The Birth Of Christianity Reality And Myth

Hugh Mackay

The Birth Of Christianity Reality And Myth:

Birth of Christianity Joel Carmichael, 1994-06 **The Last Civilization** Charles Brough, 2010-11 The terrorism continues with no end in sight over population grows ever more serious our natural resources are being depleted and corruption runs rampant Will these problems ever be solved The continuing events point to an impending breakdown of our civilization The threat of a new world wide plague mass starvation and nuclear war increases each year No solution is in sight without an understanding of social evolutionary natural selection and how it has shaped world affairs throughout both history and prehistory Only by learning how ideology shapes society is it possible to know what must happen in order for people to be active in the transition from the old into a new society and civilization The author covers topics such as our primate small group social behavior the development of the matriarchal agricultural ideological system the ideology involved in barbarism and the rise of the patriarchal monogamous ideologically based societies and their civilizations Learn why the green revolution is falling behind the biologically related build up of stress and how lagging energy supplies will affect the world Two of the last chapters lay out the structural make up of every successful mainstream world view ideological system They use that to build a facsimile of what the core of such a new and advanced system would have to be like to succeed a perpetual lack of which would ensure that this is indeed The Last Civilization because no other can follow without it

Outcasts and Heretics Donald K. Sharpes, 2007-01-01 *Outcasts and Heretics* is a series of profiles focusing on leaders of independent thought and courage Spanning from middle age religious heretics to modern whistle blowers this volume maps common threads between independent thought and proven courage *The Mythic Forest, the Green Man and the Spirit of Nature* Gary R. Varner, 2006 Mankind has given a recognizable face to the awesome and impalpable forces of nature in the image of the Green Man and the nature spirits that this book explores The ways in which different societies and different craftsmen have depicted these spirits display the wide creative range of the human imagination but the persistence of the theme suggests that in all their many facets these spirits represent a deep primordial sense that humans have shared since civilization began For the very origin and message of these images have remained the same even if somewhat altered over time Traditional customs from around the world from the rites that celebrate spring and egg on the forces of fertility to folk health remedies and the use of talismans to ward off illness and other evils show some surprising similarities and hint at the shared origins of human culture Even though the original significance of many customs has been lost or diluted they still hold an appeal and many towns even today are re introducing seasonal fairs to recreate the link between man and nature Varner presents examples ancient and new from Europe and Asia East Coast and West and identifies in particular the different guises of the Green Man who has figured in architecture since before the advent of Christianity and still makes his appearance today peering out from behind his leaves on California banks and New York brownstone houses *Lords of the Scrolls: Literary Traditions in the Bible and Gospels* Donald K. Sharpes, 2005 *Lords of the Scrolls* analyzes ancient literary

sources to show how biblical and gospel scribes borrowed and imitated themes from earlier literature to create heroic legends around Hebrew figures and Jesus Comparisons between the Epic of Gilgamesh Enuma Elish Canaanite Egyptian and Greek legends Homeric epics the histories of Herodotus and selected biblical and gospel passages reveal thematic and literary similarities Tracing literary classics from the birth of writing to the first millennium of the modern era this book demonstrates that Hebrew scribes used previous literature to establish a national identity and that gospel scribes borrowed heavily from Homer to create epic legends around the person of Jesus

The Gods of Man: Gods of Nature - God of War
 Gary R. Varner, 2007-10-14 Today the majority of humankind worships a single God Although this God is said to be all loving and wanting peace for his worshippers there is very little peace among the three religions based on common theology Judaism Christianity and Islam all foster hatred for one another causing millions of deaths and untold suffering for hundreds of years This book explores the mythic historical and archaeological record to illustrate the history of these conflicts The Gods of Man also looks at how monotheism eventually dominated and destroyed the ancient and peaceful goddess traditions that had existed for thousands of years before Is the God of today simply used to enforce government edicts justify war and to control society Gary R Varner has written several articles and books on ancient religions folklore and mythology He is a member of the American Folklore Society and the Foundation for Mythological Studies

The Evolution of the Social Sciences Donald K. Sharpes, 2009-01-01 This book charts the development of the main social sciences_ religion history philosophy law sociology anthropology and economics_ through an examination of the lives and works of each discipline s key historical figures

After Injury Ashraf H.A. Rushdy, 2018-05-01 After Injury explores the practices of forgiveness resentment and apology in three key moments when they were undergoing a dramatic change The three moments are early Christian history for forgiveness the shift from British eighteenth century to Continental nineteenth century philosophers for resentment and the moment in the 1950s postwar world in which British ordinary language philosophers and American sociologists of everyday life theorized what it means to express or perform an apology The debates that arose in those key moments have largely defined our contemporary study of these practices

A Jungian and Psychoanalytic Approach to Biblical Myth and Religion Lionel Corbett, 2024-12-23 This book describes some of the major psychological processes that underpin various biblical stories and some of the theological speculation to which they have given rise Psychological biblical criticism as described here is suggested as an alternative or supplement to historical cultural textual philological literary and other types of biblical criticism Using a combination of Jungian and psychoanalytic theory Corbett shows how some biblical material arises from human psychodynamics while some originates in the archetypal level of the psyche and is further elaborated as it passes through the human level of the psyche The author addresses some of the traditional anxieties about psychological approaches to biblical stories He views Jung s approach as an evolving mythology of the sacred that offers an alternative to purely theological approaches to the Bible and to the traditions that emerged from it This book will be of value

to practicing psychotherapists and analysts particularly those who treat patients with a religious background as well as trainees clergy and graduate students in this area *The Publishers Weekly*, 1988 **The Birth of Fascist Ideology** Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell's controversial interpretations In Sternhell's view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity The Good News of the Return of the King Michael T. Jahosky, 2020-09-15 Although many people today reject Christianity for intellectual reasons greater numbers of people are rejecting Christianity because it does not engage their imagination Christians must not only demonstrate that the Christian worldview is true but that it is also good beautiful and relevant *The Good News of the Return of the King* The Gospel in Middle earth is a book that endeavors to show the truth goodness and beauty of Jesus Christ the gospel and the biblical metanarrative by engaging the imagination through J R R Tolkien's *The Lord of the Rings* as well as *The Hobbit* and *The Silmarillion* In this book I propose that J R R Tolkien's *The Lord of the Rings* is a story about what Jesus parables are about the good news about the return of the king As a work of imaginative fiction similar to Jesus parables *The Lord of the Rings* can bypass both intellectual and imaginative objections to the gospel and pull back the veil of familiarity that obscures the gospel for many Thinking in the Future Tense Jennifer James, 2008-06-30 Much is said these days about building bridges to the 21st century and savvy businesspeople are constantly on the lookout for ways to make this colorful metaphor into reality *Thinking in the Future Tense Leadership Skills for a New Age* by author and business lecturer Jennifer James clearly establishes the framework for a real world transition Amazon.com American business economics and society are changing at a phenomenal rate The pressure is on and managers need to learn faster think smarter and free themselves from confining assumptions and old mindsets In this important book James the Margaret Mead of modern business reveals the business survival skills managers need to know to operate in this new fashion Beyond Belief Hugh

Mackay,2016-04-26 What do people actually mean when they say God Around two thirds of us say we believe in God or some higher power but fewer than one in ten Australians attend church weekly In *Beyond Belief* Hugh Mackay presents this discrepancy as one of the great unexamined topics of our time He argues that while our attachment to a traditional idea of God may be waning our desire for a life of meaning remains as strong as ever Mackay interviews dozens of Australians representing many different points on the spectrum of faith including some who are part of the emerging spiritual but not religious movement He exposes the deep vein of ambivalence about religion that runs through our society we may not actively worship but we still like to see local churches operating in our midst and we use our church to marry christen our babies educate our children and commemorate our dead He points out some uncomfortable truths such as our tendency to call on God only in a crisis and unpacks our human need for answers even when science can't find them He endorses the Christian ideal of the good life a life lived for others but acknowledges that there are many pathways to that same goal not all of them religious Written with all the insight and compassion we have come to expect of our leading chronicler of Australian life *Beyond Belief* is an engrossing exploration of the ways we find spiritual fulfilment in an avowedly secular age *The Word as True Myth* Gary J. Dorrien,1997-01-01 Gary Dorrien follows the threads of theology through the twentieth century examining how Christians have reconciled their myth filled religious beliefs within a world secularized by Enlightenment criticism and science To understand how religion keeps its place in Christians lives Dorrien writes we must explore how modern theologians have answered the question of myth in today's Christianity Dorrien's narrative walks readers through modern theology stopping with each of the major thinkers along the way to see how they dealt with the issue of modern Christian mythology Ultimately he offers his own new neo orthodoxy a theology of Word and Spirit that is pluralistic and affirms the mythical character of the gospel while holding fast to the Gospels myth negating condemnation of idolatry and their focus on history **Mapping Myths of Biblical Interpretation** Richard Walsh,2001-03-01 Walsh explores the role that myth has played in the interpretation of the Bible He sees myth as an empowering structuring story used either for good or ill and either consciously or unconsciously controlling our world views Walsh looks for both the empowerment and the marginalization effected by myth as he follows the word through its myriad meanings Grasping Proteus its use in various disciplines Procrustean Mythographers its distinctive uses in biblical interpretation Mything the Bible and finally the mythic character of interpretation itself *The Myth of Interpretation* The concluding chapter Behind the Mythic Curve muses on the difficulty of knowing the myths by which we live and reflects hopefully on the possibility of play among the myriad myths in a postmodern pluralist world [The Case for the Real Jesus](#) Lee Strobel,2009-05-18 Has modern scholarship debunked the traditional Christ Has the church suppressed the truth about Jesus to advance its own agenda What if the real Jesus is far different from the atoning Savior worshipped through the centuries In *The Case for the Real Jesus* former award winning legal editor Lee Strobel explores such hot button questions as Did the church suppress ancient non biblical documents that

paint a more accurate picture of Jesus than the four Gospels Did the church distort the truth about Jesus by tampering with early New Testament texts Do new insights and explanations finally disprove the resurrection Have fresh arguments disqualified Jesus from being the Messiah Did Christianity steal its core ideas from earlier mythology Evaluate the arguments and evidence being advanced by prominent atheists liberal theologians Muslim scholars and others Sift through expert testimony Then reach your own verdict in *The Case for the Real Jesus* *The Hebrew Christian Alliance Quarterly* ,1921

Martin Buber on Myth (RLE Myth) S. Daniel Breslauer,2015-03-05 This book first published in 1990 summarizes and evaluates the contribution of Martin Buber as a theorist of myth Buber provides explicit guidelines for understanding and evaluating myths He describes reality as twofold people live either in a world of things to which they relate as a subject controlling its objects or in a world of self conscious others with whom one relates as fellow subjects Human beings require both types of reality but also a means of moving from one to the other Buber understands myths as one such means by which people pass from I It reality to I You meeting In studying myths he focuses on the myths in the traditions he knows best but offers his advice and interpretation of mythology and scholarship about mythology generally *From Mythology to Reality: Moving Beyond Rastafari* Seon M. Lewis,2013-10-19 The main thesis of this book is based on the Rastafarian Movement This book presents information about this movement in one place that is largely not know by the many adherents of the faith Moreover this book presents a unique view of the Movement a view embedded in a Grenadian Caribbean experience This view however is not narrowly placed but is argued within a wider world context and thus explains whether the Rastafarian movement can be a force for good both within the black community and the world at large Editor and author Norm R Allen Jr said that This well researched book expertly demolishes the ridiculous notion among Rastafarians that Emperor Haile Selassie of Ethiopia is God Moreover Lewis offers many excellent critiques of theism the Bible Rastafarianism Afrocentric thought and religion in general This book is informative to everyone
