Black Cowboys in the American West Bruce A. Glasrud, Michael N. Searles, 2016-09-28 Who were the black cowboys They were drovers foremen fiddlers cowpunchers cattle rustlers cooks and singers They worked as wranglers riders ropers bulldoggers and bronc busters They came from varied backgrounds some grew up in slavery while free blacks often got their start in Texas and Mexico Most who joined the long trail drives were men but black women also rode and worked on western ranches and farms The first overview of the subject in more than fifty years Black Cowboys in the American West surveys the life and work of these cattle drivers from the years before the Civil War through the turn of the twentieth century Including both classic previously published articles and exciting new research this collection also features select accounts of twentieth century rodeos music people and films Arranged in three sections Cowboys on the Range Performing Cowboys and Outriders of the Black Cowboys the thirteen chapters illuminate the great diversity of the black cowboy experience Like all ranch hands and riders African American cowboys lived hard dangerous lives But black drovers were expected to do the roughest most dangerous work and to do it without complaint They faced discrimination out west albeit less than in the South which many had left in search of autonomy and freedom As cowboys they could escape the brutal violence visited on African Americans in many southern communities and northern cities Black cowhands remain an integral part of life in the West the descendants of African Americans who ventured west and helped settle and establish black communities This long overdue examination of nineteenth and twentieth century black cowboys ensures that they and their many stories and experiences will continue to be known and told

The Black West in Story and Song Michael Patrick, 2006-02 The illustrations of Keith Conaway and the story songs of Cecil Williams present the American West as few have known it Coupled with Michael Patrick's narrative a neglected part of American history becomes vivid The role of African Americans in settling the West comes alive The explorers homesteaders cowboys outlaws cavalymen rodeo riders and town founders are all there filled with life and energy and telling a complete story of the West Their living on the plains and in mountains in a free relatively integrated society is a story that completes the history of a country that is diverse

Uninvited Neighbors Herbert G. Ruffin,2014-03-28 In the late 1960s African American protests and Black Power demonstrations in California s Santa Clara County including what s now called Silicon Valley took many observers by surprise After all as far back as the 1890s the California constitution had legally abolished most forms of racial discrimination and subsequent legal reform had surely taken care of the rest White Americans might even have wondered where the black activists in the late sixties were coming from because beginning with the writings of Fredrick Jackson Turner the most influential histories of the American West simply left out African Americans or later portrayed them as a passive and insignificant presence Uninvited Neighbors puts black people back into the picture and dispels cherished myths about California s racial history Reaching from the Spanish era to the valley s emergence as a center of the high tech industry this is the first comprehensive history of the African American experience in the Santa Clara Valley Author Herbert G Ruffin II s study presents the black experience in a new way with a focus on how despite their smaller numbers and obscure presence

African Americans in the South Bay forged communities that had a regional and national impact disproportionate to their population. As the region industrialized and spawned suburbs during and after World War II, its black citizens built institutions such as churches, social clubs, and civil rights organizations and challenged socioeconomic restrictions. Ruffin explores the quest of the area's black people for the postwar American Dream. The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950, which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose. Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate but where the white embrace of racial justice and equality was often insincere. The result offers a new view of the intersection of African American history and the history of the American West.

Black Montana Anthony W. Wood, 2021-07 *Black Montana* argues that the state of Montana in its capacity as a settler colony worked to exclude the Black community that began to form inside its borders after Reconstruction.

The Crisis of the Negro Intellectual Harold Cruse, 2005-06-30 Published in 1967 as the early triumphs of the Civil Rights movement yielded to increasing frustration and violence, *The Crisis of the Negro Intellectual* electrified a generation of activists and intellectuals. The product of a lifetime of struggle and reflection, Cruse's book is a singular amalgam of cultural history, passionate disputation, and deeply considered analysis of the relationship between American blacks and American society. Reviewing black intellectual life from the Harlem Renaissance through the 1960s, Cruse discusses the legacy and offers memorably acid-edged portraits of figures such as Paul Robeson, Lorraine Hansberry, and James Baldwin, arguing that their work was marked by a failure to understand the specifically American character of racism in the United States. This supplies the background to Cruse's controversial critique of both integrationism and black nationalism and to his claim that black Americans will only assume a just place within American life when they develop their own distinctive centers of cultural and economic influence. For Cruse's most important accomplishment may well be his rejection of the clichés of the melting pot in favor of a vision of Americanness as an arena of necessary and vital contention, an open and ongoing struggle.
