The Black Situation:

African American Viewers and the Black Situation Comedy Robin R. Means Coleman, 1998 Providing new insight into key debates over race and representation in the media this ethnographic study explores the ways in which African Americans have been depicted in Black situation comedies from 1950 s Beulah to contemporary series like Martin and Living Single

The Rise and Demise of Black Theology Alistair Kee, 2008-04-30 Black Theology emerged in the 1960s as a response to black consciousness In South Africa it is a critique of power in the UK it is a political theology of black culture The dominant form of Black Theology has been in the USA originally influenced by Black Power and the critique of white racism Since then it claims to have broadened its perspective to include oppression on the grounds of race gender and class In this book Alistair Kee contests this claim arguing that Black and Womanist Theologies present inadequate analysis of race and gender and no account at all of class or economic oppression With a few notable exceptions Black Theology in the USA repeats the mantras of the 1970s the discourse of modernity Content with American capitalism it fails to address the source of the impoverishment of black Americans at home Content with a romantic image of Africa this African American movement fails to defend contemporary Africa against predatory American global ambitions Blacks in the West Kee claims here are no longer the victims they are the voters and consumers who should be able to influence western governments the American government in particular into changing policies towards Africa in particular and the third world in general This book does not argue that Black theologians should give up but that they should move on for the sake of the black poor in America the black poor in Africa and the third world The failure of Black theologians to do so is a cause for concern beyond the circle of practitioners of Black theology

The Spirit among the dissenters William H. Brackney, 2019-02-15 This work examines the development of a dissenting perspective on the emerging doctrine of the Holy Spirit in Post Reformation Protestant thought By dissenting the author means beyond the mainstream of thought sometimes affirming but expanding orthodox positions but at other times pursuing new directions and images of the Spirit A new look is offered at the Puritan Separatist era in English dissenting traditions as well as organized dissenters in the seventeenth and eighteenth centuries Of particular interest are the applications of current philosophic and scientific writers There are sections on major German thinkers of the nineteenth century and major influential theologians of the last century who laid new foundations in the doctrine of the Holy Spirit Readers will be interested in the inclusion of new religious movements in two eras and creative contemporary ideas of the Spirit How an ongoing dissenting perspective contrasts with mainstream thinking is woven through four centuries of literature on the Spirit The author contends that we have learned much from the dissenting perspective and he offers seven constructive affirmations of the Spirit of God drawn from his survey and analyses of the previous four centuries The bibliography is comprehensive of major works on the doctrine of the Holy Spirit plus unusual sources of dissenting thought

Heroism in the New Black Poetry D.H. Melhem, 2021-12-14 D H Melhem s clear introductions and frank interviews

provide insight into the contemporary social and political consciousness of six acclaimed poets Amiri Baraka Gwendolyn Brooks Jayne Cortez Haki R Madhubuti Dudley Randall and Sonia Sanchez Since the 1960s the poet hero has characterized a significant segment of Black American poetry The six poets interviewed here have participated in and shaped the vanguard of this movement Their poetry reflects the critical alternatives of African American life separatism and integration feminism and sexual identity religion and spirituality humanism and Marxism nationalism and internationalism They unite in their commitment to Black solidarity and advancement *Black Political Mobilization, Leadership, Power and Mass Behavior* Minion K. C. Morrison, 1987-01-01 Black Political Mobilization accounts for the political success of black Americans in the South Minion Morrison returns to Mississippi the center of much of the political activism of the 1960s to analyze the remarkable improvement in black electoral participation in the years following passage of the Voting Rights Act of 1965 Mississippi's substantial black population has experienced marked electoral success despite a history of strict racial exclusion The dramatic and widespread nature of mobilization there makes it one of the most illustrative case studies for exploring this period of political change in America Mississippi represents a broader phenomenon of political change that sustains a new leadership class in the Southern region Three rural Mississippi towns serve as the focal point for the study They each have a population of under 2 000 have overwhelming Afro American voting majorities are poor and largely agricultural have been affected by the civil rights movement of the 60s and have elected a black mayor since 1973 The towns are prime examples of the character and process of minority electoral politics and mobilization in the rural South A new class of black leaders is nurtured and installed in office in an environment where a newly and highly mobilized constituency takes advantage of its majority status in the electorate This book combines good theory with lively interviews and rich case histories to highlight an essentially new variety of participatory democracy in American politics and government *Farewell to Innocence* Allan Aubrey Boesak, 2015-05-01 While we acknowledge that all expressions of liberation theology are not identical we must protest very strongly against the false divisions that some make between black theology in South Africa and black theology in the United States between black theology and African theology and between black theology and Latin American liberation theology But moving away from the illusioned universality of western theology to the contextuality of liberation theology is a risky business one that cannot be done innocently In the search for theological and human authenticity in its own situation black theology does not stand alone It is but one expression of this search going on within many different contexts Until now the Christian church had chosen to move through history with a bland kind of innocence hiding the painful truths of oppression behind a facade of myths and real or imagined anxieties This is no longer possible The oppressed who believe in God the Father of Jesus Christ no longer want to believe in the myths created to subjugate them It is no longer possible to innocently accept history as it happens silently hoping that God would take the responsibility for human failure The theology of liberation spells out this realization For the Christian church it constitutes in no uncertain

terms farewell to innocence Christian Identity Borgh,2008-07-31 In this age of globalization a need for a communicative explanation of personal and group positions also motivates Christians to describe more precisely their identity in relation to other actors in society What makes a Christian a Christian What is specifically Christian in social actions or political calling Is there a difference between Christian justice and justice in general and the way Christians deal with justice What is our calling as Christians The contributions in this volume are the result of the 6th biannual IRTI conference in Seoul 2005 on this theme Theology in the Mode of Monk: An Aesthetics of Barth and Cone on Revelation and Freedom, Volume 3 Raymond Carr,2024-11-19 This captivating study engages two of the most influential theologians of the twentieth century Karl Barth the Swiss Protestant theologian who constructed his theology from above and engaged the powers in the background of Nazi Germany and James H Cone the father of Black Theology in America who constructed his theology from below and confronted white racism the most intractable issue in America's history In this three volume project Carr employs the aesthetic thinking of the jazz legend Thelonious Monk to reconceptualize restructure and advance the theologies of Barth and Cone In this final volume Carr appeals to Thelonious Monk's tune Misterioso as the analogical framework for exploring the freedom of God as the melodic foundation for black liberation Monk's mode of musical thinking encourages the jazz artist in us all to play in the mystery of God's freedom as the true ground for living freely within the world of the principalities and powers *The Soul-less Souls of Black Folk* Paul C. Mocombe,2008-12-24 Since the 1960s there have been two schools of thought on the origins and nature of black consciousness the adaptive vitality school and the pathological pathogenic school The latter argues that in its divergences from white American norms and values black American consciousness is nothing more than a pathological form of and reaction to American consciousness rather than a dual both African and American counter hegemonic opposing identity in differential the term is Gayatri Spivak's to the American one Proponents of the adaptive vitality school argue that the divergences are not pathologies but African institutional transformations preserved on the American landscape The purpose of this work is to understand black consciousness by working out the theoretical and methodological problems from which these two divergent schools are constructed in order to arrive at a more sociohistorical rather than racial understanding of black consciousness Using a variant of structuration theory to account for the sociohistorical development of black consciousness formation within the American social structure author Paul Mocombe concludes that black American life is dual and pathological only in relation to a particular interpretive community the black bourgeoisie or liberal middle class **The Black Panther Party in a City near You** Judson L. Jeffries,2018-02-01 This is the third volume in Judson L. Jeffries's long range effort to paint a more complete portrait of the most widely known organization to emerge from the 1960s Black Power Movement Like its predecessors *Comrades A Local History of the Black Panther Party* 2007 and *On the Ground The Black Panther Party in Communities across America* 2010 this volume looks at Black Panther Party BPP activity in sites outside Oakland the most studied BPP locale and the one long associated with

oversimplified and underdeveloped narratives about and distorted images of the organization The cities covered in this volume are Atlanta Boston Dallas and Washington D C The contributors examine official BPP branches and chapters as well as offices of the National Committee to Combat Fascism that evolved into full fledged BPP chapters and branches They have mined BPP archives and interviewed members to convey the daily ups and downs related to BPP s social justice activities and to reveal the diversity of rank and file BPP members personal backgrounds and the legal political and social skills or baggage that they brought to the BPP The BPP reportedly had a presence in some forty places across the country During this time no other Black Power Movement organization fed as many children provided healthcare to as many residents educated as many adults assisted as many senior citizens and clothed as many people In point of fact no other organization of the Black Power era had as great an impact on American lives as did the BPP Nonetheless when Jeffries undertook this project chapter level scholarly investigations of the BPP were few and far between This third book The Black Panther Party in a City Near You raises the number of BPP branches that Jeffries and his contributors have examined to seventeen Contributors Curtis Austin Judson L Jeffries Charles E Jones Ava Kinsey Duncan MacLaury Sarah Nicklas John Preusser

A Black Theology of Liberation James H. Cone, 2010 With the publication of his two early works Black Theology Black Power 1969 and A Black Theology of Liberation 1970 James Cone emerged as one of the most creative and provocative theological voices in North America These books which offered a searing indictment of white theology and society introduced a radical reappraisal of the Christian message for our time Combining the visions of Malcolm X and Martin Luther King Jr Cone radically reappraised Christianity from the perspective of the oppressed black community in North America Forty years later his work retains its original power enhanced now by reflections on the evolution of his own thinking and of black theology and on the needs of the present moment

Speculations on Black Life Darrell Jones, Monifa Love, Anthony B. Pinn, 2023-05-18 Is God a white racist Posed by

William R Jones in his ground breaking book of the same name this question disrupted the theological assumptions that marked Black religious thought from early writings of the 1800s to the formation of Black theology in the 1960s This book compiles his key and essential writings related to over three decades of critical reflection on race religion secularism and oppression in the United States Over the course of 30 years Jones pushed questions and considerations that refined Black theology and that gave greater shape to and understanding of Black philosophers intervention into issues of racial and structural inequality His philosophical work related to the grid of oppression fosters an approach to the nature and meaning of oppression in the United States encouraging rational interrogation of structures of injustice and thought patterns supporting those structures Still relevant today the straightforward style of communication used by Jones makes these essays easily accessible to a popular audience while maintaining intellectual rigor making the book also suitable for an academy based audience

Social Policy and Public Policy Lee Rainwater, 2017-07-28 This classic volume was originally designed as an introduction to social science perspectives on a broad range of social issues in American society specifically the complex social problems of the 1960s Because the volume is structured as a survey it is neither exhaustive or definitive It does provide a wide range of information about these problems as well as the many different policy initiatives that were developed to cope with them Readers can learn a great deal about the common themes predilections and quandaries that characterized United States responses to the complex problems of the 1960s and the patterns of inequality and injustice prevalent at that time The essays were selected to cover the range of substantive problematic issues of the period the social science perspectives that were brought to bear on them and the range of social science methodologies used Finally the selections emphasize the contributions that can be made to understanding social problems by intensive and rigorous social science research Journalists and popular writers use a common sense approach to their study of social problems and the results are often imaginative and incisive The tools of social scientists produce information and analyses that contribute far more to our understanding than even the most insightful journalist can achieve The selections in this volume highlight the deeper and more fundamental understanding of social issues that can come from rigorous analysis of government statistics and from special sample surveys from in depth ethnographic studies

Third Conference on Empirical Research in Black Psychology William E. Cross, 1977

Blacks in the Jewish Mind Seth Forman, 1998-07-01 Since the 1960s the relationship between Blacks and Jews has been a contentious one While others have

attempted to explain or repair the break up of the Jewish alliance on civil rights Seth Forman here sets out to determine what Jewish thinking on the subject of Black Americans reveals about Jewish identity in the U S Why did American Jews get involved in Black causes in the first place What did they have to gain from it And what does that tell us about American Jews In an extremely provocative analysis Forman argues that the commitment of American Jews to liberalism and their historic definition of themselves as victims has caused them to behave in ways that were defined as good for Blacks but which in essence were contrary to Jewish interests They have not been able to dissociate their needs religious spiritual communal political from those of African Americans and have therefore acted in ways which have threatened their own cultural vitality Avoiding the focus on Black victimization and white racism that often infuses work on Blacks and Jews Forman emphasizes the complexities inherent in one distinct white ethnic group s involvement in America s racial dilemma *Researching Black Communities* James S.
