Jackson, 2008-08-01 In *Black Literature and Humanism in Latin America* Richard L. Jackson explores literary Americanism through writings of black Hispanic authors such as Carlos Guillermo Wilson Quince Duncan and Nelson Estupi n Bass that in many ways provide a microcosm for the larger literature Jackson traces the roots of Afro Hispanic literature from the early twentieth century Afrocriollo movement the Harlem Renaissance of Latin America to the fiction and criticism of black Latin Americans today Black humanism arose from Afro Hispanics self discovery of their own humanity and the realization that over the years they had become not only defenders of threatened cultures but also symbolic guardians of humanity This humanist tradition had enabled writers such as Manuel Zapata Olivella to write of a Latin America from below the slave ship deck and from inside the mind of Africa Though many writers have adopted black literary models in their quest for a poetry of sources of fundamental human values Jackson demonstrates that literature about blacks by blacks themselves is clearly separate from yet instrumental to these other works Relating the vision of Latin American blacks not only to other Latin American writers but also to North American literary critics such as Eugene Goodheart and John Gardner Jackson stresses the universal power of resisting oppression and injustice through the language of humanism *The Cambridge History of Latin American Literature* Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-19 *The Cambridge History of Latin American Literature* is by far the most comprehensive work of its kind ever written Its three volumes cover the whole sweep of Latin American literature including Brazilian from pre Colombian times to the present and contain chapters on Latin American writing in the USA Volume 3 is devoted partly to the history of Brazilian literature from the earliest writing through the colonial period and the Portuguese language traditions of the nineteenth and twentieth centuries and partly also to an extensive bibliographical section in which annotated reading lists relating to the chapters in all three volumes of *The Cambridge History of Latin American Literature* are presented These

bibliographies are a unique feature of the History further enhancing its immense value as a reference work A Companion to Latin American Literature Stephen M. Black in Print Jennifer Carolina Gómez Menjívar, 2023-05-01 Black in Print examines the role of narrative from traditional writing to new media in conversations about race and belonging in the isthmus It argues that the production circulation and consumption of stories has led to a trans isthmian imaginary that splits the region along racial and geographic lines into a white mestizo Pacific coast an Indigenous core and a Black Caribbean Across five chapters Jennifer Carolina G mez Menj var identifies a series of key moments in the history of the development of this imaginary Independence Intervention Cold War Post Revolutionary and Digital Age G mez Menj var s analysis ranges from literary beacons such as Rub n Dar o and Miguel ngel Asturias to less studied intellectuals such as Wingston Gonz lez and Carl Rigby The result is a fresh approach to race the region and its literature Black in Print understands Central American Blackness as a set of shifting coordinates plotted on the axes of language geography and time as it moves through print media

Writing Rumba Miguel Arnedo-Gómez, 2006 Arising in the heyday of the music recently made famous by the Buena Vista Social Club afrocubanismo was an artistic and intellectual movement in Cuba in the 1920s and 1930s that tried to convey a national and racial identity Through poetry this movement was the first serious attempt on the part of mostly white Cuban intellectuals to produce a national literature that incorporated elements from the Afro Cuban traditions of lower class urban blacks One of its main objectives was to project an image of Cuban identity as a harmonious process of fusion between black and white people and cultures The notion of a unified nation without racial conflicts and the idea of a mulatto Cuban culture and identity continue to play a prominent role in the Cuban imagination The first book length treatment of the poetry of this movement *Writing Rumba The Afrocubanista Movement in Poetry* questions the assumption that the poetry did manage to symbolize racial reconciliation and unification At the same time it reveals a process of literary transculturation by which the dominant literature of European origins was radically transformed through the incorporation of formal principles from Afro Cuban dance and music forms To make his case Miguel Arnedo G mez establishes the nature of the movement s connections to Cuban blacks during this time analyzes the poetry s links with the represented cultures on the basis of anthropological and ethnographic research and explores the thought of leading figures of the movement tying their discourse to specific sociocultural factors in Cuba at the time Relating the poetry to music and dance he further illuminates the interplay of power and culture in a social context Essential for understanding Cuban nationalism and race relations today *Writing Rumba* will appeal to an interdisciplinary audience not only in regional cultural and anthropological fields but also in the fields of music dance and literature

Writing the Afro-Hispanic Conrad James, 2012-02-15 The impact of the African Diaspora in Spanish America is far greater than is understood or acknowledged in the English speaking world Connected initially to the Spanish Caribbean through trans Atlantic slavery Africa is so deeply ingrained in the biology and culture of these countries

that in the words of the Cuban poet Nicolas Guillen it would require the work of a miniaturist to disentangle that hieroglyph. Through complex explorations of narratives of Spanish Blacks in the Caribbean this collection of essays builds critically on mid and late twentieth century Afro Hispanist scholarship and thereby amplifies the terms in which Africans in the Americas are generally discussed. Each of these essays deals with a pivotal aspect of the African experience in the Spanish speaking Caribbean from the period of slavery to the present day. The essays focus on Black African cultures in Cuba, Puerto Rico, the Dominican Republic as well as in the circum Caribbean areas of Mexico and Colombia. In the process they cover a vast and highly involved range of issues including abolition and the politics of anti slavery rhetoric, African women's political activism, performance, poetry and female embodiment of the Black Diaspora, the Cuban Revolution and its investment in African liberation, struggles, race and intra Caribbean migration, ritualised spirituality and African healing practices among others. Through their investigation of both official and popular cultures in the Caribbean not only do the essays in this volume show the indispensable functions of African cultural capital in the Spanish speaking Caribbean but they also underline the multiple demographic, socio political and institutional imperatives that are at stake in considering contemporary understandings of the African Diaspora.

Negras in Brazil Kia Caldwell, 2007-01-05. For most of the twentieth century Brazil was widely regarded as a racial democracy, a country untainted by the scourge of racism and prejudice. In recent decades however this image has been severely critiqued with a growing number of studies highlighting persistent and deep seated patterns of racial discrimination and inequality. Yet recent work on race and racism has rarely considered gender as part of its analysis. In *Negras in Brazil* Kia Lilly Caldwell examines the life experiences of Afro Brazilian women whose stories have until now been largely untold. This pathbreaking study analyzes the links between race and gender and broader processes of social, economic and political exclusion. Drawing on ethnographic research with social movement organizations and thirty five life history interviews, Caldwell explores the everyday struggles Afro Brazilian women face in their efforts to achieve equal rights and full citizenship. She also shows how the black women's movement which has emerged in recent decades has sought to challenge racial and gender discrimination in Brazil. While proposing a broader view of citizenship that includes domains such as popular culture and the body, *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities. Providing new insights into black women's social activism and a gendered perspective on Brazilian racial dynamics, this book will be of interest to students and scholars of Latin American Studies, African diaspora studies, women's studies, politics and cultural anthropology.

Puerto Rican Cultural Identity and the Work of Luis Rafael Sánchez John Perivolaris, 2000. This book undertakes the most comprehensive and theoretically rigorous examination to date of Luis Rafael Sánchez's work in the context of cultural politics in Puerto Rico and of the international and regional dimensions of Sánchez's work in relation to *The Cambridge Companion to Latin American Poetry*. Stephen M. Hart, 2018-03-15. *The Cambridge Companion to Latin American Poetry* provides historical context on the evolution of the

Latin American poetic tradition from the sixteenth century to the present day It is organized into three parts Part I provides a comprehensive chronological survey of Latin American poetry and includes separate chapters on Colonial poetry Romanticism modernism the avant garde conversational poetry and contemporary poetry Part II contains six succinct essays on the major figures Sor Juana In s de la Cruz Gabriela Mistral C sar Vallejo Pablo Neruda Carlos Drummond de Andrade and Octavio Paz Part III analyses specific and distinctive trends within the poetic canon including women s LGBT Quechua Afro Hispanic Latino a and New Media poetry This Companion also contains a guide to further reading as well as an essay on the best English translations of Latin American poetry It will be a key resource for students and instructors of Latin American literature and poetry

Dance Between Two Cultures William Luis,2001 Offers insights on Latino Caribbean writers born or raised in the United States who are at the vanguard of a literary movement that has captured both critical and popular interest In this groundbreaking study William Luis analyzes the most salient and representative narrative and poetic works of the newest literary movement to emerge in Spanish American and U S literatures The book is divided into three sections each focused on representative Puerto Rican American Cuban American and Dominican American authors Luis traces the writers origins and influences from the nineteenth century to the present focusing especially on the contemporary works of Oscar Hijuelos Julia Alvarez Cristina Garcia and Piri Thomas among others While engaging in close readings of the texts Luis places them in a broader social historical political and racial perspective to expose the tension between text and context As a group Latino Caribbeans write an ethnic literature in English that is born of their struggle to forge an identity separate from both the influences of their parents culture and those of the United States For these writers their parents country of origin is a distant memory They have developed a culture of resistance and a language that mediates between their parents identity and the culture that they themselves live in Latino Caribbeans are engaged in a metaphorical dance with Anglo Americans as the dominant culture Just as that dance represents a coming together of separate influences to make a unique art form so do both Hispanic and North American cultures combine to bring a new literature into being This new body of literature helps us to understand not only the adjustments Latino Caribbean cultures have had to make within the larger U S environment but also how the dominant culture has been affected by their presence

Scripts of Blackness Isar P Godreau,2015-01-30 The geopolitical influence of the United States informs the processes of racialization in Puerto Rico including the construction of black places In *Scripts of Blackness* Isar P Godreau explores how Puerto Rican national discourses about race created to overcome U S colonial power simultaneously privilege whiteness typecast blackness and silence charges of racism Based on an ethnographic study of the barrio of San Ant n in the city of Ponce *Scripts of Blackness* examines institutional and local representations of blackness as developing from a power laden process that is inherently selective and political not neutral or natural Godreau traces the presumed benevolence or triviality of slavery in Puerto Rico the favoring of a Spanish colonial whiteness under a hispanophile discourse and the insistence on a harmonious race mixture as discourses that thrive on a

presumed contrast with the United States that also characterize Puerto Rico as morally superior. In so doing she outlines the debates, social hierarchies and colonial discourses that inform the racialization of San Ant n and its residents as black. Mining ethnographic materials and anthropological and historical research, *Scripts of Blackness* provides powerful insights into the critical political, economic and historical context behind the strategic deployment of blackness, whiteness and racial mixture.

Segregated Miscegenation Carlos Hiraldo, 2014-02-04 Through the comparative study of literatures from the United States and Latin America, *Segregated Miscegenation* questions received notions of race and nation. Carlos Hiraldo examines the current understanding of race in the United States alongside alternative models of racial self-definition in Latin America. His provocative analysis traces the conceptualization of blackness in fiction and theories of the novel and troubles the racial and ethnic categories particular to each region's literary tradition.

Routes of Passage: Rethinking the African Diaspora Ruth Simms Hamilton, 2006-11-09 *Routes of Passage* provides a conceptual, substantive and empirical orientation to the study of African people worldwide. The book addresses issues of geographical mobility and geosocial displacement, changing culture, political and economic relationships between Africa and its diaspora, interdiaspora relations, political and economic agency and social mobilization, including cultural production and psychocultural transformation, existence in hostile and oppressive political and territorial space and confronting interconnected relations of social inequality, especially class, gender, nationality and race.

The Politics of Race in Panama Sonja S. Watson, 2016-11-23 This volume tells the story of two cultural groups: Afro-Hispanics whose ancestors came to Panama as African slaves and West Indians from the English-speaking countries of Jamaica and Barbados who arrived during the mid-nineteenth and early twentieth centuries to build the railroad and the Panama Canal. While Afro-Hispanics assimilated after centuries of *mestizaje* (race mixing) and now identify with their Spanish heritage, West Indians hold to their British Caribbean roots and identify more closely with Africa and the Caribbean. By examining the writing of black Panamanian authors, Sonja Watson highlights how race is defined, contested and inscribed in Panama. She discusses the cultural, racial and national tensions that prevent these two groups from forging a shared Afro-Panamanian identity, ultimately revealing why ethnically diverse Afro-descendant populations continue to struggle to create racial unity in nations across Latin America and the Caribbean.

Coming of Age in the Afro-Latin American Novel Bonnie S. Wasserman, 2022 This book is the first study of recent coming-of-age novels from Brazil and the Spanish-speaking Caribbean. I investigate the divide in Afro-Latin American research that usually favors either Hispanic America or Brazil but not both. I argue that contemporary novelists have adapted the coming-of-age novel to explore central themes in the Afro-Latin American experience, such as Blackness, African religions and folkloric traditions, and immigration. While there is no firm consensus on the term Blackness, scholars typically use the term to describe the social, cultural and historical experience of Afro-descendants in the diaspora. The Afro-Latin American bildungsromans examined in this study include a number of religions, such as Catholicism, Spiritism and syncretic folk religions, as well as Santería and Umbanda, reflecting the variety of

beliefs in Latin America I have found that young people turn to religions and spiritual traditions in time of need Going on a journey as part of one's personal development is one of the central themes of many bildungsroman and this pertains too in Afro Latin American novels Caribbean characters are depicted as immigrating to the United States whereas few Brazilians have enough resources to travel to North America and instead move to larger cities within their own country

From the Tricontinental to the Global South Anne Garland Mahler, 2018-04-19 In *From the Tricontinental to the Global South* Anne Garland Mahler traces the history and intellectual legacy of the understudied global justice movement called the Tricontinental an alliance of liberation struggles from eighty two countries founded in Havana in 1966 Focusing on racial violence and inequality the Tricontinental's critique of global capitalist exploitation has influenced historical radical thought contemporary social movements such as the World Social Forum and Black Lives Matter and a Global South political imaginary The movement's discourse which circulated in four languages also found its way into radical artistic practices like Cuban revolutionary film and Nuyorican literature While recent social movements have revived Tricontinentalism's ideologies and aesthetics they have largely abandoned its roots in black internationalism and its contribution to a global struggle for racial justice In response to this fractured appropriation of Tricontinentalism Mahler ultimately argues that a renewed engagement with black internationalist thought could be vital to the future of transnational political resistance
