The Black Goddess And The Unseen Real:

The Black Goddess and the Unseen Real Peter Redgrove, 1987 **The Black Goddess and the Sixth Sense** Peter Redgrove, 1987-01-01 In this work the author shows how we are surrounded by invisibles forces which animals know but humans have come to ignore or only participate in unconsciously These forces include electricity magnetism and the deeper reaches of touch smell taste and sound *Hermes, Ecopsychology, and Complexity Theory* Dennis L. Merritt, 2012-11 Who ever does not shy away from dangers of the most profound depths and the newest pathways which Hermes is always prepared to open may follow and reach whether as scholar commentator or philosopher a greater find and a more certain possession Karl Kerenyi An exegesis of the myth of Hermes stealing Apollo's cattle and the story of Hephaestus trapping Aphrodite and Ares in the act are used in *The Dairy Farmer's Guide to the Universe Volume III* to set a mythic foundation for Jungian ecopsychology *Hermes Ecopsychology and Complexity Theory* illustrates Hermes as the archetypal link to our bodies sexuality the phallus the feminine and the earth Hermes wand is presented as a symbol for ecopsychology The appendices of this volume develop the argument for the application of complexity theory to key Jungian concepts displacing classical Jungian constructs problematic to the scientific and academic community Hermes is described as the god of ecopsychology and complexity theory The front cover image is from a photo taken by the author of detail on an Attic Greek calyx krater by Euxitheos potter and Euphronios painter ca 515 BCE The gap between the horn like extensions atop Hermes staff highlight his domain the exchange and interactive field between things as between people consciousness and the unconscious body and mind and humans and nature **Healing Journeys with the Black Madonna** Alessandra Belloni, 2019-04-02 An experiential guide to the ancient healing rituals of the Black Madonna Reveals the practices and rites of the still living cult of the Black Madonna in the remote villages of Southern Italy including the healing rites of the tarantella dance Details shamanic chants rhythms and songs and how to use them for self healing transformation and recovery from abuse trauma depression and addiction Explores the many sacred sites of the Madonnas and connects them to other Great Goddesses such as Isis Aphrodite Cybele and the Orisha Yemanjá and Ochún Includes access to 12 audio tracks The mysteries of the Black Madonna can be traced to pre Christian times to the ancient devotion to Isis the Earth Goddess and the African Mother to the era when God was not only female but also black Sacred sites of the Black Madonna are still revered in Italy and as Alessandra Belloni reveals the shamanic healing traditions of the Black Madonna are still alive today and just as powerful as they were millennia ago Sharing her more than 35 years of research and fieldwork at sacred sites around the world Belloni takes you on a mystical pilgrimage of empowerment initiation and transformation with the Black Madonna She explains how her love for Italian folk music led her to learn the ancient tammorra musical tradition of the Earth Goddess Cybele and the Moon Goddess Diana and discover the still living cult of the Black Madonna in the remote villages of Southern Italy She vividly describes the sensual shamanic drumming and ecstatic trance dance rituals she experienced there including the rites

of the tammorriata the transgender rite of Femminielli and the erotic spider dance of the tarantella which has been used for centuries in the Mediterranean for healing Sharing chants rhythms and sacred songs she details how she uses these therapeutic musical and trance practices to heal women and men from abuse trauma depression and addiction and shows how these practices can be used for self healing and transformation including her personal story of using the tarantella to overcome cervical cancer Revealing the profound transformative power of the Black Madonna Belloni shows how She is the womb of the earth the dark side of the moon and the Universal Mother to all Truly alive for all to call upon She embraces and gives everyone access to Her divine strength and unconditional love **Living Lilith** M. Kelley Hunter,2005-07-03 Of increasing interest to astrologers Lilith is the name given to four astronomical points an asteroid a star a dark ghost moon and the better known Black Moon All four Liliths are discussed and differentiated with the aid of numerous case histories and fascinating insights into the lives of public figures A section of suggested interpretations of Lilith s influence through the signs is included **A Secret History of Consciousness** Gary Lachman,2003-07 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read **A Lucid Dreamer** Dr Neil Roberts,Peter Redgrove,2012-01-05 The work of the poet Peter Redgrove is one of the great unexplored treasures of late twentieth century literature His prolific output presents an intriguing variety of personae magician scientist lover psychologist joker madman It is only now with the publication of his Collected Poems and this biography that we can see how and why these personae developed and discover the full depth and range of this visionary writer Born into an apparently conventional middle class family that was in reality deeply disturbed the poet finally emerged transforming himself from the neurotic Oedipal young scientist through a process

of mental breakdown insulin coma therapy erotic revelation and the discovery of poetic companionship at Cambridge and particularly his friendship and rivalry with Ted Hughes Neil Roberts explores the inner story of this emergence and Redgrove's later development through marriage family life the fellowship of the Group alcoholic excess infidelity and marital breakdown to his triumphant later partnership with Penelope Shuttle We also discover for the first time some darker secrets his fascination with Aleister Crowley his damaged and damaging relationship with his father and the lifelong sexual fetish which he called the Game Drawing on the poet's intimate journals and correspondence and interviews with family friends and colleagues A Lucid Dreamer tells the exceptionally inward and revealing story of an astonishing creative life **The**

Breaking Open the Head Daniel Pinchbeck, 2003-08-12 A dazzling work of personal travelogue and cultural criticism that ranges from the primitive to the postmodern in a quest for the promise and meaning of the psychedelic experience While psychedelics of all sorts are demonized in America today the visionary compounds found in plants are the spiritual sacraments of tribal cultures around the world From the iboga of the Bwiti in Gabon to the Mazatecs of Mexico these plants are sacred because they awaken the mind to other levels of awareness to a holographic vision of the universe Breaking Open the Head is a passionate multilayered and sometimes rashly personal inquiry into this deep division On one level Daniel Pinchbeck tells the story of the encounters between the modern consciousness of the West and these sacramental substances including such thinkers as Allen Ginsberg Antonin Artaud Walter Benjamin and Terence McKenna and a new underground of present day ethnobotanists chemists psychonauts and philosophers It is also a scrupulous recording of the author's wide ranging investigation with these outlaw compounds including a thirty hour tribal initiation in West Africa an all night encounter with the master shamans of the South American rain forest and a report from a psychedelic utopia in the Black Rock Desert that is the Burning Man Festival Breaking Open the Head is brave participatory journalism at its best a vivid account of psychic and intellectual experiences that opened doors in the wall of Western rationalism and completed Daniel Pinchbeck's personal transformation from a jaded Manhattan journalist to shamanic initiate and grateful citizen of the cosmos
