emphasizes our connection with animals In doing so de Waal explores for the first time the implications of his work for our understanding of modern religion Whatever the role of religious moral imperatives he sees it as a Johnny come lately role that emerged only as an addition to our natural instincts for cooperation and empathy But unlike the dogmatic neo atheist of his book s title de Waal does not scorn religion per se Instead he draws on the long tradition of humanism exemplified by the painter Hieronymus Bosch and asks reflective readers to consider these issues from a positive perspective What role if any does religion play for a well functioning society today And where can believers and nonbelievers alike find the inspiration to lead a good life Rich with cultural references and anecdotes of primate behavior The Bonobo and the Atheist engagingly builds a unique argument grounded in evolutionary biology and moral philosophy Ever a pioneering thinker de Waal delivers a heartening and inclusive new perspective on human nature and our struggle to find purpose in our lives **CONSPIRACY AGAINST AFRICA** Charles Akujieze, 2023-09-23 The Conspiracy Against Africa unveils a resonating truth that echoes across borders With insightful precision the book navigates the intricate reasons behind Africa's ongoing economic challenges and subjugation Tracing the pages of history the narrative illuminates the complex interplay between the West and Africa Here Africa's path to prosperity is shackled by the West's unquenchable appetite for its resources. This chokehold on Africa's raw materials keeps the global equilibrium but at what expense Unraveling layers of inefficiency ethical cracks and integrity gaps the book dissects Africa's relationship with the Western world It exposes vested interests that hold back progress with unyielding tenacity Yet within this stark analysis a call to arms resounds a rallying cry brimming

with urgency and optimism inviting every African to reclaim their essence and dreams This stands as a pivotal turning point urging Africans to cast aside shadows that bind them seizing the reins of fate and forging a destiny that defies exploitation The Conspiracy Against Africa is more than a book it s an awakening an assertion of empowerment amidst suppression It lays bare truths long obscured inviting you on this narrative journey to reclaim Africa's story and usher in an era of empowerment justice and self determination Religion Vs. Science Elaine Howard Ecklund, Christopher P. Scheitle, 2018 At the end of a five year journey to find out what religious Americans think about science Ecklund and Scheitle emerge with the real story of the relationship between science and religion in American culture Based on the most comprehensive survey ever done representing a range of religious traditions and faith positions Religion vs Science is a story that is more nuanced and complex than the media and pundits would lead us to believe The way religious Americans approach science is shaped by two fundamental questions What does science mean for the existence and activity of God What does science mean for the sacredness of humanity How these questions play out as individual believers think about science both challenges stereotypes and highlights the real tensions between religion and science Ecklund and Scheitle interrogate the widespread myths that religious people dislike science and scientists and deny scientific theories Religion vs Science is a definitive statement on a timely popular subject Rather than a highly conceptual approach to historical debates philosophies or personal opinions Ecklund and Scheitle give readers a facts on the ground empirical look at what religious Americans really understand and F*Ck the System, Make Love Liana Laga, 2018-12-10 The things that are happening on planet Earth think about science these days are more than unbearable Everyone is aware of it but no one knows what to do about it This change needs to be individual It is up to each of us and it is our responsibility to make this world a better place Because it is far from being OK and there is no evidence more convincing than today s human But he is free to choose whether he will continue his development on the conscious level or not Life is a game but it is hard to play with people who don t know the rules Just as each machine has its own instructions for use it is the same with life and people And they are actually very simple instructions When each of us starts working individually it will join us all together This book was not written to be liked it should be above all understood God Sex Money Ego Morality mass Media Love Meditation Esotericism Consciousness Education etc the real holistic view The Great Supernatural Secret Ivan Bell, 2009-06-23 The Secret missed out on lots of things This book takes up where the secret left off but mentions teh blessing blocker spirits like fundamentalism and humanism that like to bully people out of their dreams and desires Losing Your Religion, Finding Your Faith Brett Hoover, 1998 In this lively challenging book Brett Hoover says that the typical young adult loss of faith is a necessary part of maturing spirituality faith can grow only when religion is doubted lost and found again in a new light Using the metaphor of a road trip Hoover describes the lifelong process of discovering both God and self Losing your religion is just one necessary obstacle on the road to a holistic spirituality Law, Religion, Health and Healing in Africa M. Kabata, Fortune Sibanda, 2022-12-31 The Covid 19 pandemic was global in its spread and reach as well as in its medical social and economic effects In many respects the global effort to flatten the curve produced a flattening of experience around the world and a striking coincidence of similar experiences in countries the world over The identity simultaneity and uniformity of experience were also manifest in common concerns at the intersection of law and religion in many nations around the world including Africa The lockdowns and closure of religious worship centres churches mosques and religious organisations of all sorts raised questions of freedom of religion and the related concern for freedom of assembly along with concerns about the relation of religion to science and public health religious channels of communication and religious provision of social services After all health communications and social services are all areas in which African religious organisations play key roles Potential tensions around these issues raised further considerations about the nature of religion state relations the status of religious authority and whether religious and state actors would work together or at odds in addressing the Covid 19 pandemic Private L.A.
