The Birth Of Nato:

The Birth of NATO Nicholas Henderson,1982 **NATO 1948** Lawrence S. Kaplan,2007-06-21 This compelling history brings to life the watershed year of 1948 when the United States reversed its long standing position of political and military isolation from Europe and agreed to an entangling alliance with ten European nations Not since 1800 when the United States ended its alliance with France had the nation made such a commitment The historic North Atlantic Treaty was signed on April 4 1949 but the often contentious negotiations stretched throughout the preceding year Lawrence S Kaplan the leading historian of NATO traces the tortuous and dramatic process which struggled to reconcile the conflicting concerns on the part of the future partners Although the allies could agree on the need to cope with the threat of Soviet led Communism and on the vital importance of an American association with a unified Europe they differed over the means of achieving these ends The United States had to contend with domestic isolationist suspicions of Old World intentions the military's worries about over extension of the nation's resources and the apparent incompatibility of the projected treaty with the UN charter For their part Europeans had to be convinced that American demands to abandon their traditions would provide the sense of security that economic and political recovery from World War II required Kaplan brings to life the colorful diplomats and politicians arrayed on both sides of the debate The end result was a remarkably durable treaty and alliance that has linked the fortunes of America and Europe for over fifty years Despite differences that have persisted and occasionally flared over the past fifty years NATO continues to bind America and Europe in the twenty first century Kaplan's detailed and lively account draws on a wealth of primary sources newspapers memoirs and diplomatic documents to illuminate how the United States came to assume international obligations it had scrupulously avoided for the previous 150 years **The Birth of the**

Early Italian History and the birth of the Giasolli name Vincent Giasolli,2013-11-26 Italy was the first country to create homes for abandoned children Although most European countries did not adopt homes for foundlings until the nineteenth century Pope Innocent III opened one in Milan in 1198 Northern cities began opening hospitals and churches to abandoned babies and soon foundling homes were established for the sole purpose of raising abandoned infants To encourage discretion these institutions installed a rotating box allowing complete discretion Over time the realization that this discretion also encouraged the unwed mothers absolute secrecy and a father's lack of responsibility created a backlash in society and the foundling wheel began to be removed in 1860 In the 1870's Italian law began recording specifics of each child's birth Mario Giasolli was born in 1833 and abandoned in a foundling hospital The Giasolli surname was a creation of

tradition and local dialect The Statesman's Year-Book 1987-88 J. Paxton,2016-12-16 The classic reference work that provides annually updated information on the countries of the world **NATO's Failure in Libya: Lessons for Africa** Horace Campbell,2013-08-15 When the Tunisian and Egyptian uprisings erupted in Africa in the first two months of the year 2011 with the chant the people want to bring down the regime there was hope all over the continent that these rebellions were part of a wider African Awakening President Ben Ali of Tunisia was forced to step down and fled to Saudi Arabia Within a month of Ben Ali s departure Hosni Mubarak of Egypt was removed from power by the people who mobilised a massive revolutionary movement in the country Four days after the ousting of Mubarak sections of the Libyan people rebelled in Benghazi Within days this uprising was militarised with armed resistance countered by declarations from the Libyan leadership vowing to use raw state power to root out the rebellion The first Libyan demonstrations occurred on February 15 2011 but by February 21 there were reports that innocent civilians were in imminent danger of being massacred by the army This information was embellished by reports of the political leadership branding the rebellious forces as rats *A Political History of Western Europe Since 1945* Derek W. Urwin,2014-07-22 Taking a thematic approach Derek Urwin addresses the major political and economic developments in western Europe since World War II right up to the present day The book covers issues and developments in national politics and the movement towards greater unity in Western Europe and the role of Europe in global politics and in the international economy The text has been revised throughout and updated to take account of the political consequences of the ending of the Cold War and the troubled progress of European integration since Maastricht The Fifth Edition has lost nothing of its predecessor s clarity and accessibility and in its updated form will win the book a host of new admirers NATO and the Greater Maghreb David Garcia Cantalapiedra,2022-09-01 NATO and the Greater Maghreb offers a distinctive focus and study of NATO s future policy in North Africa and the Sahel after the new 2022 Strategic Concept expected to be published during the next NATO Summit in Madrid The book will use three main axes to frame the contributors analysis which are not usually used together for analyzing NATO policy Geopolitics Great Power Competition and Threats These lenses create a distinctive approach to reviewing a Greater Mahgreb Regional Security Complex confronted with the necessities of a distinctive approach by NATO The idea of MENA Middle East and North Africa still used by the EU and NATO is already obsolete for several reasons first it is no more possible to split West Africa geopolitically from North Africa and Sahel Second the action of terrorist groups such as Al Qaida in the Islamic Maghreb ISIS and Boko Haram are not related to Middle East problems nor strategies and policies necessities to tackle them Second the difficulties in cooperation between these countries the corruption fed by organized crime above all cocaine trafficking and the impact of desertization makes it very difficult to establish sound strategies and policies for the area Third there is an increasing presence of Great Powers in the area including Russia and China Turkey and some Gulf states with different goals and policies The Statesman's Year-Book 1990-91 J. Opening NATO's Door Ronald D. Asmus, 2004-08-11 How and why did NATO a Cold War military alliance created in 1949 to counter Stalin's USSR become the cornerstone of new security order for post Cold War Europe Why instead of retreating from Europe after communism's collapse did the U S launch the greatest expansion of the American commitment to the old continent in decades Written by a high level insider Opening NATO's Door provides a definitive account of the ideas politics and diplomacy that went into the historic decision to expand NATO to Central and Eastern Europe Drawing on the still classified archives of the U S Department of State Ronald D Asmus recounts how and why American policy makers against formidable odds at home and abroad expanded NATO as part of a broader strategy to overcome Europe's Cold War divide and to modernize the Alliance for a new era Asmus was one of the earliest advocates and intellectual architects of NATO enlargement to Central and Eastern Europe after the collapse of communism in the early 1990s and subsequently served as a top aide to Secretary of State Madeleine Albright and Deputy Secretary Strobe Talbott responsible for European security issues He was involved in the key negotiations that led to NATO's decision to extend invitations to Poland Hungary and the Czech Republic the signing of the NATO Russia Founding Act and finally the U S Senate's ratification of enlargement Asmus documents how the Clinton Administration sought to develop a rationale for a new NATO that would bind the U S and Europe together as closely in the post Cold War era as they had been during the fight against communism For the Clinton Administration NATO enlargement became the centerpiece of a broader agenda to modernize the U S European strategic partnership for the future That strategy reflected an American commitment to the spread of democracy and Western values the importance attached to modernizing Washington's key alliances for an increasingly globalized world and the fact that the Clinton Administration looked to Europe as America's natural partner in addressing the challenges of the twenty first century As the Alliance weighs its the future following the September 11 terrorist attacks on the U S and prepares for a second round of enlargement this book is required reading about the first post Cold War effort to modernize NATO for a new era
