The Way We Never Were Stephanie Coontz, 2016-03-29 The definitive edition of the classic myth shattering history of the American family Leave It to Beaver was not a documentary a man's home has never been his castle the male breadwinner marriage is the least traditional family in history and rape and sexual assault were far higher in the 1970s than they are today In *The Way We Never Were* acclaimed historian Stephanie Coontz examines two centuries of the American family sweeping away misconceptions about the past that cloud current debates about domestic life The 1950s do not present a workable model of how to conduct our personal lives today Coontz argues and neither does any other era from our cultural past This revised edition includes a new introduction and epilogue exploring how the clash between growing gender equality and rising economic inequality is reshaping family life marriage and male female relationships in our modern era More relevant than ever *The Way We Never Were* is a potent corrective to dangerous nostalgia for an American tradition that never really existed

Slavery and Freedom in the Bluegrass State Gerald L. Smith, 2023-02-21 Stephen Foster's *My Old Kentucky Home* has been designated as the official state song and performed at the Kentucky Derby for decades In light of the ongoing social justice movement to end racial inequality many have questioned whether the song should be played at public events given its inaccurate depiction of slavery in the state In *Slavery and Freedom in the Bluegrass State* editor Gerald L. Smith presents a collection of powerful essays that uncover the long forgotten stories of pain protest and perseverance of African Americans in Kentucky Using the song and the museum site of *My Old Kentucky Home* as a central motif the chapters move beyond historical myths to bring into sharper focus the many nuances of Black life Chronologically arranged they present fresh insights on topics such as the domestic slave trade Black Shakers rebellion and racial violence prior to the Civil War Reconstruction the fortitude of Black women as they pressed for political and educational equality the intersection of race and sports and the controversy over a historic monument Taken as a whole this groundbreaking collection introduces readers to the strategies African Americans cultivated to negotiate race and place within the context of a border state Ultimately the book gives voice to the thoughts desires and sacrifices of generations of African Americans whose stories have been buried in the past

Survival of the African American Family Karen S. Jewell, 2003-11-30 Challenging widely held beliefs this provocative book offers nothing less than a blueprint for enhancing the social and economic status of African American families Despite the implementation of liberal social policies in the 1960s and 70s successive U.S. administrations continue to dash the hopes and expectations of African Americans who remain subject to racism and discrimination Arguing that social policies and their absence have affected the stability of the African American family Jewell refutes the myth of significant progress for African American families

emanating from the civil rights era exposing the myriad reasons why greater advancement toward equality has not occurred in major societal institutions Attention is focused on the extent to which African American families have been adversely affected by a process of assimilation that was socio psychological rather than economic This new edition builds upon the first edition and is revised and expanded to reflect new and persistent institutional policies and practices of race gender and class inequality facing African American families The revised edition explores such issues as racial profiling capital punishment police brutality predatory lending No Child Left Behind welfare reform affirmative action and racial disparities in healthcare academic achievement and home ownership Jewell proposes a variety of strategies and policies that are needed to ensure greater social and economic equality and justice for African American families

Money over Mastery, Family over Freedom Calvin Schermerhorn, 2011-06-15 Elegantly argued convincingly shows the centrality of enslaved men and women to the transformation of the coastal upper South's commercial life The Journal of Southern History Once a sleepy plantation society the region from the Chesapeake Bay to coastal North Carolina modernized and diversified its economy in the years before the Civil War Central to this industrializing process was slave labor Money over Mastery Family over Freedom tells the story of how slaves seized opportunities in these conditions to protect their family members from the auction block Calvin Schermerhorn argues that the African American family provided the key to economic growth in the antebellum Chesapeake To maximize profits in the burgeoning regional industries slaveholders needed to employ or hire out a healthy supply of strong slaves which tended to scatter family members From each generation they also selected the young fit and fertile for sale or removal to the cotton South Conscious of this pattern the enslaved were sometimes able to negotiate mutually beneficial labor terms to save their families despite that new economy Money over Mastery Family over Freedom proposes a new way of understanding the role of American slaves in the antebellum marketplace Rather than work against it as one might suppose enslaved people engaged with the market somewhat as did free Americans Slaves focused their energy and attention however not on making money as slaveholders increasingly did but on keeping their kin out of the human coffles of the slave trade Displays exhaustive research a well crafted argument and is a valuable addition to antebellum slave historiography H CivWar H Net Reviews

Cultures in Contact Dirk Hoerder, 2002-11-21 A landmark work on human migration around the globe Cultures in Contact provides a history of the world told through the movements of its people It is a broad pioneering interpretation of the scope patterns and consequences of human migrations over the past ten centuries In this magnum opus thirty years in the making Dirk Hoerder reconceptualizes the history of migration and immigration establishing that societal transformation cannot be understood without taking into account the impact of migrations and indeed that mobility is more characteristic of human behavior than is stasis Signaling a major paradigm shift Cultures in Contact creates an English language map of human

movement that is not Atlantic Ocean based Hoerder describes the origins causes and extent of migrations around the globe and analyzes the cultural interactions they have triggered He pays particular attention to the consequences of immigration within the receiving countries His work sweeps from the eleventh century forward through the end of the twentieth when migration patterns shifted to include transpacific migration return migrations from former colonies refugee migrations and distinct regional labor migrations in the developing world Hoerder demonstrates that as we enter the third millennium regional and intercontinental migration patterns no longer resemble those of previous centuries They have been transformed by new communications systems and other forces of globalization and transnationalism

Defending Same-Sex Marriage

Martin Dupuis, William A. Thompson, Traci C. West, 2006-12-30 Today we find ourselves at a crossroads of two powerful unrelenting currents that are completely at odds with one another The movement for legal recognition of same sex unions has gone beyond the separate but equal status of civil unions to demand equality in marriage for all couples Progress is being made on many fronts mayoral action clergy officiating at same sex marriage and union ceremonies state legislative responses and street protests to name a few Meanwhile opposition to same sex marriage has also been gathering strength The struggle is sure to continue unabated for some time to come pitting those who believe in the traditional definition of marriage as a union between a man and a woman and who seek to codify this belief in the U S Constitution against those who find the basis for marriage between two loving committed individuals not only in the history of our civil rights legislation and court decisions but also in scripture and sacred religious traditions Those who believe in extending to same sex couples the 1 049 rights conferred by marriage as well as the supportive embrace of religious communities seek to strengthen the institution of marriage by making it inclusive and by passing laws and broadening doctrines to uphold marriage rights for all couples This three volume set clarifies the legal political religious cultural and social ramifications of same sex marriage for gay and lesbian couples and their families and friends and for the general public interested in the future of civil rights in the United States

sentiments without recognizing or addressing the racial prejudice pervasive among whites in both regions John Ernest's introductory essay balances the play's historical and literary contexts including information on Brown and his career as well as on slavery abolitionism and sectional politics It also discusses the legends and realities of the Underground Railroad examines the role of antebellum performance art including blackface minstrelsy and stage versions of Uncle Tom's Cabin in the construction of race and national identity and provides an introduction to theories of identity as performance A century and a half after its initial appearance *The Escape* remains essential reading for students of African American literature Ernest's keen analysis of this classic play will enrich readers' appreciation of both the drama itself and the era in which it appeared The Editor John Ernest is an associate professor of English at the University of New Hampshire and author of *Resistance and Reformation in Nineteenth Century African American Literature* Brown Wilson Jacobs Delany Douglass and Harper

The Decline in Marriage Among African Americans M. Belinda Tucker, Claudia Mitchell-Kernan, 1995-07-13 In a time when the American family has undergone dramatic evolution change among African Americans has been particularly rapid and acute African Americans now marry later than any other major ethnic group and while in earlier decades nearly 95 percent of black women eventually married today 30 percent are expected to remain single The black divorce rate has increased nearly five fold over the last thirty years and is double the rate of the general population The result according to *The Decline in Marriage Among African Americans* is a greater share of family responsibilities being borne by women an increased vulnerability to poverty and violence and an erosion of community ties The original often controversial research presented in this book links marital decline to a pivotal drop in the pool of marriageable black males Increased joblessness has robbed many black men of their economic viability rendering them not only less desirable as mates but also less inclined to take on the responsibility of marriage Higher death rates resulting from disease poor health care and violent crime as well as evergrowing incarceration rates have further depleted the male population Editors M Belinda Tucker and Claudia Mitchell Kernan and the contributors take a hard look at the effects of chronic economic instability and cultural attitudes toward the male role as family provider Their cogent historical analyses suggest that the influence of external circumstances over marriage preferences stems in

large part from the profoundly damaging experience of slavery This book firmly positions declining marriage within an ominous cycle of economic and social erosion The authors propose policies for relieving the problems associated the changing marital behavior focusing on support for single parent families public education and increased employment for African American men

At the Heart of It All? Anne Overbeck, 2019-01-29 The structure of the African American family has been a recurring theme in American discourse on the African American community The role of African American mothers especially has been the cause of heated debates since the time of Reconstruction in the 19th century The discourse which often saw the African American family as something that needed fixing also put the issue of women's reproductive rights on the political agenda Taking a long term perspective from the 1920s to the early 1990s Anne Overbeck aims to show how normative notions of the American family influenced the perspective on the African American family especially African American women The book follows the negotiations on African American women's reproductive rights within the context of eugenics modernization theory overpopulation and the War on Drugs Thereby it sets out to trace both continuities and changes in the discourse on the reproductive rights of African American women that still influence our perspective on the African American family today
